

THE ROYAL AERONAUTICAL SOCIETY

Publications Index 1897-1977

An important and unique index covering all aspects of aeronautics and aeronautical technology published by the Society during a period of 81 years.

The wide range of subjects included are listed in a simple alphabetical manner by both author and subject entries and provides a quick and easy-to-use index to all papers published by:—

The Aeronautical Journal
The Aeronautical Quarterly and
Aerospace

together with certain allied publications such as conference symposia, named lectures, etc.

— A valuable research tool for both the librarian and the individual —

560 pages 6" x 8" format

£25 (plus £1.25 surface mail postage
and packing)

ISBN 0 903409 08 9

HIRING FACILITIES

The Lecture Theatre and certain rooms at the Royal Aeronautical Society headquarters are available for hire. For information on the cost of hiring, please contact Mrs. E. Montagu at the above address.

Sessions: Mornings 08.30-13.00. Afternoons 13.30-18.00. Evenings 18.30-20.00.

LECTURE THEATRE	2000 sq ft, Seating Capacity 304. Air conditioned. Entrance via Foyer suitable for reception. (The services of a fully qualified Projectionist can be provided.)
COUNCIL ROOM	650 sq ft, Seating Capacity 30 (ground floor).
*FOYER	550 sq ft.
COMMITTEE ROOM 2	490 sq ft, Seating Capacity 16 (2nd floor).
COMMITTEE ROOM 5	Seating Capacity 12 (5th floor).
Audio Visual Aids	(Available in Theatre and in all rooms by arrangement.) 35 mm slide projector, 16 mm cine projector, Vugraph, blackboard, audio recording and playback.
Services	Morning coffee and biscuits. Afternoon tea and biscuits. Cloakroom attendant per day or per session.

*Available only on special occasions.

COMpac 1010

SPECIFICATION

SUBJECT: Buckling of flat rectangular orthotropic plates with 2 edges simply supported and 2 clamped.

PURPOSE: This is an interactive program, with graphics, enabling the user to make an accurate estimate of the shear and direct loads which acting either singly or in combination cause buckling of a flat rectangular orthotropic or isotropic plate with clamped edges. Sketches are used to help define the parameters. Isometric sketches can be displayed to illustrate the wave form of the buckled plate.

BASIS: ESDU Data Item No. 73003 and BRUCE, J., ROBINSON, J.R. The buckling and bending of orthotropic sandwich panels in compression and shear. Unpublished work at Handley Page Ltd, 1956.

MECHANICAL DETAILS: The COMpac comprises a User's Manual and a program currently available in the following form:

1. DC-300A Data Cartridge for Tektronic 4051 (16K version with matrix algebra ROM), 4052, 4054.
