# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND IRWIN MOORE

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

## UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & Co., 31-33 East 10th Street, New York.

## Hyperæmia Therapy

*Hanovia  
Sollux  
Lamps.*  
(Prices £9, 7s.  
to £25.)

“All the benefits of an active hyperæmia follow radiant energy. Radiant heat-light is the ideal treatment which is now quite generally employed by many otologists. Our experience with radiant energy in the various types of otitis media extends over a large series of cases. We have limited its use to acute middle ear disease, with or without suppuration. Relief of the otalgia is prompt.”

(HOLLENDER and COTTLE, “Physical Therapy in Disease of the Eye, Ear, Nose and Throat,” 1926.)

*Write for literature Set 18*

# HOSPITAL FOR DISEASES OF THE THROAT

GOLDEN SQUARE, LONDON, W. 1

## HONORARY MEDICAL STAFF

### Surgeons

Mr T. JEFFERSON FAULDER

Mr G. A. DAWSON

Mr GEORGE W. BADGEROW

Mr GILBERT CHUBB

Mr LIONEL COLLEDGE

Mr THEODORE JUST

### Assistant Surgeons

Mr ORMEROD

Mr DINGLEY

Mr BEDFORD RUSSEL

Mr SANDIFORD

The Hospital, which has for some considerable time been undergoing very extensive reconstruction and extension, has nearly 80 beds for In-patients and an annual Out-patient attendance of over 60,000.

### CLINICAL INSTRUCTION

Clinical Instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is daily given in the Out-patient Department from 2 to 5 p.m. On Tuesdays and Fridays from 6.30 to 9 p.m. also. Major operations are performed daily, except Mondays and Saturdays, in the In-patient Operating Theatres. Minor operations are performed in the Out-patient Department by the Assistant Surgeons on four mornings a week.

Practitioners and Medical Students are admitted to the practice of the hospital and Clinical Assistants, whose duty it is to assist the staff, are appointed from time to time among them. For further information apply to the Dean, THEODORE JUST.

### CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

*Manufactured only by*

## DOWN BROS., L<sup>TD</sup>.

SURGICAL INSTRUMENT MAKERS

21 and 23 ST THOMAS'S STREET

LONDON, S.E. 1

(Opposite Guy's Hospital)

Telegrams—"DOWN, LONDON."

ARCHER RYLAND, F.R.C.S.Ed.,  
*Dean.*

RICHARD KERSHAW,  
*Secretary-Superintendent.*

# ORARGOL

(A.F.D.)

An electrically prepared suspension  
of colloidal silver and gold for

## RHINO - LARYNGOLOGY OPHTHALMOLOGY

AND  
GENERAL ANTISEPSIS.

Indicated in the same diseases as colloidal silver,  
Orargol has a superior action because of the addition  
of the powerfully anti-infectious colloidal gold.

*LITERATURE and SAMPLES*

FROM

**THE ANGLO-FRENCH DRUG Co. Ltd.,**

238a GRAY'S INN ROAD,  
LONDON    ::    W.C.1.

*Also supplied  
in Bulk.*
