## Notice to contributors

*International Psychiatry* publishes original research, country profiles, mental health law profiles and thematic overviews, dealing with mental health policy, promotion and legislation, the administration and management of mental health services, and training in psychiatry around the world. Correspondence as well as items for the news and notes column will also be considered for publication. The journal aims to be a platform for work that is generally underrepresented in the literature, especially psychiatry research and opinion from low- and middle-income countries.

Manuscripts for publication must be submitted online at <http://submit-ip.rcpsych.org> (general enquiries may

be addressed to [ip@rcpsych.ac.uk](mailto:ip@rcpsych.ac.uk)). Research papers and special articles printed in the journal may be no longer than 1500 words; at the Editor's discretion, longer versions of papers that have been successfully peer reviewed may be linked to the online version of the journal in manuscript form. Correspondence should be no longer than 500 words. The Harvard system of referencing should be used.

Manuscripts accepted for publication are copy-edited to improve readability and to ensure conformity with house style. Authors whose first language is not English are encouraged to contribute; our copy-editor will make any necessary corrections, in consultation with the authors.

Contributions are accepted for publication on the condition that their substance has not been published or submitted elsewhere. Once a paper is accepted for publication, all its authors are required to disclose any potential conflict of interest. Completion of the form developed by the International Committee of Medical Journal Editors for this purpose ([http://www.icmje.org/coi\\_disclosure.pdf](http://www.icmje.org/coi_disclosure.pdf)) is mandatory.

## About our peer-review process

All articles submitted will be peer-reviewed to ensure that their content, length and structure are appropriate for the journal. Research papers and special papers are reviewed by a minimum of two peers. Not all papers will be accepted for publication, but our peer-review process is intended to assist our authors in producing articles for worldwide dissemination. Wherever possible, our expert panel of assessors will help authors to improve their papers to maximise their impact when published.
