NOT A WORD IS CHANGED A SHORT BIBLE

in the AUTHORIZED VERSION

' There is room for a good anthology of the finest passages of the Bible suitable for school use, and produced at a reasonable cost . . . Such an anthology as we contemplate would consist of passages from the Bible which should be, so far as possible, complete in themselves . . . It is hardly necessary to say that we deprecate the publication of any books for school use which attempt to re-tell the Bible story in other words. Omission need do no harm; alteration is quite a different matter.'

—*Report of the Consultative Committee on Books.*

Such an anthology, suitable alike for the Scripture and the English lessons, has been planned by

Greatness through Centuries

has been the mark of Catholicism. The dominant position of the Church through twenty centuries has made itself felt in every walk of life & the tradition & culture built up by the Faith have been the background of the greatest lives in history. Catholics have ever been among the leaders in art, science & learning.

The culture of Catholicism today, the current thought of 360 million Catholics throughout the world; the activities of almost three million Catholics in Great Britain — all are faithfully reflected from week to week in the columns of the

¶ The Shakespeare Head Press has planned this book for the connoisseur. The fine workmanship for which the Press is famous has been spent on this production, and the illustrations have been printed from the wood, giving the velvety blacks impossible to obtain from metal electros.

¶ Gabriel Pippet has, with Eric Gill and Gwendoline Ravarat, done more towards the renaissance of wood engraving than any other craftsman in modern times.
