

The successor to the journal *Music Review*, *Nineteenth-Century Music Review* aims to locate music within the widest possible framework of intellectual activity pertaining to the long nineteenth century (c.1789–1914). It particularly welcomes interdisciplinary scholarship that explores music within the context of other artistic and scientific discourses. Articles with fine visual or iconographic content are encouraged, as are those rich in musically illustrative material. Articles accepted for publication will reflect a diversity of critical viewpoints.
