

PROCEEDINGS  
of the  
GLASGOW MATHEMATICAL ASSOCIATION

*Published with the support of the University Court of the University of Glasgow*

CONTENTS

<b>J. P. Earl and J. R. Shackell</b> , Note on the region of overconvergence of Dirichlet series with Ostrowski gaps	169
<b>F. M. Ragab and M. A. Simary</b> , Integrals involving $E$ -functions	174
<b>H. K. Farahat</b> , The semigroup of doubly-stochastic matrices	178
<b>W. D. Munn and N. R. Reilly</b> , Congruences on a bisimple $\omega$ -semigroup	184
<b>C. U. Jensen</b> , A remark on the distributive law for an ideal in a commutative ring	193
<b>A. Geddes and R. G. Walker</b> , The structure of cancellative power-free groups	199
<b>R. G. Walker</b> , Non-cancellative power-free groups	207

EDINBURGH: TWEEDDALE COURT

LONDON: 39A WELBECK STREET, W.1

## PROCEEDINGS OF THE GLASGOW MATHEMATICAL ASSOCIATION

THE present part is the last number to be issued under the above title. From Volume 8, Part 1, the title of the periodical will be changed to the *Glasgow Mathematical Journal*, which will continue to be issued twice yearly, in January and July. The size of each part will be increased from approximately 48 pages to approximately 64 pages and a new Volume, consisting of two parts, will be issued annually.

The prepaid subscription for each Volume is Forty Shillings (U.S.A. \$6.50), post free. Single parts may be supplied at a cost of Twenty Shillings each (U.S.A. \$3.25), net.

Copies may be ordered direct from the publishers or from any bookseller.

### *Information for Contributors*

While the *Glasgow Mathematical Journal* is intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current numbers of the *Journal*, especially with regard to line illustrations, references, tables, and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, place of publication, year of publication, page reference;*

for references to articles in periodicals—*author, title of article, short title of periodical, series no. (if any), volume no., year, pagination.*

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of twenty-five; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.

Manuscripts should be sent to:
