

Index of Subjects

Numerals show only the initial pages concerned with the subject.

Numerals followed by the letter A refer to pages in Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society.

Abomasal ulcers

Associations between feeding, housing and the incidence of abomasal ulcers in veal calves
45, 32A, 1986

Absorption

Absorption of water and electrolytes from hypotonic, isotonic and hypertonic solutions
45, 78A, 1986

Adipose tissue

Activation of pyruvate dehydrogenase in rat white adipose tissue by both insulin and noradrenaline is muted during lactation 45, 76A, 1986
Adipose tissue cellularity and site-specific differences in adipocyte volume in genetically obese (*ob/ob*) mice 45, 101A, 1986
Effect of litter size on parametrial white fat cell size and lipolysis in lactating rats 45, 73A, 1986
Fatness of laying hens and their response to reduced energy intake 45, 102A, 1986

Afro-Caribbean mothers

A survey of infant feeding practice by Afro-Caribbean mothers in Birmingham 45, 87A, 1986

Alcoholic liver disease

Amino acid requirements in acute disease
45, 68A, 1986

Alcoholism

Nutritional status of vitamins E, C and B₂ in alcoholics in relation to the plasma phospholipid-2-esterified 9,11-linoleic acid: 9,12-linoleic acid value
45, 62A, 1986

Alzheimer's disease

Undernutrition in Alzheimer's disease
45, 85A, 1986

Amino acid requirements

Amino acid requirements in acute disease
45, 68A, 1986

Anabolic steroids

The effect of an anabolic steroid (Durabolin) on body composition of rats fed on protein- and energy-restricted diets 45, 109A, 1986

Anaemia

An association of anaemia with poor vitamin D status in otherwise adequately nourished Asian toddlers: a case for combined prophylaxis
45, 122A, 1986
Iron therapy increases the rate of weight gain and psychomotor development of anaemic toddlers: a double blind randomized controlled trial
45, 123A, 1986

Animal meat products

Animal meat products, processing and the consumer 45, 63-69, 1986

Anthropometric measurements

Comparison of weight-for-height and arm circumference in the assessment of acute malnutrition
45, 129A, 1986

Normal anthropometric values for a large group of London subjects: comparison with surgical patients 45, 58A, 1986

Anti-oxidants

Changes in the endogenous anti-oxidant levels of plasma and erythrocytes during *Plasmodium vinckei* malaria 45, 70A, 1986

Arachidonic acid

Effects of drugs altering arachidonic acid metabolism on production of interleukin 1 by monocyte-like cells 45, 31A, 1986

Aspartate aminotransferase (EC 2.6.1.1)

Aspartate aminotransferase (EC 2.6.1.1) activation by pyridoxal phosphate as an index of vitamin B₆ nutritional status: validity in the presence of oestrogen conjugates 45, 59A, 1986

Autonomic nerves

Control of liver enzyme activity by the autonomic nerves in sheep 45, 77A, 1986

Baclofen

Chronic effects of Baclofen on energy balance and thermogenesis in the rat 45, 112A, 1986

Bile acids

Faecal bile acid profiles and colonic carcinogenesis
45, 48A, 1986

Bile lipids

Comparative changes in the lipid compositions of liver and bile of the female broiler bird
45, 56A, 1986

Bile triacylglycerol

Effects of diet on triacylglycerol levels in the liver, bile and serum and on activities of enzymes concerned with lipid synthesis in the liver of the laying hen 45, 57A, 1986

Birth weight

Birth weight and feeding practices of infants in Southall, Middlesex 45, 60A, 1986
The effect on birth weight of a high-protein, low-carbohydrate diet during pregnancy
45, 90A, 1986

Body composition

Animal meat products, processing and the consumer 45, 63-69, 1986
Body composition of animals during suckling and the immediate post-weaning period
45, 81-89, 1986
Causes of variation in the body composition of growing pigs 45, 111-117, 1986
Changes in body composition during pregnancy and lactation 45, 71-80, 1986
Correlations between indirect and direct measurements of body composition 45, 55-62, 1986
Energy balance of corticosterone-treated rats in relation to body composition 45, 52A, 1986
Factors affecting the body composition of growing and adult animals 45, 45-53, 1986

- Nutritional obesity and body composition 45, 91-100, 1986
- Recent studies on the body composition of ruminants 45, 119-130, 1986
- The body composition of nutritionally-restricted ovine fetuses compared with young fetuses of the same weight 45, 91A, 1986
- The effect of an anabolic steroid (Durabolin) on body composition of rats fed on protein- and energy-restricted diets 45, 109A, 1986
- Variations in body composition of poultry 45, 101-109, 1986
- Boyd Orr Memorial Lecture**
- Food policy, nutrition and government 45, 131-138, 1986
- Branched-chain amino acids**
- Large neutral amino acids in the diet and neurotransmitter concentrations in the chick brain 45, 72A, 1986
- Leucine and protein kinetics following surgery in man given varying branched-chain amino acid concentrations in a parenteral nutrition regimen 45, 17A, 1986
- Breath hydrogen**
- A method for indirect study of neonatal gut flora? 45, 26A, 1986
- 'Cafeteria' diet**
- Possible involvement of prostaglandins in diet-induced thermogenesis of 'cafeteria' fed rats 45, 111A, 1986
- Cancer**
- Effects of radiotherapy on food acceptability in cancer patients 45, 8A, 1986
- Lung cancer: a starving disease 45, 3A, 1986
- Some long-term metabolic effects of primary tumour removal in patients with or without metastases 45, 14A, 1986
- Some ways of improving the nutrition of patients who are receiving radiotherapy of the head or neck 45, 21A, 1986
- Substrate oxidation in weight-stable and weight-losing cancer patients 45, 15A, 1986
- Value of preoperative parenteral feeding in patients with cancer of the oesophagus undergoing major surgery 45, 12A, 1986
- Carcass composition**
- Nutritional influences on carcass composition in the broiler chicken 45, 27-32, 1986
- Catecholamine excretion**
- The effects of continuous or nocturnal feeding on postoperative metabolism and catecholamine excretion 45, 2A, 1986
- Chick embryo**
- Genetic control of skeletal development in the chick embryo 45, 11-16, 1986
- Lipid metabolism in the chick embryo 45, 17-25, 1986
- Cholera toxin**
- The impact of zinc deficiency on the intestinal response to cholera toxin 45, 39A, 1986
- Colon cancer**
- Faecal bile acid profiles and colonic carcinogenesis 45, 48A, 1986
- Computers and nutrition**
- Use of a computer-administered 'healthy eating' quiz for data collection and health promotion 45, 86A, 1986
- Continuous feeding**
- The effects of continuous or nocturnal feeding on postoperative metabolism and catecholamine excretion 45, 2A, 1986
- Copper**
- Copper and disease resistance in sheep: a rare natural confirmation of interaction between a specific nutrient and infection 45, 317-325, 1986
- Copper deficiency**
- Copper deficiency and plasma glutathione concentration in rats 45, 115A, 1986
- Corticosterone**
- Effect of inhibition of corticosterone production by Trilostane on the catabolic response of the rat to the *Escherichia coli* endotoxin 45, 50A, 1986
- Energy balance of corticosterone-treated rats in relation to body composition 45, 52A, 1986
- Relation between increased heat production and 3,5,3'-triiodothyronine concentration in rats treated with catabolic doses of corticosterone 45, 53A, 1986
- The effects of inhibiting corticosterone production with Trilostane on protein and energy metabolism in young rats given restricted amounts of dietary protein and energy 45, 108A, 1986
- Crohn's disease**
- Amino acid requirements in acute disease 45, 68A, 1986
- Cyperus rotundus**
- A nutritional evaluation of the tuber of the plant *Cyperus rotundus* 45, 120A, 1986
- Dietary fibre**
- Influence of wheat bran, cellulose, pectin and low or high viscosity guar gum on glucose and water absorption from pig jejunum 45, 55A, 1986
- The effect of increased dietary fibre intake in patients with chronic renal failure 45, 25A, 1986
- Dietary survey**
- A survey of infant feeding practice by Afro-Caribbean mothers in Birmingham 45, 87A, 1986
- Diet-induced thermogenesis**
- Possible involvement of prostaglandins in diet-induced thermogenesis of 'cafeteria' fed rats 45, 111A, 1986
- Early development**
- Development of the gastrointestinal tract 45, 39-44, 1986
- Development of the neonatal lamb and piglet 45, 33-38, 1986
- Genetic control of skeletal development in the chick embryo 45, 11-16, 1986
- Lipid metabolism in the chick embryo 45, 17-25, 1986
- Nutritional influences on carcass composition in the broiler chicken 45, 27-32, 1986
- Nutrition of the conceptus: aspects of its regulation 45, 1-10, 1986

Energy balance

- Chronic effects of Baclofen on energy balance and thermogenesis in the rat 45, 112A, 1986
 Energy balance of corticosterone-treated rats in relation to body composition 45, 52A, 1986
 Measles, energy balance and childhood growth 45, 35A, 1986

Energy expenditure

- Some long-term metabolic effects of primary tumour removal in patients with or without metastases 45, 14A, 1986
 Substrate oxidation in weight-stable and weight-losing cancer patients 45, 15A, 1986
 Whole-body protein synthesis and energy balance in surgical patients 45, 16A, 1986

Energy intake

- Fatness of laying hens and their response to reduced energy intake 45, 102A, 1986
 The effects of energy intake in pregnancy and lactation on the reproductive performance of the sow and growth of the litter 45, 89A, 1986

Energy metabolism

- The effects of inhibiting corticosterone production with Trilostane on protein and energy metabolism in young rats given restricted amounts of dietary protein and energy 45, 108A, 1986

Energy requirements

- Notes on the new international estimates of energy requirements 45, 351-360, 1986

Environmental temperature

- Effect of ambient temperature and urea supplementation on the intake of fibrous diets by draught ruminants 45, 98A, 1986

Escherichia coli endotoxin

- Diurnal influences on the metabolic effects of two types of *Escherichia coli* endotoxin in rats 45, 83A, 1986
 Effect of inhibition of corticosterone production by Trilostane on the catabolic response of the rat to the *Escherichia coli* endotoxin 45, 50A, 1986
 Effect of lipoxygenase inhibitor, AA861, on the metabolic response to *Escherichia coli* endotoxin in rats 45, 38A, 1986
 Effects of Propranolol on fever, hypothermia and other metabolic effects of *Escherichia coli* endotoxins 45, 113A, 1986
 Inhibitory effects of indomethacin on some features of the metabolic response to *Escherichia coli* endotoxin in rats 45, 51A, 1986
 Response of the vitamin-E-deficient rat to severe protein deficiency and the *Escherichia coli* endotoxin 45, 114A, 1986
 The effect of fasting on the acute response of protein synthesis in muscle and liver to the *Escherichia coli* lipopolysaccharide 45, 36A, 1986

Escherichia coli enterotoxin

- Effect of *Escherichia coli* enterotoxin (STa) on mucosal surface pH in vivo in rat proximal jejunum 45, 80A, 1986

Ethnic group

- Birth weight and feeding practices of infants in Southall, Middlesex 45, 60A, 1986

Exercise

- A simple exercise test for field use in studies of nutritional assessment 45, 128A, 1986
 Effect of a 10 week jogging programme on metabolic rate in lean sedentary females 45, 121A, 1986
 Effects of pre-exercise feeding of glycerol or glucose on metabolism and endurance performance in man 45, 127A, 1986
 Lipid peroxidation during muscular exercise in man: inferences from the pulmonary excretion of n-pentane, isopentane and nitrogen 45, 64A, 1986
 The metabolic response to prolonged walking exercise in fed and fasted man 45, 126A, 1986
 Vitamin C restriction and physical performance 45, 65A, 1986

Extrusion cooking

- The effect of extrusion cooking of maize on iron and zinc availability 45, 41A, 1986

Faecal bacteria

- Degradation of guar gum by faecal bacteria 45, 105A, 1986

Fat intake

- The role of attitudes and nutritional knowledge in fat consumption 45, 44A, 1986

Fat metabolism

- The effects of postoperative metabolic support on lipolytic rates in patients undergoing elective abdominal surgery 45, 20A, 1986

Fatty acid intake

- Calculation of fatty acid intake 45, 45A, 1986

Fatty acid oxidation

- Effects of parental age on fatty acid oxidation in vitro by the liver and heart of the chick embryo 45, 103A, 1986

Fatty acids

- Effects of dietary fat concentration and saturation on the catabolic response of protein metabolism to *Escherichia coli* endotoxin 45, 27A, 1986
 Possible effects of dietary n-6 series polyunsaturated fatty acids on the development of immune dysfunction and infection 45, 327-331, 1986

Feeding frequency

- Effect of conservation method and frequency of feeding on forestomach motility 45, 96A, 1986
 The effect of conservation method and frequency of feeding on rumen microbial activity 45, 95A, 1986
 The effect of conservation method and frequency of feeding on the removal of digesta from the rumen 45, 97A, 1986

Ferritin

- The use of transferrin and ferritin as 'nutritional' indices 45, 125A, 1986

Fetal development

- The body composition of nutritionally-restricted ovine fetuses compared with young fetuses of the same weight 45, 91A, 1986

Fibre

- The viscosity of viscous polysaccharides may change after ingestion 45, 104A, 1986

Food intake

Effect of ambient temperature and urea supplementation on the intake of fibrous diets by draught ruminants 45, 98A, 1986

Postoperative food intake of elderly fracture patients 45, 7A, 1986

Food policy

Food policy, nutrition and government 45, 131-138, 1986

Forestomach motility

Effect of conservation method and frequency of feeding on forestomach motility 45, 96A, 1986

Fructose-2,6-bisphosphate

A study of the time course of fructose-2,6-bisphosphate production in a septic mouse model 45, 33A, 1986

Gambian children

Factors affecting the integrity of intestinal mucosa in Gambian children 45, 67A, 1986

Gastric juice

Gastric juice 'secretion' of ascorbic acid 45, 69A, 1986

Gastric ulcers

Changes to the pars oesophagea in pigs before and after weaning on to a dry diet 45, 81A, 1986

Gastrointestinal tract

Development of the gastrointestinal tract 45, 39-44, 1986

Glucose

Effects of pre-exercise feeding of glycerol or glucose on metabolism and endurance performance in man 45, 127A, 1986

Glucose absorption

Influence of wheat bran, cellulose, pectin and low or high viscosity guar gum on glucose and water absorption from pig jejunum 45, 55A, 1986

Glucose metabolism

Glucose metabolism in shorn and unshorn pregnant sheep 45, 93A, 1986

Glucose requirement

Exogenous supply of glucose precursors and nitrogen utilization in sheep 45, 43A, 1986

Glutathione

Copper deficiency and plasma glutathione concentration in rats 45, 115A, 1986

The inhibition of peroxidation in liver microsomes by glutathione but not by metallothionein 45, 61A, 1986

Glutathione peroxidase (EC 1.11.1.9)

Selenium and neutrophil function in mice 45, 63A, 1986

Glycerol

Effects of pre-exercise feeding of glycerol or glucose on metabolism and endurance performance in man 45, 127A, 1986

Glycine insufficiency

Glycine insufficiency in pregnancy assessed by urinary pyroglutamic acid excretion 45, 92A, 1986

Glycogen

The interrelation between glycogen, water and potassium 45, 84A, 1986

Growth

Body composition of animals during sucking and the immediate post-weaning period 45, 81-89, 1986

Causes of variation in the body composition of growing pigs 45, 111-117, 1986

Measles, energy balance and childhood growth 45, 35A, 1986

The effect of dietary protein concentration on bone and muscle growth and immunoreactive somatomedin C in the rat 45, 107A, 1986

The physiological bases of nutrient responses; growth and fattening 45, 203-214, 1986

Guar gum

Degradation of guar gum by faecal bacteria 45, 105A, 1986

The effect of guar gum on the mucosal regulation of iron absorption in rats 45, 37A, 1986

Gut flora

A method for indirect study of neonatal gut flora? 45, 26A, 1986

Gut transit time

Gut transit time measured by three markers 45, 54A, 1986

Heat production

Heat production and physical activity in laying hens on an intermittent-lighting regime 45, 75A, 1986

Relation between increased heat production and 3,5,3'-triiodothyronine concentration in rats treated with catabolic doses of corticosterone 45, 53A, 1986

Thermic responses to a standard meal in matched smoking and non-smoking female subjects 45, 110A, 1986

Hormones

Key hormonal and metabolic control systems modifying nutrient use 45, 195-202, 1986

Hospital patients

How I feed patients enterally 45, 163-169, 1986

How I feed patients intravenously 45, 171-176, 1986

When I feed medical patients 45, 153-161, 1986

Why I feed patients with trauma and sepsis 45, 139-151, 1986

Hypertension

Dietary sodium restriction in the treatment of mild hypertension 45, 267-272, 1986

General debate 45, 273-287, 1986

Hypoglycaemia

Acute hypoglycaemia inhibits increased luteinizing hormone pulsatility associated with weaning in postpartum beef cows 45, 88A, 1986

Hypoglycaemia and luteinizing hormone release in the ewe 45, 100A, 1986

Infant feeding

A survey of infant feeding practice by Afro-Caribbean mothers in Birmingham 45, 87A, 1986

Birth weight and feeding practices of infants in Southall, Middlesex 45, 60A, 1986

- Principles involved in assessing energy, protein and micronutrient needs during infancy 45, 361–367, 1986
- Infection**
- Copper and disease resistance in sheep: a rare natural confirmation of interaction between a specific nutrient and infection 45, 317–325, 1986
- Effects of dietary fat concentration and saturation on the catabolic response of protein metabolism to *Escherichia coli* endotoxin 45, 27A, 1986
- Iron and immunity 45, 305–315, 1986
- Possible effects of dietary *n*-6 series polyunsaturated fatty acids on the development of immune dysfunction and infection 45, 327–331, 1986
- Protein–energy malnutrition and risk of infection 45, 289–304, 1986
- Regulation of phagocyte function by α -tocopherol 45, 333–334, 1986
- Interleukin 1**
- Effects of drugs altering arachidonic acid metabolism on production of interleukin 1 by monocyte-like cells 45, 31A, 1986
- Intestinal bacteria**
- Effect of oral chlortetracycline on faecal DNA excretion and mucosal cell turnover in rats fed on legumes 45, 118A, 1986
- Intestinal microflora**
- A study of the possible role of the intestinal microflora in phytate hydrolysis in chicks 45, 117A, 1986
- Intestinal mucosa**
- Factors affecting the integrity of intestinal mucosa in Gambian children 45, 67A, 1986
- Intravenous nutrition**
- Vitamin and essential trace element recommendations during intravenous nutrition: theory and practice 45, 383–390, 1986
- Iron**
- Further observations on the effects of supplements of iron on growing fowl inoculated with *Salmonella gallinarum* 45, 34A, 1986
- Iron and immunity 45, 305–315, 1986
- Iron therapy increases the rate of weight gain and psychomotor development of anaemic toddlers: a double blind randomized controlled trial 45, 123A, 1986
- Maternofetal iron transfer in the riboflavin-deficient rat 45, 94A, 1986
- The effect of extrusion cooking of maize on iron and zinc availability 45, 41A, 1986
- Iron absorption**
- The effect of guar gum on the mucosal regulation of iron absorption in rats 45, 37A, 1986
- The influence of human and bovine lactoferrin on iron absorption from ferrous sulphate in rats 45, 40A, 1986
- Jaw wiring**
- Long-term results of treatment of severe obesity with jaw wiring and waist cord 45, 119A, 1986
- Jejunum**
- Effect of *Escherichia coli* enterotoxin (STa) on mucosal surface pH in vivo in rat proximal jejunum 45, 80A, 1986
- Lactation**
- Changes in body composition during pregnancy and lactation 45, 71–80, 1986
- The influence of carbohydrate availability on the regulation of lipogenesis in the lactating mammary gland of the rat 45, 116A, 1986
- The physiological bases of nutrient responses during lactation 45, 215–220, 1986
- Lactoferrin**
- The influence of human and bovine lactoferrin on iron absorption from ferrous sulphate in rats 45, 40A, 1986
- Lactose tolerance test**
- Is it time to change the standard lactose tolerance test? 45, 47A, 1986
- Legume protein**
- Effect of oral chlortetracycline on faecal DNA excretion and mucosal cell turnover in rats fed on legumes 45, 118A, 1986
- Light**
- Diurnal influences on the metabolic effects of two types of *Escherichia coli* endotoxin in rats 45, 83A, 1986
- Heat production and physical activity in laying hens on an intermittent-lighting regime 45, 75A, 1986
- Linoleic acid**
- Examination of nutritional factors in rheumatoid arthritis: relation with markers of lipid peroxidation 45, 66A, 1986
- Nutritional status of vitamins E, C and B₂ in alcoholics in relation to the plasma phospholipid-2-esterified 9,11-linoleic acid:9,12-linoleic acid value 45, 62A, 1986
- Lipid metabolism**
- Lipid metabolism in the chick embryo 45, 17–25, 1986
- Lipid peroxidation**
- Examination of nutritional factors in rheumatoid arthritis: relation with markers of lipid peroxidation 45, 66A, 1986
- Lipid peroxidation during muscular exercise in man: inferences from the pulmonary excretion of *n*-pentane, isopentane and nitrogen 45, 64A, 1986
- The inhibition of peroxidation in liver microsomes by glutathione but not by metallothionein 45, 61A, 1986
- Lipid synthesis**
- Effects of diet on triacylglycerol levels in the liver, bile and serum and on activities of enzymes concerned with lipid synthesis in the liver of the laying hen 45, 57A, 1986
- Lipogenesis**
- The influence of carbohydrate availability on the regulation of lipogenesis in the lactating mammary gland of the rat 45, 116A, 1986
- Lipolysis**
- Effect of litter size on parametrial white fat cell size and lipolysis in lactating rats 45, 73A, 1986
- The effect of intravenous infusion of noradrenaline on lipolysis in adult sheep 45, 79A, 1986

- Litter size**
Effect of litter size on parametrial white fat cell size and lipolysis in lactating rats 45, 73A, 1986
- Liver enzyme activity**
Control of liver enzyme activity by the autonomic nerves in sheep 45, 77A, 1986
- Liver function**
Intravenous nutrition and hepatic dysfunction: a retrospective study 45, 10A, 1986
- Liver lipids**
Comparative changes in the lipid compositions of liver and bile of the female broiler bird 45, 56A, 1986
- Liver triacylglycerol**
Effects of diet on triacylglycerol levels in the liver, bile and serum and on activities of enzymes concerned with lipid synthesis in the liver of the laying hen 45, 57A, 1986
- Luteinizing hormone**
Acute hypoglycaemia inhibits increased luteinizing hormone pulsatility associated with weaning in postpartum beef cows 45, 88A, 1986
Hypoglycaemia and luteinizing hormone release in the ewe 45, 100A, 1986
- Maintenance**
The biological basis of maintenance and its relevance to assessing responses to nutrients 45, 185-193, 1986
- Malaria**
Changes in the endogenous anti-oxidant levels of plasma and erythrocytes during *Plasmodium vinckei* malaria 45, 70A, 1986
- Malnutrition**
Comparison of weight-for-height and arm circumference in the assessment of acute malnutrition 45, 129A, 1986
Factors affecting the integrity of intestinal mucosa in Gambian children 45, 67A, 1986
- Markers**
Gut transit time measured by three markers 45, 54A, 1986
- Mathematical model**
Dynamic models: their use in understanding and predicting nutrient response 45, 221-229, 1986
- Measles**
Measles, energy balance and childhood growth 45, 35A, 1986
- Metallothionein**
The inhibition of peroxidation in liver microsomes by glutathione but not by metallothionein 45, 61A, 1986
- Milk quality**
The effect of supplementary phosphate in the diet of lactating cows on the salt composition and heat stability of milk 45, 46A, 1986
- Mucosal cell turnover**
Effect of oral chlortetracycline on faecal DNA excretion and mucosal cell turnover in rats fed on legumes 45, 118A, 1986
- Mucosal surface pH**
Effect of *Escherichia coli* enterotoxin (STa) on mucosal surface pH in vivo in rat proximal jejunum 45, 80A, 1986
- Muscle contraction**
The effect of hypoenergetic feeding for 2 weeks on the contractile properties of the adductor pollicis of obese patients 45, 124A, 1986
- Nasogastric feeding**
A comparison of continuous and intermittent postoperative nasogastric nutrition after major head and neck surgery 45, 74A, 1986
- Neurotransmitters**
Large neutral amino acids in the diet and neurotransmitter concentrations in the chick brain 45, 72A, 1986
- Neutral amino acids**
Large neutral amino acids in the diet and neurotransmitter concentrations in the chick brain 45, 72A, 1986
- Neutrophil function**
Selenium and neutrophil function in mice 45, 63A, 1986
- Nitrogen retention**
Exogenous supply of glucose precursors and nitrogen utilization in sheep 45, 43A, 1986
- Noradrenaline**
Activation of pyruvate dehydrogenase in rat white adipose tissue by both insulin and noradrenaline is muted during lactation 45, 76A, 1986
The effect of intravenous infusion of noradrenaline on lipolysis in adult sheep 45, 79A, 1986
- Nutrient recommendations**
Notes on the new international estimates of energy requirements 45, 351-360, 1986
Principles involved in assessing energy, protein and micronutrient needs during infancy 45, 361-367, 1986
The use of recommended daily allowances to assess dietary adequacy 45, 369-381, 1986
Variations in recommended nutrient intakes 45, 345-350, 1986
Vitamin and essential trace element recommendations during intravenous nutrition: theory and practice 45, 383-390, 1986
- Nutrient requirements**
An historical perspective: the development of methods for assessing nutrient requirements 45, 177-183, 1986
- Nutrient response**
An historical perspective: the development of methods for assessing nutrient requirements 45, 177-183, 1986
Dynamic models: their use in understanding and predicting nutrient response 45, 221-229, 1986
Key hormonal and metabolic control systems modifying nutrient use 45, 195-202, 1986
The biological basis of maintenance and its relevance to assessing responses to nutrients 45, 185-193, 1986
The physiological bases of nutrient responses during lactation 45, 215-220, 1986
The physiological bases of nutrient responses; growth and fattening 45, 203-214, 1986
- Nutritional assessment**
A simple exercise test for field use in studies of nutritional assessment 45, 128A, 1986

- The use of transferrin and ferritin as 'nutritional' indices 45, 125A, 1986
- Nutritional support**
- How I feed patients enterally 45, 163-169, 1986
- How I feed patients intravenously 45, 171-176, 1986
- When I feed medical patients 45, 153-161, 1986
- Why I feed patients with trauma and sepsis 45, 139-151, 1986
- Nutrition education**
- The role of attitudes and nutritional knowledge in fat consumption 45, 44A, 1986
- Use of a computer-administered 'healthy eating' quiz for data collection and health promotion 45, 86A, 1986
- When and how should nutrition be taught to medical students? 45, 13A, 1986
- Nutrition Society Questionnaire**
- The Nutrition Society in the 1980s: the questionnaire analysis 45, 231-252, 1986
- Obesity**
- Adipose tissue cellularity and site-specific differences in adipocyte volume in genetically obese (*ob/ob*) mice 45, 101A, 1986
- Long-term results of treatment of severe obesity with jaw wiring and waist cord 45, 119A, 1986
- Nutritional obesity and body composition 45, 91-100, 1986
- The effect of hypoenergetic feeding for 2 weeks on the contractile properties of the adductor pollicis of obese patients 45, 124A, 1986
- Oestrogen**
- Aspartate aminotransferase (*EC 2.6.1.1*) activation by pyridoxal phosphate as an index of vitamin B₆ nutritional status: validity in the presence of oestrogen conjugates 45, 59A, 1986
- Old age**
- Improvement in nutritional status of psychogeriatric patients on hospitalization 45, 11A, 1986
- Postoperative food intake of elderly fracture patients 45, 7A, 1986
- Parenteral nutrition**
- A clinical evaluation of a new, effective peripherally-administered parenteral nutrition regimen 45, 28A, 1986
- Can postoperative peripheral feeding reduce complications following major surgery? 45, 4A, 1986
- Experience of a nutrition group in the reduction of complications of central venous catheters 45, 22A, 1986
- Hazards and benefits in a patient on long-term parenteral nutrition 45, 23A, 1986
- Home parenteral nutrition: a cost-effective evaluation 45, 19A, 1986
- Intravenous nutrition and hepatic dysfunction: a retrospective study 45, 10A, 1986
- Leucine and protein kinetics following surgery in man given varying branched-chain amino acid concentrations in a parenteral nutrition regimen 45, 17A, 1986
- Parenteral nutrition: a review of complications 45, 18A, 1986
- Parenteral nutrition in the management of short-bowel syndrome 45, 24A, 1986
- Release of extractives from intravenous nutrition bags 45, 29A, 1986
- Value of preoperative parenteral feeding in patients with cancer of the oesophagus undergoing major surgery 45, 12A, 1986
- Pars oesophagea**
- Changes to the pars oesophagea in pigs before and after weaning on to a dry diet 45, 81A, 1986
- Pentane**
- Lipid peroxidation during muscular exercise in man: inferences from the pulmonary excretion of n-pentane, isopentane and nitrogen 45, 64A, 1986
- Phosphate**
- Phosphate fluxes across the rumen wall mucosa of sheep in vitro 45, 99A, 1986
- The effect of supplementary phosphate in the diet of lactating cows on the salt composition and heat stability of milk 45, 46A, 1986
- Phytate**
- A study of the possible role of the intestinal microflora in phytate hydrolysis in chicks 45, 117A, 1986
- Potassium**
- The interrelation between glycogen, water and potassium 45, 84A, 1986
- Pregnancy**
- Changes in body composition during pregnancy and lactation 45, 71-80, 1986
- Glucose metabolism in shorn and unshorn pregnant sheep 45, 93A, 1986
- Glycine insufficiency in pregnancy assessed by urinary pyroglutamic acid excretion 45, 92A, 1986
- Maternofetal iron transfer in the riboflavin-deficient rat 45, 94A, 1986
- Nutrition of the conceptus: aspects of its regulation 45, 1-10, 1986
- The effect on birth weight of a high-protein, low-carbohydrate diet during pregnancy 45, 90A, 1986
- Propranolol**
- Effects of Propranolol on fever, hypothermia and other metabolic effects of *Escherichia coli* endotoxins 45, 113A, 1986
- Prostaglandins**
- Possible involvement of prostaglandins in diet-induced thermogenesis of 'cafeteria' fed rats 45, 111A, 1986
- Protein deficiency**
- Response of the vitamin-E-deficient rat to severe protein deficiency and the *Escherichia coli* endotoxin 45, 114A, 1986
- Protein-energy malnutrition**
- Lung cancer: a starving disease 45, 3A, 1986
- Protein-energy malnutrition and risk of infection 45, 289-304, 1986
- Protein metabolism**
- Effects of dietary fat concentration and saturation on the catabolic response of protein metabolism to *Escherichia coli* endotoxin 45, 27A, 1986

- Inhibitory effects of indomethacin on some features of the metabolic response to *Escherichia coli* endotoxin in rats 45, 51A, 1986
- Leucine and protein kinetics following surgery in man given varying branched-chain amino acid concentrations in a parenteral nutrition regimen 45, 17A, 1986
- The effects of inhibiting corticosterone production with Trilostane on protein and energy metabolism in young rats given restricted amounts of dietary protein and energy 45, 108A, 1986
- Protein synthesis**
- The effect of fasting on the acute response of protein synthesis in muscle and liver to the *Escherichia coli* lipopolysaccharide 45, 36A, 1986
- Whole-body protein synthesis and energy balance in surgical patients 45, 16A, 1986
- Psychogeriatric patients**
- Improvement in nutritional status of psychogeriatric patients on hospitalization 45, 11A, 1986
- Pyroglutamic acid**
- Glycine insufficiency in pregnancy assessed by urinary pyroglutamic acid excretion 45, 92A, 1986
- Pyruvate dehydrogenase**
- Activation of pyruvate dehydrogenase in rat white adipose tissue by both insulin and noradrenaline is muted during lactation 45, 76A, 1986
- Radiotherapy**
- Effects of radiotherapy on food acceptability in cancer patients 45, 8A, 1986
- Some ways of improving the nutrition of patients who are receiving radiotherapy of the head or neck 45, 21A, 1986
- Rainbow trout (*Salmo gairdneri*)**
- The metabolism of *t*-butyl hydroperoxide and hydrogen peroxide by isolated perfused liver from control and selenium-deficient rainbow trout (*Salmo gairdneri*) 45, 42A, 1986
- Recommended daily allowances**
- The use of recommended daily allowances to assess dietary adequacy 45, 369-381, 1986
- Renal failure**
- The effect of increased dietary fibre intake in patients with chronic renal failure 45, 25A, 1986
- Reproduction**
- Effects of parental age on fatty acid oxidation in vitro by the liver and heart of the chick embryo 45, 103A, 1986
- The effects of energy intake in pregnancy and lactation on the reproductive performance of the sow and growth of the litter 45, 89A, 1986
- Rheumatoid arthritis**
- Examination of nutritional factors in rheumatoid arthritis: relation with markers of lipid peroxidation 45, 66A, 1986
- Nutritional status in rheumatoid arthritis 45, 6A, 1986
- Riboflavin deficiency**
- Maternofetal iron transfer in the riboflavin-deficient rat 45, 94A, 1986
- Rumen metabolism**
- The effect of conservation method and frequency of feeding on rumen microbial activity 45, 95A, 1986
- Salmonella gallinarum**
- Further observations on the effects of supplements of iron on growing fowl inoculated with *Salmonella gallinarum* 45, 34A, 1986
- Salt**
- Dietary sodium restriction in the treatment of mild hypertension 45, 267-272, 1986
- General debate 45, 273-287, 1986
- Salt technology and dietary intake 45, 253-257, 1986
- Should recommendations be made to reduce dietary sodium intake? The case against recommendations 45, 259-262, 1986
- Should recommendations be made to reduce dietary sodium intake? The case for recommendations 45, 263-266, 1986
- Selenium**
- Selenium and neutrophil function in mice 45, 63A, 1986
- Selenium deficiency**
- The metabolism of *t*-butyl hydroperoxide and hydrogen peroxide by isolated perfused liver from control and selenium-deficient rainbow trout (*Salmo gairdneri*) 45, 42A, 1986
- Sepsis**
- A study of the time course of fructose-2,6-bisphosphate production in a septic mouse model 45, 33A, 1986
- Why I feed patients with trauma and sepsis 45, 139-151, 1986
- Shorn sheep**
- Glucose metabolism in shorn and unshorn pregnant sheep 45, 93A, 1986
- Short-bowel syndrome**
- Parenteral nutrition in the management of short-bowel syndrome 45, 24A, 1986
- Silage**
- The effect of conservation method and frequency of feeding on rumen microbial activity 45, 95A, 1986
- The effect of conservation method and frequency of feeding on the removal of digesta from the rumen 45, 97A, 1986
- Simulation model**
- Dynamic models: their use in understanding and predicting nutrient response 45, 221-229, 1986
- Skeletal development**
- Genetic control of skeletal development in the chick embryo 45, 11-16, 1986
- Smokers**
- Thermic responses to a standard meal in matched smoking and non-smoking female subjects 45, 110A, 1986
- Sodium intake**
- Dietary sodium restriction in the treatment of mild hypertension 45, 267-272, 1986
- General debate 45, 273-287, 1986
- Salt technology and dietary intake 45, 253-257, 1986

- Should recommendations be made to reduce dietary sodium intake? The case against recommendations 45, 259–262, 1986
- Should recommendations be made to reduce dietary sodium intake? The case for recommendations 45, 263–266, 1986
- Somatomedin C**
The effect of dietary protein concentration on bone and muscle growth and immunoreactive somatomedin C in the rat 45, 107A, 1986
- Surgical patients**
A comparison of continuous and intermittent postoperative nasogastric nutrition after major head and neck surgery 45, 74A, 1986
Can postoperative peripheral feeding reduce complications following major surgery? 45, 4A, 1986
Normal anthropometric values for a large group of London subjects: comparison with surgical patients 45, 58A, 1986
Postoperative food intake of elderly fracture patients 45, 7A, 1986
Preoperative nutrition: a simple classification for the selection of patients and its relation to clinical assessment 45, 5A, 1986
The effects of continuous or nocturnal feeding on postoperative metabolism and catecholamine excretion 45, 2A, 1986
The effects of postoperative metabolic support on lipolytic rates in patients undergoing elective abdominal surgery 45, 20A, 1986
Value of preoperative parenteral feeding in patients with cancer of the oesophagus undergoing major surgery 45, 12A, 1986
Whole-body protein synthesis and energy balance in surgical patients 45, 16A, 1986
- Taste**
Effects of radiotherapy on food acceptability in cancer patients 45, 8A, 1986
- α -Tocopherol**
Regulation of phagocyte function by α -tocopherol 45, 333–334, 1986
- Transferrin**
The use of transferrin and ferritin as 'nutritional' indices 45, 125A, 1986
- Trauma**
Why I feed patients with trauma and sepsis 45, 139–151, 1986
- 3,5,3'-Triiodothyronine**
Relation between increased heat production and 3,5,3'-triiodothyronine concentration in rats treated with catabolic doses of corticosterone 45, 53A, 1986
- Undernutrition**
The effect of fasting on the acute response of protein synthesis in muscle and liver to the *Escherichia coli* lipopolysaccharide 45, 36A, 1986
Undernutrition in Alzheimer's disease 45, 85A, 1986
- Urea supplementation**
Effect of ambient temperature and urea supplementation on the intake of fibrous diets by draught ruminants 45, 98A, 1986
- Veal calves**
Associations between feeding, housing and the incidence of abomasal ulcers in veal calves 45, 32A, 1986
- Viscous polysaccharides**
The viscosity of viscous polysaccharides may change after ingestion 45, 104A, 1986
- Vitamin B₆**
Aspartate aminotransferase (*EC* 2.6.1.1) activation by pyridoxal phosphate as an index of vitamin B₆ nutritional status: validity in the presence of oestrogen conjugates 45, 59A, 1986
- Vitamin C**
Gastric juice 'secretion' of ascorbic acid 45, 69A, 1986
Vitamin C restriction and physical performance 45, 65A, 1986
- Vitamin D**
An association of anaemia with poor vitamin D status in otherwise adequately nourished Asian toddlers: a case for combined prophylaxis 45, 122A, 1986
- Vitamin E deficiency**
Response of the vitamin-E-deficient rat to severe protein deficiency and the *Escherichia coli* endotoxin 45, 114A, 1986
- Vitamin status**
Nutritional status of vitamins E, C and B₂ in alcoholics in relation to the plasma phospholipid-2-esterified 9,11-linoleic acid:9,12-linoleic acid value 45, 62A, 1986
- Waist cord**
Long-term results of treatment of severe obesity with jaw wiring and waist cord 45, 119A, 1986
- Water**
The interrelation between glycogen, water and potassium 45, 84A, 1986
- Water absorption**
Influence of wheat bran, cellulose, pectin and low or high viscosity guar gum on glucose and water absorption from pig jejunum 45, 55A, 1986
- Weaning**
Acute hypoglycaemia inhibits increased luteinizing hormone pulsatility associated with weaning in postpartum beef cows 45, 88A, 1986
- Zinc**
Assessment of an in vitro serum protein Zn-binding test in human nutrition 45, 9A, 1986
The effect of extrusion cooking of maize on iron and zinc availability 45, 41A, 1986
- Zinc deficiency**
The impact of zinc deficiency on the intestinal response to cholera toxin 45, 39A, 1986
