Invaluable information for Aircraft Manufacturers is contained in
“AIRCRAFT SUPPLIES”
 our Fortnightly House Journal.

The first issue of a new volume (Vol. 3) appeared on Thursday, Jan. 3rd, and contained, in addition to the usual complete Illustrated Stock List, Current Prices, Details of New Items, Enquiry Bureau, etc., etc., an extremely interesting and instructive article by G. H. Mansfield. Copies will be sent free on

receipt of application on business stationery.

We have over five million parts actually in stock, from a tiny screw to a complete unit. Deliveries without delay. Send us your requirements and let us quote you by return.

THE "GUARDIAN ANGEL" PARACHUTES.

For Life Saving uses on the Training Grounds : and for special Naval and Military operations. Open automatically, and dropped from Aeroplanes, always carry their man within $2\frac{1}{2}$ seconds. Open instantaneously, and bring their man safely to the ground from any height above 200 feet. All the Airman has to do is to jump overboard, everything else is done for him automatically. Pilots can in the last resort charge enemy Aeroplanes with every prospect of their own safety. Non-spinning Shock-Absorber Slings, taking all shocks off the Parachutist and Parachute. Aviator's Harness, to carry safely a wounded or insensible man. Instant release on landing. Standardised in every detail, air and waterproof, they can be carried continuously for six months. These Parachutes are under static and kinetic control in all the phases of their action. There is no possibility of the entanglement of their rigging in the fiercest air current. These Parachutes can be dropped with absolute safety from Aeroplanes flying at any speed. These Parachutes reduce free-fall to its minimum, thus preserving the Airman's nerves. Adapted for use with every type of Aircraft, kite and free balloons, airships and aeroplanes. Special adaptations made for special purposes : they are adaptable to every kind of purpose. These Parachutes are sealed to prevent tampering : the seals are broken
 only in the act of usage.

RELIABILITY, first—RELIABILITY, second—
RELIABILITY ALL THE TIME.

**The Company's Entire Output is being
Taken by the Air Board.**
