

Canad. Math. Bull. Vol. 17 (3), 1974

Errata to “Spaces which cannot be written as a countable disjoint union of closed subsets”, by C. Eberhart, J. B. Fugate and L. Mohler, Vol. 16, pp. 435–37:

The footnote on p. 436 of the article incorrectly attributes an example to A. Lelek which is actually due to S. Mazurkiewicz (see K. Kuratowski, *Topology*, Vol. II).
