

ANNOUNCEMENTS

33rd Annual Clay Minerals Conference

This meeting, which is organized by The American Clay Minerals Society, is internationally open and will be held from 30 September to 3 October, 1984, at Capitol House, Baton Rouge, Louisiana. The technical programme will include a symposium on clays and clay minerals in the petroleum industry and a workshop on recognition of clays using remote methods. Field trips will afford opportunities to examine Mississippi alluvial valley loess, Atchafalaya swamp and delta deposits, and Mississippi delta sediments and mud-lumps. Details may be obtained from Dr R. E. Ferrell, Dept. of Geology, Louisiana State University, Baton Rouge, Louisiana 70803, USA.

The W. F. Bradley Award

AIPEA have instigated an award to provide financial assistance to young scientists interested in attending future International Clay Conferences. It is named in honour of the late Dr W. F. Bradley, who died while holding the presidency of AIPEA. The basis for the first award will be a scientific paper relevant to the scientific programme of the 1985 International Clay Conference in Denver, Colorado, USA. The paper should be submitted by 20 January 1985 and be accompanied by an application form. Copies of the form and of the regulations attached to the award may be obtained from Dr A. J. Herbillon, Secretary General of AIPEA, 1 Place Croix du Sud, B-1348 Louvain-la-Neuve, Belgium, or Dr M. J. Wilson, Secretary of the British Clay Minerals Group, The Macaulay Institute for Soil Research, Craigiebuckler, Aberdeen AB9 2QJ, UK.

REFEREES

The Editors are grateful to the following who acted as referees during the preparation of volume 18.

J. M. ADAMS	B. JEPSON	J. A. RAUSELL-COLOM
T. ADLOFF	P. R. KIFF	J. D. RUSSELL
D. C. BAIN	L. LE DRED	U. SEEMANN
