In the original publication of “Mixed-up about how to diagnose and treat mixed features in major depressive episodes,” information for Figure 1 was missing. Copyright belongs to Physicians Postgraduate Press, and the figure was taken from the following:

“Mixed Specifier for Bipolar Mania and Depression: Highlights of DSM-5 Changes and Implications for Diagnosis and Treatment in Primary Care” by Hu, Mansur,

and McIntyre [Prim Care Companion CNS Disord 2014;16(2):doi:10.4088/PCC.13r01599].

The author and editor regret these omissions, and the original article has since been updated.
