

III. Femora of hind legs are white at the base, with a white line reaching almost to the knee; on fore and mid legs this line is not so distinct nor is it so long; the metatarsi of the hind legs have a basal white band, and those of the fore and mid legs a basal white spot.

IV. The first submarginal cell varies in length, but is as long as, usually longer, and sometimes more than twice as long as its stem.

Under *Myzorrhyncus pseudobarbistrois*,† Ludlow, after "antennæ a lighter brown," delete "minute apical bands on the joints," the effect is caused by reflections.

This seems to be a rare mosquito, having been taken once at Hagonoy, Bulacan, Luzon, Oct., 1901, by Dr. Kellogg, and once at Cottabato, Mindanao, June, 1903, by Dr. Thornton.

It is also necessary that *Culex annulifera*,‡ Ludlow, appear as *Culex annuliferus*, Ludlow.

#### DR. JOHN HERBERT SANGSTER.

We regret to record the death of Dr. J. H. Sangster, which took place in Toronto on the 27th of January. He was one of the original members of the Entomological Society of Ontario, and during its early years took an active part in its proceedings, but for a long time past he had ceased to take any interest in the Society or its pursuits.

He was born in England in 1831, and coming to Canada when a child received his education in this country. The principal part of his life was devoted to scholastic work, his first position being that of an assistant master in the Model School at Toronto. Subsequently he was placed in charge of the Provincial Grammar School; later on he became Head Master of the Ontario Normal School, and finally Professor of Chemistry and Botany in Victoria University. During the earlier portion of his career he published a number of schoolbooks, which were for a long time in general use in the Public Schools of the Province, and made his name familiar throughout the length and breadth of the land. He also wrote extensively on public topics in the newspaper press. Since his retirement from active work he lived in Port Perry, Ont., and was highly respected by all who knew him.
