Economics & Philosophy

Editors

Martin van Hees, *University of Groningen, Netherlands*

James Konow, *Kiel University, Germany and Loyola Marymount University, USA*

Christian List, *London School of Economics, UK*

François Maniquet, *CORE (Université Catholique de Louvain), Belgium*

The disciplines of economics and philosophy each possess their own special analytical methods, whose combination is powerful and fruitful. Each discipline can be enriched by the other. *Economics & Philosophy* aims to promote their mutual enrichment by publishing articles and book reviews in all areas linking these subjects. Topics include the methodology and epistemology of economics, the foundations of decision theory and game theory, the nature of rational choice in general, historical work on economics with a philosophical purpose, ethical issues in economics, the use of economic techniques in ethical theory, and many other subjects.

Kantian Review

Editors

Howard Williams, *Aberystwyth University, UK*

Graham Bird, *University of Manchester, UK*

Richard Aquila, *University of Tennessee, USA*

Kantian Review publishes articles and reviews selected for their quality and relevance to current philosophical debate in relation to Kant's work. In recent times Kant's philosophy has influenced contemporary philosophers over a wide range of issues from epistemology, metaphysics and philosophy of science to moral and political philosophy, philosophy of religion, aesthetics and teleology. *Kantian Review* invites contributions to these debates along with original accounts of Kant's texts, and of the development of his thought in its historical background.
