Camallanata of Animals and Man and Diseases caused by them

by V.M. Ivashkin.

Translated from the Russian.

This volume contains the monographic treatment of nematodes of the suborder Camallanata Chitwood, 1936 (super-families: Camallanoidea, Dracunculoidea, Anguilliculoidea). It presents material on the morphology, biology, ecology, and geography of all known representatives of the mentioned groups of nematodes parasitizing vertebrates and also man in all zones of the earth. Detailed descriptions are given of the diseases of man and animals caused by some Camallanidae, and also of methods of treating or preventing these diseases.

Series: Essentials of Nematodology Volume 22
