OF THE

ROYAL SOCIETY OF EDINBURGH.

VOLUME LVI, PART III.—SESSION 1930–31.

(Last part of Volume LVI.)

CONTENTS.

	PAGE
XXIII. <i>The Feeding Mechanism, Formation of the Tube, and Physiology of Digestion in Sabella pavonina.</i> By E. A. T. NICOL, B.A., Ph.D. <i>Communicated by Professor J. H. ASHWORTH, F.R.S.</i> (With Two Plates, Twenty-one Text-figures, and Seven Graphs)	537
(<i>Issued August 7, 1930.</i>)	
XXIV. <i>The Carboniferous Sediments of Kintyre.</i> By WILLIAM J. M'CALLIEN, D.Sc., Lecturer in Geology, Glasgow University, and ROBERT B. ANDERSON, The Bwana M'Kubwa Copper Mining Co., Ltd., Northern Rhodesia. <i>Communicated by Dr G. W. TYRRELL.</i> (With One Plate and Twelve Text-figures)	599
(<i>Issued July 8, 1930.</i>)	
XXV. <i>Metamorphism in Relation to Structure in the Scottish Highlands.</i> By GERTRUDE LILIAN ELLES, M.B.E., D.Sc., and CECIL EDGAR TILLEY, Ph.D., B.Sc. <i>Communicated by Professor E. B. BAILEY, M.C., B.A., F.R.S.</i> (With Two Plates, Nine Text-figures, and One Table)	621
(<i>Issued July 16, 1930.</i>)	
XXVI. <i>Reports of the Jasper Park Lakes Investigations, 1925–26. The Mollusca of Jasper Park.</i> By ALAN MOZLEY, University of Manitoba. <i>Communicated by Dr CHARLES H. O'DONOGHUE.</i> (With Two Plates and One Text-figure)	647
(<i>Issued August 4, 1930.</i>)	
XXVII. <i>The Old Red Sandstone of Shetland. Part II. North-Western Area.</i> By T. M. FINLAY, M.A., D.Sc. (With Three Plates and Three Text-figures)	671
(<i>Issued September 29, 1930.</i>)	
XXVIII. <i>The Stem-Endodermis in the Genus Piper.</i> By GEORGE BOND, B.Sc., Ph.D., Lecturer in Botany, University of Glasgow. <i>Communicated by Professor MONTAGU DRUMMOND.</i> (With Three Plates and Eleven Text-figures)	695
(<i>Issued March 10, 1931.</i>)	
XXIX. <i>On the Morphology, Feeding Mechanisms, and Digestion of Ensis siliqua (Schumacher).</i> By ALASTAIR GRAHAM, M.A., B.Sc. (Edin.), Lecturer in Zoology in the University of Sheffield. <i>Communicated by Professor J. H. ASHWORTH, F.R.S.</i> (With One Plate, Eight Text-figures, and Five Graphs)	725
(<i>Issued March 23, 1931.</i>)	
XXX. <i>The Dolerite Isles of the North Minch.</i> By FREDERICK WALKER, M.A., D.Sc., Lecturer in Geology, University of St Andrews. (With One Plate and One Text-figure)	753
(<i>Issued March 30, 1931.</i>)	
XXXI. <i>The British and Belgian Carboniferous Bellerophonitidæ.</i> By JOHN WEIR, Ph.D., F.G.S. <i>Communicated by Professor E. B. BAILEY, M.C., M.A., F.R.S.</i> (With One large Folding Table and Nine Plates)	767
(<i>Issued June 11, 1931.</i>)	
INDEX	863

EDINBURGH:

PUBLISHED BY ROBERT GRANT & SON, 126 PRINCES STREET,
AND WILLIAMS & NORGATE, LTD., 38 GREAT ORMOND STREET, LONDON, W.C. 1

MDCCCXXXI.

Price Fifty Shillings.

CONTENTS.

PART I. (1928-29).

NUMBER		PAGE
I.	<i>The Igneous Intrusions between St Andrews and Loch Leven.</i> By FREDERICK WALKER, M.A., Ph.D., Carnegie Teaching Fellow, and JOHN IRVING, B.Sc., Carnegie Research Scholar, University of St Andrews. (With One Plate and Four Text-figures),	1
*II.	<i>Size in Relation to Internal Morphology. No. 3. The Vascular System of Roots.</i> By CLAUDE W. WARDLAW, B.Sc., Ph.D., Lecturer in Botany, Glasgow University. (With Twenty-two Text-figures),	19
III.	<i>The Geology of the Highland Border from Tayside to Noranside.</i> By DOUGLAS A. ALLAN, Ph.D., D.Sc., F.R.S.E., Lecturer in Geology in Armstrong College, University of Durham. (With Two Plates, Seven Text-figures, and a Coloured Map),	57
*IV.	<i>Calamoichthys calabaricus J. A. Smith. Part I. The Alimentary and Respiratory Systems—concluded.</i> By G. LESLIE PURSER, M.A., University of Aberdeen. (With Three Plates and Five Text-figures),	89
V.	<i>On Some Points in the Anatomy and Habits of the Lophogastrid Crustacea.</i> (From the Zoological Laboratory, Cambridge.) By S. M. MANTON, M.A., Ph.D., F.J.S., Demonstrator in Comparative Anatomy in the University of Cambridge, and Fellow of Girton College. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Three Plates and Two Text-figures),	103
VI.	<i>A Contribution to Actinian Morphology: the Genera Phellia and Sugartia.</i> By T. A. STEPHENSON, D.Sc., Zoology Department, University College, London. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Two Coloured Plates and Twelve Text-figures),	121
VII.	<i>A Gravitational Survey over the Buried Kelvin Valley at Drumry, near Glasgow.</i> By W. F. P. McLINTOCK, D.Sc., and J. PHEMISTER, M.A., D.Sc. Communicated by permission of the DIRECTOR, H.M. GEOLOGICAL SURVEY. (With Two Coloured Plates and Ten Text-figures),	141
*VIII.	<i>The Oogenesis of Carcinus mœnas Penn., with Special Reference to Yolk Formation.</i> By L. A. HARVEY, M.Sc., Lecturer in Zoology, University of Edinburgh. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Two Plates and Seven Text-figures),	157

NUMBER	PAGE
IX. <i>On the Feeding Mechanism of the Syncarid Crustacea.</i> By H. GRAHAM CANNON, M.A., D.Sc., Professor of Zoology in the University of Sheffield, and Miss S. M. MANTON, M.A., Ph.D., F.L.S., Demonstrator in Comparative Anatomy in the University of Cambridge and Fellow of Girton College. (With Eight Text-figures),	175
X. <i>A Human Blastocyst in situ.</i> By C. WITHERINGTON STUMP, M.D., D.Sc., Bosch Professor of Histology and Embryology in the University of Sydney. <i>Communicated by</i> Professor A. ROBINSON, M.D. (With Ten Plates),	191
XI. <i>The Anatomy of a Fœtal African Elephant, Elephas africanus (Loxodonta africana). Part III. The Contents of the Thorax and Abdomen, and the Skeleton.</i> By NELLIE B. EALES, D.Sc.Lond., Lecturer in Zoology in the University of Reading. <i>Communicated by</i> Professor J. H. ASHWORTH, F.R.S. (With Six Plates),	203

PART II. (1929-30).

XII. <i>A Study of the Effect of Diurnal Periodicity upon Plant Growth.</i> By GEORGE REDINGTON, M.Sc., Lecturer in Plant Physiology, University of Aberdeen. <i>Communicated by</i> Professor W. G. CRAIB. (With Two Plates and Four Text-figures),	247
XIII. <i>Jurassic and Kainozoic Corals from Somaliland.</i> By MARY H. LATHAM, M.A., Carnegie Research Fellow, Glasgow University. <i>Communicated by</i> Professor J. W. GREGORY, F.R.S. (With Two Plates and Four Text-figures),	273
XIV. <i>Studies on the Scottish Marine Fauna: The Fauna of the Sandy and Muddy Areas of the Tidal Zone.</i> By A. C. STEPHEN, B.Sc., Royal Scottish Museum, Edinburgh. (With Five Text-figures),	291
XV. <i>Studies in the Ectocarpaceæ. II. The Life-history and Cytology of Ectocarpus siliculosus, Dillw.</i> By MARGERY KNIGHT, D.Sc. <i>Communicated by</i> Professor J. M'LEAN THOMPSON. (With Six Plates and Three Text-figures),	307
*XVI. <i>On Abnormal Teeth in Certain Mammals, especially in the Rabbit.</i> By W. C. M'INTOSH, M.D., LL.D., D.Sc., F.R.S., Emeritus Professor of Natural History, Gatty Marine Laboratory, University of St Andrews. (With 103 Text-figures),	333
XVII. <i>The Metamorphic Rocks of Kintyre.</i> By WILLIAM J. MCCALLIEN, B.Sc., Lecturer in Geology, Glasgow University. <i>Communicated by</i> Dr G. W. TYRRELL. (With Eleven Text-figures)	409

NUMBER		PAGE
*XVIII.	<i>Notes on the Development of Callichthys littoralis.</i> By FRANCES M. BALLANTYNE, M.A., Zoology Department, University of Glasgow. <i>Communicated by Professor J. GRAHAM KERR, F.R.S.</i> (With Three Plates and Thirty Text-figures),	487
*XIX.	<i>Chromosome Linkage and Syndesis in Oenothera.</i> By DAVID G. CATCHESIDE, M.Sc., Assistant in Botany, University of Glasgow. <i>Communicated by Professor MONTAGU DRUMMOND.</i> (With Three Plates),	467
XX.	<i>The Genus Dictyoconus and its Allies: A Review of the Group, together with a Description of Three New Species from the Lower Eocene Beds of Northern Baluchistan.</i> By Lieut.-Colonel L. M. DAVIES, R.A., F.G.S. (With Two Plates and Nine Text-figures),	485
XXI.	<i>A Study of Apothecial Development in the Leaf-spot Disease of Red Clover.</i> By S. G. JONES, D.Sc., Lecturer in Botany and Mycology, University of Glasgow. <i>Communicated by Professor MONTAGU DRUMMOND.</i> (With Nine Text-figures)	507
XXII.	<i>Studies on the Scottish Marine Fauna. Additional Observations on the Fauna of the Sandy and Muddy Areas of the Tidal Zone.</i> By A. C. STEPHEN, B.Sc. (With One Plate and One Text-figure),	521

 PART III. (1930-31).

*XXIII.	<i>The Feeding Mechanism, Formation of the Tube, and Physiology of Digestion in Sabella pavonina.</i> By E. A. T. NICOL, B.A., Ph.D. <i>Communicated by Professor J. H. ASHWORTH, F.R.S.</i> (With Two Plates, Twenty-one Text-figures, and Seven Graphs),	537
*XXIV.	<i>The Carboniferous Sediments of Kintyre.</i> By WILLIAM J. MCCALLIEN, D.Sc., Lecturer in Geology, Glasgow University, and ROBERT B. ANDERSON, The Bwana M'Kubwa Copper Mining Co., Ltd., Northern Rhodesia. <i>Communicated by Dr G. W. TYRRELL.</i> (With One Plate and Twelve Text-figures),	599
XXV.	<i>Metamorphism in Relation to Structure in the Scottish Highlands.</i> By GERTRUDE LILIAN ELLES, M.B.E., D.Sc., and CECIL EDGAR TILLEY, Ph.D., B.Sc. <i>Communicated by Professor E. B. BAILEY, M.C., B.A., F.R.S.</i> (With Two Plates, Nine Text-figures, and One Table),	621
XXVI.	<i>Reports of the Jasper Park Lakes Investigations, 1925-26. The Mollusca of Jasper Park.</i> By ALAN MOZLEY, University of Manitoba. <i>Communicated by Dr CHARLES H. O'DONOGHUE.</i> (With Two Plates and One Text-figure),	647
*XXVII.	<i>The Old Red Sandstone of Shetland. Part II. North-Western Area.</i> By T. M. FINLAY, M.A., D.Sc. (With Three Plates and Three Text-figures),	671

NUMBER		PAGE
*XXVIII.	<i>The Stem-Endodermis in the Genus Piper.</i> By GEORGE BOND, B.Sc., Ph.D., Lecturer in Botany, University of Glasgow. <i>Communicated by Professor</i> MONTAGU DRUMMOND. (With Three Plates and Eleven Text-figures), .	695
*XXIX.	<i>On the Morphology, Feeding Mechanisms, and Digestion of Ensis siliqua</i> (Schumacher). By ALASTAIR GRAHAM, M.A., B.Sc. (Edin.), Lecturer in Zoology in the University of Sheffield. <i>Communicated by Professor J. H.</i> ASHWORTH, F.R.S. (With one Plate, Eight Text-figures, and Five Graphs),	725
XXX.	<i>The Dolerite Isles of the North Minch.</i> By FREDERICK WALKER, M.A., D.Sc., Lecturer in Geology, University of St Andrews. (With One Plate and One Text-figure),	753
*XXXI.	<i>The British and Belgian Carboniferous Bellerophontidæ.</i> By JOHN WEIR, Ph.D., F.G.S. <i>Communicated by Professor E. B. BAILEY, M.C., M.A.,</i> F.R.S. (With One large Folding Table and Nine Plates),	767
INDEX,	863
