

INSTRUCTIONS FOR AUTHORS

Contributions of about 10,000 words, and no more than 20,000 words, should be submitted by email to the editorial office with a message that includes your name, telephone number, email address, and an ORCID iD (optional). We also need a note “about the author” that gives a good understanding of who you are and your special area of research. Submissions should be sent as an attachment in the format .doc or .docx to sic@taux.ac.il. The editors require that the article be introduced by a paragraph of about 150 words that presents its argument, followed by a list of keywords.

The journal follows the author-date reference system that is generally used in the social and natural sciences. ‘Documentation 2 Author-Date Citations and Reference Lists’ of the Chicago Manual of Style and a back issue of the journal should be used as guides. More detailed instructions for contributors and specific guidelines (e. g. for transliteration from Russian or Hebrew) are available from <http://journals.cambridge.org/action/displayJournal?jid=SIC>. Unusual alphabets, special characters, mathematical and chemical formulas, and all diacritical marks should be clearly indicated. Articles may be illustrated by a small number of figures in black and white, formatted in TIFF, with a minimum resolution of 300 dpi for halftones and 600 dpi for line drawings. For further information, contact the editorial office.
