Since 1991, *European Psychiatry* has been the official journal of the Association of European Psychiatrists (AEP).

European Psychiatry presents the results of original research relative to those numerous diverse fields currently of interest to psychiatrists: psychopathology, nosography, chemotherapy, psychotherapy, clinical methodology, biological disorders and mental pathology, psychophysiology, neuropsychophysiology, relative to therapeutics, clinical and basic research as well as animal behaviour.

This wide scope is aimed at encouraging the exchange of ideas and research within Europe and establishing within the international psychiatric community an improved level of scientific communication.

European Psychiatry endeavours to publish not only high scientific level original articles, short communications, editorials, letters to the editor but also AEP newsletters, book reviews, information on new regulations in Europe and a conference calendar.

2 European AEP Grants

in neuropsychiatry sponsored by Synthélabo to the value of 150.000 French Francs each.

Each grant to the value of 150.000 French Francs

The fourth award of the AEP grants will be in October 2000

Synthélabo is today present in all major areas of psychiatry and CNS is considered as one of its privileged fields of research.

Synthélabo wishes to confirm its involvement as a European partner in the training of young scientists and practitioners in psychiatry and other medical fields.

It is in this context that Synthélabo and AEP are united in their effort to award European grants in neuropsychiatry.

Objectives

Fundamental research in psychosis :

- biological psychiatry
- clinical psychiatry
- psychopathology

as areas of interest to the European psychiatric-scientific community.

The studies may necessitate specific training abroad and the grant could be used as an "exchange award".

Candidates

This prize is opened to all researchers and/or motivated teams, supported by a leading figure of the psychiatric-scientific community and to all European countries (EU and non-EU).

Rules

The researcher must submit to the jury a project description of 10 to 15 pages in one of the 3 official languages of the

AEP (English, French or German) accompanied by an English summary. He/she must be supported by a member of the AEP and his/her paper accompanied by a curriculum vitae and a list of his/her publications.

After a two months review period the jury will announce the 2 selected theses and the first part of the grant, 50.000 FF, will be awarded in September 1999.

The second part, 100.000 FF, will be awarded at the AEP Congress in October 2000, by the President of the Association. The selected studies must be presented at the AEP Congress 2000, in Prague and be submitted to publication in the following year.

Jury

The jury consists of :
Seven members

designated by the AEP Committee and a member of Synthélabo to act as the secretary to the jury.

Composition of the application file

It should include :

- The typed project description in English, French or German with a clear abstract in English,
- An attestation of support by a member of the AEP,
- A curriculum vitae with age and address,
- A list of publications.
- An application letter addressed to the President of the AEP and to Philippe Tarlé at the following address:

Philippe Tarlé
