1 Liberty Plaza
Floor 20
New York, NY 10006
USA

Publisher: Cambridge University Press

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2017 comprise Volume 117, the twelve issues starting July 2017 comprise Volume 118.

Annual subscription rates:

Volumes 117/118 (24 issues):
Internet/print package £1547/\$3016/€2478
Internet only: £1075/\$2096/€1717

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org>.

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

Invited Commentary

Invited commentary in response to the paper entitled 'Iodine concentration of milk-alternative drinks available in the UK in comparison with cows' milk' by Sarah Bath and colleagues
A. F. Brito 879-880

Molecular Nutrition

Manganese influences the expression of fatty acid synthase and malic enzyme in cultured primary chicken hepatocytes
L. Lu, M. Wang, X. Liao, L. Zhang & X. Luo 881-888

Metabolism and Metabolic Studies

Dietary supplementation with cysteine prevents adverse metabolic outcomes of repeated cures with paracetamol in old rats
C. Mast, C. Pourpe, G. Voyard, D. Rémond, C. Migné, D. Centeno, D. Dardevet, I. Savary-Auzeloux & I. Papet 889-896

Time-series responses of swine plasma metabolites to ingestion of diets containing *myo*-inositol or phytase
A. J. Cowieson, F. F. Roos, J.-P. Ruckebusch, J. W. Wilson, P. Guggenbuhl, H. Lu, K. M. Ajuwon & O. Adeola 897-905

Maternal conjugated linoleic acid modulates TAG metabolism in adult rat offspring
J. Lavandera, C. D. Gerstner, J. Saín, A. C. Fariña, M. A. González & C. A. Bernal 906-913

Dietary α -lactalbumin induced fatty liver by enhancing nuclear liver X receptor α/β /sterol regulatory element-binding protein-1c/PPAR γ expression and minimising PPAR α /carnitine palmitoyltransferase-1 expression and AMP-activated protein kinase α phosphorylation associated with atherogenic dyslipidaemia, insulin resistance and oxidative stress in Balb/c mice
M. E. López-Oliva, A. Garcimartin & E. Muñoz-Martínez 914-929

Developmental Biology

Effect of maternal dyslipidaemia on the cardiorespiratory physiology and biochemical parameters in male rat offspring
K. S. L. Guimarães, E. V. de Araújo, J. S. Aquino, D. A. Gadelha, C. M. Balarini, J. H. Costa-Silva, M. Magnani, H. Vidal, V. A. Braga & J. L. de Brito Alves 930-941

Nutritional Immunology

Long-term sex-differential effects of neonatal vitamin A supplementation on *in vitro* cytokine responses
K. J. Jensen, M. J. Søndergaard, A. Andersen, C. Martins, C. Erikstrup, P. Aaby, K. L. Flanagan & C. S. Benn 942-948

Effects of dietary live yeast supplementation on growth performance, diarrhoea severity, intestinal permeability and immunological parameters of weaned piglets challenged with enterotoxigenic *Escherichia coli* K88
L. Che, Q. Xu, C. Wu, Y. Luo, X. Huang, B. Zhang, E. Auclair, T. Kiro, Z. Fang, Y. Lin, S. Xu, B. Feng, J. Li & D. Wu 949-958

Microbiology

Deficiency of essential dietary *n*-3 PUFA disrupts the caecal microbiome and metabolome in mice
R. C. Robertson, C. S. Oriach, K. Murphy, G. M. Moloney, J. F. Cryan, T. G. Dinan, R. P. Ross & C. Stanton 959-970

Human and Clinical Nutrition

Effects of prenatal *n*-3 fatty acid supplementation on offspring resolvins at birth and 12 years of age: a double-blind, randomised controlled clinical trial
V. H. L. See, E. Mas, S. L. Prescott, L. J. Beilin, S. Burrows, A. E. Barden, R.-C. Huang & T. A. Mori 971-980

DHA supplementation during pregnancy as phospholipids or TAG produces different placental uptake but similar fetal brain accretion in neonatal piglets
A. Gázquez, M. Ruiz-Palacios & E. Larqué 981-988

Dietary Surveys and Nutritional Epidemiology

Substitutions between dairy product subgroups and risk of type 2 diabetes: the Danish Diet, Cancer and Health cohort
D. B. Ibsen, A. S. D. Laursen, L. Lauritzen, A. Tjønneland, K. Overvad & M. U. Jakobsen 989-997

Corrigendum

Arginine and aerobic training prevent endothelial and metabolic alterations in rats at high risk for the development of the metabolic syndrome – CORRIGENDUM
R. Medeiros, T. Gaique, T. Bento-Bernardes, R. Kindlovits, T. Gomes, N. A. Motta, F. Brito, C. Fernandes-Santos, K. Oliveira & A. C. Nóbrega 998-998
