Elgar Encyclopedia of Comparative Law

Edited by **Jan M. Smits**,
University of Tilburg,
The Netherlands and Tilburg
Institute of Comparative and
Transnational Law

'Comparative law is the comparison of law and legal systems from around the world. At one time it was a field of limited interest and academic participation. However, increasing globalization, whether of commerce or culture, makes it imperative that citizens learn more about the law of other countries. That is the premise of this comprehensive new research tool designed for general readers. Some 70 articles address topics as diverse as accident compensation, legal culture, the European Civil Code, and the law and legal systems of a selected set of nations... This single-volume work provides an excellent comprehensive overview of the current state of affairs in comparative law.'

– J.E. Stephens, *Choice*

ELGAR ORIGINAL REFERENCE

The Impact of the WTO

The Environment, Public Health and Sovereignty

Trish Kelly, Peabody College, Vanderbilt University, US

'Kelly's exhaustively researched and highly informative discussion of the nine WTO disputes involving environmental protection and public health represents an important scholarly contribution. This book is the most detailed and sophisticated analysis of the role of the WTO's dispute mechanisms in addressing an increasingly important and highly controversial category of trade disputes.'

– David Vogel, University of California, Berkeley, US

'Does the WTO favor trade at the expense of national sovereignty, the environment and public health, as the critics contend? Or is it a democratic institution that gives all countries a seat at the table for a feast of free trade? Trish Kelly's superb book, The Impact of the WTO is the first careful and comprehensive look at the actual environmental and health disputes adjudicated at the WTO to try to answer this question. Her answers are well-researched, objective and unlikely to fully satisfy either side in this sometimes raucous argument: Kelly concludes that, so far, the WTO has not sacrificed sovereignty, the environment and public health; but looking forward, the poorest countries need more assistance to have greater access to the dispute settlement mechanisms. She also shows that strong political action at the national level is necessary to protect public health and the environment. Though controversial, this book will provide the gold standard of careful analysis on these issues for the foreseeable future.'

– Gerald A. Epstein, University of Massachusetts, Amherst, US

This volume is the first to provide a comprehensive analysis of the nine environmental and health disputes that have been adjudicated at the WTO since 1995. The investigation concludes that criticism of the WTO has been overstated and, surprisingly, nations do in fact retain sovereignty over environmental and health policy. The disputes explored suggest that the WTO has been able to balance trade, environmental and health objectives. The discussion illuminates the strengths and weaknesses of the dispute resolution process and closes with suggestions for improving it.

changing international legal research forever

Foreign Relations of the United States

The *Foreign Relations of the United States* series presents the official documentary historical record of major U.S. foreign policy decisions and significant diplomatic activity.

The series is produced by the State Department's Office of the Historian and is comprised of more than 350 volumes.

Foreign Relations began in 1861 during Abraham Lincoln's administration and continues until the administration of Richard Nixon in 1975.

This collection offers researchers a rare glimpse into the history of this great nation's foreign policies and decisions. **Legal scholars of all professions will find this series to be a valuable resource.**

Foreign and International Resources Database

With FILRD, researchers are now able to easily search or browse online through some of the world's best international law publications, including in-depth coverage of publications from ASIL, prominent Yearbooks from around the world, the Hague Permanent Court of International Justice Series and other publications from dozens of highly respected publishers.

Already there are nearly 675 volumes available, that's over 500,000 pages of invaluable legal research information at your fingertips. Future content releases will only continue to enhance this unique database! **International legal research has never been easier or more affordable!**

**All content is image-based (PDF), searchable, printable,
comprehensive from inception and affordable for every institution!**

Eleven Presents the Following Titles in European Union Law

European Union Law:

Documents (2nd edition)

edited by Frank Emmert

This is the second edition of the well-received documents collection on European Union law, first published in 1999. The purpose of this volume is to provide a compact collection of the most important primary and secondary sources of EU law, a quick reference guide, and a desk-copy for rapid and frequent consultation.

This collection differs from other EU document collections as (i) it includes many documents relating to the institutions of the EU and their decision-making process, such as Rules of Procedure of Parliament, Council, Commission and both Courts of the EU; (ii) all regulations and directives are reproduced with their preambles and (iii) all documents are printed with article headlines - most of which have been added by the editor.

This collection is volume 1 of a three-volume set on European Union law. Volume 2 covers EU case law and volume 3 is a text book on EU law.

Forthcoming

ISBN 978-90-77596-07-4
Softbound, approx. 800 pp.
Publication date: May 2008
Price: € 49 / US\$ 75

Table of Contents

Introduction; *One*: The Foundation of an "Ever Closer Union"; *Two*: Institutional Law and General Principles of the European Union; *Three*: Legal Remedies Under EU Law; *Four*: Human Rights and Civil Liberties; *Five*: Economic Freedoms in the Internal Market; Free Movement of Goods; Free Movement of Persons; The Freedom to Provide Services and the Freedom of Establishment; *Six*: European Union Competition Policy; Cartels and Abuses of Dominant Positions; Block Exemption Regulations; Merger Control; *Seven*: External Trade Law of the European Union; *Eight*: Other Common Policies of the European Union; Protection of the Environment; Consumer Protection; Labour Law and Social Policy; Index

European Union Law:

Cases (1st edition, reprint)

edited by Frank Emmert

The purpose of this casebook is to provide students of European integration and all those working with European Union law in practice with a compact collection of the most important judgments in this area. The collection is equally suitable for beginners, who will focus on the "classics", such as *van Gend en Loos* and *Costa v ENEL*, and for advanced students in post-graduate programmes who will appreciate to find a good overview of EC competition law and even a number of cases on antidumping and external trade law.

One hundred "leading cases" have been edited and are presented in fifteen chapters to cover the most important areas of Community law. Each case presentation begins with a short and concise summary of the facts. Subsequently, some "questions for consideration" provide guidance for the reading of the judgments. These are followed either by excerpts from the Advocate General's opinion or directly by excerpts from the judgment itself. At the end of many of the leading cases, shorter passages from judgments on related issues help in understanding the development of the Court's case-law over time.

ISBN 978-90-77596-28-9
Softbound, xiv + 690 pp.
Publication date: Nov. 2007
Price: € 49 / US\$ 75

Table of Contents

INVALUABLE NEW LAW BOOKS FROM HEIN!

American Journal of International Law (AJIL) CUMULATIVE INDEX 1991-2000, Volumes 85-94

“A-Rated” - AALS Law Books Recommended for Libraries, List 46, International Law, Page 3

The distinguished *AJIL* has been published quarterly since 1907. It features articles, editorials, notes and comments by pre-eminent scholars on developments in international law and international relations. This cumulative index spans ten years and includes a Table of Cases, Subject Index, Author Index and Title Index. It is indispensable for all professionals in international law, economics, trade and affairs.

Law of the International Criminal Court Young Sok Kim

As one of the Korean delegates to the Rome Conference in 1998 that established the ICC, the author is intimately familiar with matters related to the ICC's formation. This work addresses a host of difficult and common questions about the ICC and also records some legislative histories of important articles of the ICC Statute.

CAREERS IN INTERNATIONAL LAW: A Guide to Career Paths and Internships in International Law (2007-2008 Edition)

The *Guide* is a valuable resource for any student or new professional considering a career in international law. It contains essays, in which seasoned practitioners share their experiences and offer advice concerning career paths in public and private international law fields, such as criminal, human rights, international trade and much more.

WTO LAW, LITIGATION AND POLICY: Sourcebook of Internet Material Stuart S. Malawer

This outstanding sourcebook of Internet documents on WTO law and the dispute resolution system is a tremendous resource. With its comparative and institutional focus as well as its inclusion of interdisciplinary information on issues of law, trade and politics from a range of member states, it will be invaluable to governments and professionals worldwide. Its reliance on material available on the Internet provides evidence of the growth of the historical revolution in information and communications technology that coincides with the birth and growth of the WTO itself.

Meet your new research team.

A team of experienced librarians and legal research experts is working for you, and you didn't even know it. Better yet, you can call on them 24 hours a day, seven days a week.

The EISIL team has broken down the complicated world of researching international law into 13 broad categories covering 300 international law topics. At www.eisil.org, you'll have easy access to:

- Primary source documents such as treaties and agreements.
- Information for cite checking international legal materials for articles, briefs, and working papers.
- The best web sites and other tools for doing further research on an international topic.

Research that used to take days or hours and required an extensive library can now be done in minutes!

Try it. EISIL is fast, easy and FREE. Your team of researchers is waiting.

Check out EISIL today at www.eisil.org

Electronic Information System for International Law

EISIL was developed by the American Society of International Law under a grant from the Andrew W. Mellon Foundation.

INTERNATIONAL LAW: 100 WAYS IT SHAPES OUR LIVES

Many find international law abstract and static. Topics such as war and peace or relationships between countries are considered by some to be not so much questions of law, but of power and influence. Others question the existence of international law.

International Law: 100 Ways It Shapes Our Lives was conceived from the proposition that international law not only exists, but also penetrates more deeply and broadly into everyday life than is generally recognized. Some ways are of relatively recent vintage, while others are long-standing. 100 examples were identified by ASIL members, vetted by a smaller group of experts, and organized into seven chapters: 1) daily life; 2) leisure; 3) travel; 4) commerce 5) health and the environment; 6) personal liberty; 7) public safety and global security.

Join us in demonstrating how international law shapes our lives by

- Visiting *100 Ways* at <http://www.asil100.org/ways.html>;
- Using it in teaching and general civic education programs;
- Adding ways to the list; and
- Sharing your experiences using *International Law: 100 Ways It Shapes Our Lives*.

We hope that this creative and interactive project will help demonstrate the diversity and the centrality of international law to our lives today.

1 Always knowing what date and time it is anywhere on the planet.
By universal recognition of the prime meridian and Greenwich Mean Time (via international agreement at the International Meridian Conference in 1884). The latter was updated to "universal time" in 1928, and subsequent technical agreements have refined the definition further.

2 Mailing a letter reliably and easily to anyone in the world.
By ensuring a truly universal postal network and recognizing that specified postal rates in one country would satisfy delivery requirements in all countries (the Constitution of the Universal Postal Union, 1964).

3 Driving cars with improved safety standards.
By adopting global safety standards for automobiles, notably the Agreement Concerning the Establishing of Global Technical Regulations for Wheeled Vehicles, Equipment, and Parts Which Can Be Fitted and/or Used on Wheeled Vehicles (1998).

4 Being able to call Arkansas, Missouri, or most of Montana home.
As the result of the bilateral treaty known as the Louisiana Purchase (1803).

5 Placing and receiving telephone calls worldwide.
By creating an international communication network and by reaching an international agreement preventing national claims to the geostationary orbit. See the 1965 Constitution of what is now called the International Telecommunications Union, the oldest intergovernmental organization, and the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, Including the Moon and Other Celestial Bodies (UN Space Treaty, 1967).

6 Knowing that a second is the same length of time everywhere in the world.
By setting internationally recognized standards, particularly the Decision of the 13th General Conference on Weights and Measures (1967), under the auspices of the International Office of Weights and Measures (est. 1875).

7 Using the same software on computers worldwide.
By providing rights of distribution, copyright, and rental to authors of computer programs via the World Intellectual Property Organization Copyright Treaty (1996).

8 Getting an up-to-date weather forecast about your destination before you travel.
By benefiting from international rules for the collection and dissemination of worldwide weather data, as provided for by the Convention of the World Meteorological Organization (1947) and the International Telecommunication Convention (1932).

9 Watching news and events from around the world on television.
As a result of the international convention providing equal access to the international satellite communications network, as stated in Resolution 1721 (XVI) of the General Assembly of the United Nations (1961).

10 Listening to a BBC program on your radio.
By following regulations, implemented by the International Telecommunication Union, that provide for shared use of the radio spectrum and assign positions for communication satellites, building from the International Telegraph Convention (1865).
