hereby covenant with the Fauna and Flora Preservation Society, whose office is 1 Kensington Gore London SW7 2AR, that for a period of four years from the date hereof, or until my death (whichever shall be the shorter period) I will pay annually to the said Society from the day of (this date should be later than the date of the signature) in every year such a sum as, after deduction of income tax at the standard rate for the time being in force, amounts to £ (please insert the actual amount of your subscription), such a sum to be paid from my general fund of taxed income.

Signed and sealed by me this * day of 19

Signature In the presence of Occupation.....
(signature of witness, who should not be your spouse)

Address

* The first payment must be received within 1 year from this date.

INTRODUCTION TO BEHAVIOURAL ECOLOGY

Third Edition

J Krebs & N B Davies

This well known and widely respected text now appears in a new and colourful third edition. The book will be widely used and adopted for the growing population of ecology undergraduates. Several important new topics have been introduced in this edition including: the latest techniques of comparative analysis; the theory and application of DNA fingerprinting; brood parasite/host coevolution; sexual selection in relation to disease resistance; and intentionality of communication; making this the most up to date textbook for undergraduates in the field.

- ◆ The leading introductory text from the two most prominent workers in the field
- ◆ Second colour in the text
- ◆ New section of four colour plates
- ◆ Boxed sections to illustrate difficult and important points
- ◆ New larger format with marginal notes to guide the reader through the text
- ◆ Selected further reading at the end of each chapter

0632035463 . March 1993 . 432pp . 149 illustrations . Paperback £17.95

ORDER FORM

Please send me _____ copie(s) of *Introduction to Behavioural Ecology* @ £17.95 plus £1.75 postage and packing

I enclose a cheque for £ _____ (made payable to Marston Book Services)

Please debit my AMEX/Diners Card/Eurocard/Mastercard/Visa

card number

expiry date _____ with the sum of £ _____

Signature _____ Date _____

ORYX: NOTES FOR CONTRIBUTORS

General *Oryx* publishes original articles and reports dealing with the conservation of species and habitats world-wide, with particular emphasis on those that are endangered. All submissions are reviewed by at least two referees. It is helpful if authors suggest at least one referee who is qualified to judge the work objectively.

Submissions should be sent to the Editor, FFPS, 1 Kensington Gore, London SW7 2AR.

After acceptance papers may be edited to enhance clarity. Where major changes have been made edited manuscripts are returned to authors before type-setting. Page proofs are sent to all authors for approval before going to press. Contributors receive two free copies of the journal and will be entitled to buy additional copies at £2.00 each, post free. Offprints may be ordered at cost price.

Contributions should be concise but informative, normally in English. Articles should be as short as possible, preferably under 2500 words, and very short articles are acceptable.

Manuscripts should be typed on one side only and double-spaced on A4 paper (208x298 mm). The left-hand margin must be at least 40 mm wide. Two copies should be submitted and authors are also invited to submit papers on disk (IBM compatible or Apple format).

Footnotes should be avoided but, if necessary, should be indicated with asterisks in the text. The author's name and postal address should follow any acknowledgments and references at the end of the article.

References in the text should give the author's name with the year of publication in parentheses. The reference list should be in alphabetical

order and include the full article title.

References should be given according to the abbreviations in the *World List of Scientific Periodicals*. Thus:

Aveling, C. and Harcourt, A.H. 1984. A census of the Virunga gorillas. *Oryx*, 18, 8–13.

Hartshorn, M.G. 1983. Wildlife conservation in Central America. In: *Tropical Rain Forest: Ecology and Management* (eds S. L. Sutton, T. C. Whitmore and A. C. Chadwick), pp. 421–423. Blackwell Scientific Publications, Oxford.

Illustrations are welcomed and ideally should be glossy, black-and-white whole-plate prints. Good colour slides are acceptable if black-and-white photographs are not available.

Line drawings and maps should be in black ink on strong white or translucent paper. Lettering on maps and figures should be sent on a separate copy of the figure along with the unlabelled original.

Captions for figures should be typed consecutively on a separate sheet.

Tables. Each table should be self-explanatory and typed on a separate sheet with an appropriate caption.

Scientific names should be underlined and not placed in parentheses. Species' names should follow a checklist, which should be mentioned in a covering letter where there is a risk of confusion.

The first time a species is mentioned its scientific name should be given. English names should be in lower case throughout except where they incorporate a proper name.

FFPS News 128

Cover

The great auk *Alces impennis* –
extinct since June 1844 when the
last known pair was killed on
Eldey Island, Iceland. The species
declined because of human
predation at breeding colonies: it
was killed for food and oil and, as
numbers declined, for collection
specimens. This engraving comes
from *Reptiles and Birds* by Louis
Figuier, published in 1869
(*John A. Burton/Bruce Coleman Ltd.*).
