THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

PATRON

H.R.H. THE PRINCE PHILIP DUKE OF EDINBURGH, F.R.S.

OFFICERS AND COUNCIL

President: Prof. A. L. HODGKIN, Sc.D., F.R.S.

Vice-Presidents

Prof. A. V. HILL, C.H., O.B.E., Sc.D., LL.D.,
F.R.S.
Sir EDWARD J. SALISBURY, Kt., C.B.E., D.Sc.,
LL.D., F.R.S.
Prof. Sir JAMES GRAY, Kt., C.B.E., M.C., Sc.D.,
LL.D., F.R.S.
G. M. GRAHAM, C.M.G., O.B.E.

Prof. Sir ALISTER C. HARDY, Kt., D.Sc., F.R.S.
Sir C. MAURICE YONGE, Kt., C.B.E., D.Sc., F.R.S.
Rear Admiral Sir EDMUND G. IRVING, K.B.E., C.B.
Sir FREDERICK S. RUSSELL, Kt., C.B.E., D.S.C.,
D.F.C., D.Sc., LL.D., F.R.S.
Sir EDWARD R. CHADWYCK-HEALEY, Bt., M.C.

Honorary Members

Prof. Sir JAMES GRAY, Kt., C.B.E., M.C., Sc.D.,
LL.D., F.R.S.
Prof. Sir ALISTER C. HARDY, Kt., D.Sc., F.R.S.
E. H. E. HAVELOCK, C.B., C.B.E.
Dr A. G. HUNTSMAN

Miss MARIE V. LEBOUR, D.Sc.
Dr A. C. REDFIELD
Prof. G. THORSON, D.Phil.
Sir C. MAURICE YONGE, Kt., C.B.E., D.Sc., F.R.S.
Prof. L. A. ZENKEVITCH

COUNCIL

Elected Members

Prof. H. CHARNOCK
Prof. R. B. CLARK, D.Sc.
Prof. D. J. CRISP, Sc.D., F.R.S.
Prof. G. E. FOGG, Sc.D., F.R.S.
J. A. B. GRAY, M.B., Sc.D.
J. P. HARDING, Ph.D.
Prof. G. M. HUGHES, Sc.D.
R. D. KEYNES, Sc.D., F.R.S.

Prof. R. A. MORTON, D.Sc., F.R.I.C., F.R.S.
Prof. J. G. PHILLIPS, D.Sc.
Prof. J. E. G. RAYMONT, D.Sc.
Rear Admiral G. S. RITCHIE, C.B., D.Sc., F.R.I.C.S.
Prof. T. I. SHAW, Ph.D.
J. C. SWALLOW, Ph.D., F.R.S.
H. G. VEVERS, M.B.E., D.Phil.

Governors

J. GRAHAM (Ministry of Agriculture, Fisheries
and Food)
The Worshipful Company of Fishmongers:
Sir EDWARD R. CHADWYCK-HEALEY, Bt., M.C.
Col. Sir JOHN G. CAREW POLE, Bt., D.S.O., T.D.
The Hon. HUGH WALDORF ASTOR, J.P.
Prof. J. W. S. PRINGLE, M.B.E., Sc.D., F.R.S.
(Oxford University)

S. SMITH, Ph.D. (Cambridge University)
EDWARD HINDLE, Sc.D., F.R.S. (British
Association)
Prof. G. P. WELLS, Sc.D., F.R.S. (Zoological Society)
Prof. Sir BERNARD KATZ, Kt., M.D., D.Sc., F.R.S.
(Royal Society)
Prof. E. J. DENTON, Sc.D., F.R.S. (Physiological
Society)

Hon. Treasurer: The Hon. HUGH WALDORF ASTOR, J. P., 14 Culross Street,
London, W. 1.

Secretary: J. E. SMITH, Sc.D., F.R.S., The Laboratory, Citadel Hill, Plymouth, Devon

SCIENTIFIC STAFF

Director: J. E. SMITH, Sc.D., D.Sc., F.I.Biol., F.R.S.

L. H. N. COOPER, D.Sc., F.R.I.C., F.G.S., F.I.Biol.,
F.R.S. (*Chemist*)
G. M. SPOONER, M.B.E., M.A., F.R.E.S. (*Zoologist*)
MARY W. PARKE, D.Sc., Ph.D., F.L.S., F.I.Biol.
(*Phycologist*)
P. G. CORBIN, B.A. (*Zoologist*)
N. A. HOLME, M.A. (*Zoologist*)
G. R. FORSTER, B.Sc. (*Zoologist*)
E. D. S. CORNER, M.Sc., Ph.D. (*Biochemist*)
A. J. SOUTHWARD, D.Sc., Ph.D. (*Zoologist*)
J. V. HOWARTH, B.Sc. (*Zoologist*)

Q. BONE, M.A., D.Phil. (*Zoologist*)
G. T. BOALCH, B.Sc., Ph.D. (*Phycologist*)
G. W. BRYAN, B.Sc., Ph.D. (*Zoologist*)
A. G. DAVIES, B.Sc., Ph.D. (*Physical Chemist*)
P. R. DANDO, B.Sc., Ph.D. (*Biochemist*)
P. E. GIBBS, B.Sc., M.A., Ph.D. (*Zoologist*)
B. L. ROBERTS, M.A., Ph.D. (*Physiologist*)
J. C. GREEN, Ph.D. (*Phycologist*)
D. K. GRIFFITHS, M.Sc. (*Physical Oceanographer*)
G. W. POTTS, B.Sc., Ph.D. (*Zoologist*)
J. B. GILPIN-BROWN, B.Sc. Ph.D. (*Zoologist*)

J. H. WICKSTEAD, D.Sc., Ph.D., F.I.Biol., Ministry of Overseas Development (*Zoologist*)

Prof. E. J. DENTON, Sc.D., F.I.Biol., F.R.S. (*Physiologist*),
Royal Society Research Professor of Bristol University

JOURNAL OF THE MARINE BIOLOGICAL ASSOCIATION
INSTRUCTIONS FOR THE PREPARATION
OF MANUSCRIPTS

TITLE

The title of the paper should be kept as short as possible.

The name of the author at the beginning of the paper should be followed only by senior qualifications.

TEXT

Manuscripts must be typed (double-spaced) on one side of the paper, leaving ample margins, with the folios numbered. Words to be printed in italic should be underlined. The first mention of Latin names of species should be followed by the authority, except where reference is made to a work in which the authority appears (e.g. *Plymouth Marine Fauna*).

Manuscripts should be as concise as possible. Undue length will undoubtedly lead to delay in publication as the paper will be returned to the author for shortening.

All linear measurements and weights should be in the metric scale.

For symbols and abbreviations, the recommendations of the Royal Society (1951) are followed.

TABLES

Tables should be set out on separate sheets numbered in Arabic numerals, and given a concise heading.

TEXT-FIGURES

Text-figures should be in black ink. It is important to make the lines sufficiently black. Areas to be mechanically stippled should be indicated by light-blue pencil shading.

No drawing should be so large that it must be reduced to less than one-third of its original size. The degree of reduction need not be inserted by the author.

Illustrations requiring lettering should not be drawn on Ethulon.

The size of the printed area of the *Journal* page is 18 × 12 cm. The maximum size for a full-page figure (with legend) is 19½ × 13½ cm.

Lettering, numerals, etc., should be marked clearly in blue pencil and indicating the position in which they are to be inserted by an arrow in blue pencil. This should be kept to a workable minimum, all details being included in the legend.

Axes and graduation marks on graphs

Authors are requested to see that their manuscripts are in finished form and completely ready for publication so that corrections may be reduced to a minimum, and these are confined as far as possible to the first proof. If the cost for corrections exceeds a reasonable figure, the author is liable to be charged to the full extent of the excess.

SUBSCRIPTIONS

Journal of the Marine Biological Association of the United Kingdom is published quarterly. Single parts cost £5 net (\$16.50 in the U.S.A.) plus postage.

Four parts form a volume. The subscription price of a volume (which includes postage) is £18 net (\$60.00 in the U.S.A.).

Second class postage paid at New York, N.Y.

must be inked in. The lines on graph paper are not normally reproduced, and should be blue or faint grey.

Legends for figures must be typed all together on a separate sheet, and not inserted on the actual illustrations.

Text-figures are numbered in arabic numerals, and referred to in the text as 'Fig. 1', etc. Where there is a plate containing several figures, the text-figures are referred to as 'Text-fig. 1', etc.

All line-drawings are printed as text-figures, as well as photographs for which fine detail is not required.

PLATES

Photographs should be on smooth-surfaced paper, semi-matt or glossy. The edges of the photograph must be trimmed square. It is important that the background in the photograph be of a uniform tone and free from blemishes.

Divisions of plates, or separate figures on one plate, are indicated by capital letters.

SUMMARY

Each paper must be accompanied by an informative Summary, giving the main results of the work published.

REFERENCES

References are listed alphabetically at the end of the paper. The full title of the paper must be given. Titles of papers, but not of books, are decapitalized. Titles of Journals are abbreviated as in the *World List of Scientific Publications* (4th ed., 1963 on). Volume (Vol.), Band (Bd.), or Tome (T.) numbers are in Arabic numerals. Where a volume appears in parts the part need only be specified where each has separate pagination. References to books should include the publisher. Citations in text to be given by author's name followed by date in brackets.

Primary Productivity in Aquatic Environments

By CHARLES R. GOLDMAN

As marine life becomes more important as an actual and potential source of food, research in this area is increasing in intensity; the papers present work from all over the world.

Sounds of Western North Atlantic Fishes

A Reference File of Underwater Sounds

By MARIE P. FISH and WILLIAM H. MOWBRAY

Many people may not be aware that fish produce sounds. Most species do however—a fact that was established during World War II when Dr Fish began her investigations.

HARVEST OF THE SEA

JOHN BARDACH

Timely and authoritative science reporting of a high order, it sets out both the promise of the oceans and their challenges: what we can expect in the years ahead, and what we must do now if the predictions are to come true. 55s.

OCEANOGRAPHY AND MARINE BIOLOGY

AN ANNUAL REVIEW

Edited by HAROLD BARNES

'The series has become an essential reference book for research workers and students.'

The Times Educational Supplement

VOLUME SEVEN: follows closely the objects and styles of the earlier Volumes which consider annually basic aspects of marine research and deal with subjects of special and topical importance. £8

Allen & Unwin

Discovery Reports Vol. XXXV

Spirorbis Species (Polychaeta: Serpulidae) from the South Atlantic

TEGWYN HARRIS

The Spirorbinae of the South Atlantic are imperfectly known and have not been recorded and described by many authors. This report contains descriptions of new species as well as some previously known ones. The distribution of *Spirorbis* species in the South Atlantic is described and discussed in relation to setting behaviour and the Cape Horn and Falkland Currents; the significance of modes of incubation to bio-geographical distribution is also considered. 55s. net

CAMBRIDGE UNIVERSITY PRESS

BIOLOGY BOOKS FROM PITMAN

THE BIOLOGY OF MARINE ANIMALS

J. A. Colin Nicol

2nd Edition Pitman Paperback 60s net

This book is concerned with the functioning of marine animals and with their physiological relationship to the environment. It deals with each of the major physiological activities of different animals on a comparative basis, e.g. water-balance, ionic regulation, respiration, feeding, digestion, neural regulation and behaviour, colour-responses, luminescence, etc. In treating these various subjects a great deal of experimental information has been gathered together, and this has been used to illustrate how marine animals maintain themselves in the changeable conditions occurring in the shore or in the estuaries, or under the more stable conditions existing in the open oceans.

PLANT AND ANIMAL BIOLOGY

A. E. Vines & N. Rees

Vol. 1 3rd Edition 60s net

The whole work is a comprehensive treatment of botany, zoology and biology, suitable for students who are preparing for G.C.E. 'A' levels and 'S' levels and even for University students studying these subjects as ancillaries. This volume deals with the systematic, morphological, anatomical and historical details of a wide variety of plants and animals, and these are presented in such a way as to stress the links between environment, structure and function.

Vol. 2 3rd Edition 45s net

This volume contains a full treatment of plant and animal physiology, and topics of general biological interest such as variation, genetics, evolution and ecology. There are also a large number of examination questions.
