

AMERICAN JOURNAL OF ALTERNATIVE AGRICULTURE®

1996
Volume 11, Number 1

TABLE OF CONTENTS

Articles

- 2** Soil and water conservation and improved crop management effects on watershed productivity in Andhra Pradesh, India • K.P.R. Vittal, S.K. Das, J.C. Katyal, N. Munikrishnaiah, and M. Rajender Reddy
- 7** Low-input, on-farm composting of high C:N ratio residues • D.B. Churchill, W.R. Horwath, L.F. Elliott, and D.M. Bilsland
- 10** Economic methods for comparing alternative crop production systems: A review of the literature • Wayne S. Roberts and Scott M. Swinton
- 18** Organic farmers and conventional distribution systems: The recent expansion of the organic food market in Denmark • Johannes Michelsen
- 25** Evaluating the sustainability of alternative farming systems: A case study • John Ikerd, Gary Devino, and Suthijit Traiyongwanich
- 30** Comparison of organic and sustainable fed cattle production: A South Dakota case study • Donald C. Taylor, Dillon M. Feuz, and Ming Guan
- 39** Effects of free-range chickens and geese on insect pests and weeds in an agroecosystem • M. Sean Clark and Stuart H. Gage

Art Director — Randy White

The *American Journal of Alternative Agriculture* (ISSN 0889-1893) is published quarterly by the Henry A. Wallace Institute for Alternative Agriculture, Inc., 9200 Edmonston Road, Suite 117, Greenbelt, Maryland 20770-1551, in collaboration with the Center for Agriculture, Food and Environment, School of Nutrition Science and Policy, Tufts University, Medford, Massachusetts 02155. Neither the Wallace Institute nor Tufts University is responsible for statements and opinions expressed by authors.

Subscription Information

Annual Journal subscription rates: Library/Government/Institutions \$44—US; \$46—Canada and Mexico; \$48—all other countries. Individuals \$24—US; \$26—Canada and Mexico; \$28—all other countries. Students \$12—US; \$14—Canada and Mexico; \$16—all other countries. Second Class postage paid at Greenbelt, MD. Postmaster: Send address changes to *American Journal of Alternative Agriculture*, 9200 Edmonston Road, Suite 117, Greenbelt, MD 20770-1551.

Wallace Institute Information

The Henry A. Wallace Institute for Alternative Agriculture is a nonprofit, tax-exempt research and education organization established in 1983 to encourage and facilitate the adoption of cost-effective, resource-conserving and environmentally-sound farming methods. It works closely with producer groups, public research and education institutions, and government agencies in promoting a sustainable agriculture system.

Its programs include providing a national information clearinghouse, serving as a voice for sustainable agriculture in Washington, and developing and implementing research and educational outreach programs. It holds an annual scientific symposium and publishes a monthly newsletter.

The Institute is governed by a grass roots Board of Directors, which includes several commercial-scale organic farmers, and maintains a small professional staff. It is supported by memberships and donations and grants from foundations, corporations, and individuals.

Cover Photo

The cover shows the traditional Indian method of weed control by intercultivating with blade harrows in a broadcast-seeded field. Photo provided by K.P.R. Vittal, Central Research Institute for Dryland Agriculture, Santoshnagar, India.
