

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

Series A — Pure Mathematics and Statistics

Volume 47 Part 1

AUGUST 1989

E. FRIED and G. GRÄTZER	<i>Pasting infinite lattices</i>	1
B. JEFFERIES and S. OKADA	<i>Archimedes integrals and conuclear spaces . .</i>	22
D. R. STINSON	<i>A new proof of the Doyen-Wilson theorem . .</i>	32
ORTRUD R. OELLERMANN	<i>Major n-connected graphs</i>	43
CHENG CHON HU	<i>Classical groups and generalized simple groups of Lie type</i>	53
K. VÄÄNÄNEN and XU GUANGSHAN	<i>On the arithmetic properties of the values of G- functions</i>	71
C. E. AULL	<i>Some embeddings related to C^*-embeddings: Corrigenda</i>	83
DAVID L. DOWE	<i>On the existence of sequences of co-prime pairs of integers</i>	84
K. F. NG	<i>Positive semigroups of operators on Banach spaces</i>	90
JOHN COSSEY	<i>A construction for Fitting formations II</i>	95
D. J. HANSEN and JIANG LUH	<i>Boolean near-rings and weak commutativity .</i>	103
JUNG-HWAN KWON and HISAO NAKAGAWA	<i>A note on real hypersurfaces of a complex pro- jective space</i>	108
THOMAS W. REILAND	<i>Generalized differentiability for a class of nondif- ferentiable operators with applications to non- smooth optimization</i>	114
JEAN-PIERRE KAHANE	<i>The last problem of Harald Bohr</i>	133
RAVI P. AGARWAL	<i>The method of upper, lower solutions and mono- tone iterative scheme for higher order hyper- bolic partial differential equations</i>	153

Set by the American Mathematical Society

Printed by Cushing-Malloy, Inc., Ann Arbor, Michigan, U.S.A.

THE JOURNAL

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 has appeared in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Information about Series B may be found on the inside back cover.

Series A, Pure Mathematics and Statistics

Submission of research papers in pure mathematics and mathematical statistics is invited. Authors intending to submit papers for publication should prepare the typescript following the instructions below, and should send two complete copies to the Editor, or to an appropriate Associate Editor (see back cover of this issue).

Two volumes of three parts each are planned for 1989. These are Volume 46 and Volume 47. The annual subscription price to non-members is A\$181.00 (US\$146.00) for 1989. Each part in 1989 will have 20% more pages than in 1988.

PREPARATION OF TYPESCRIPTS

1. The author should keep a complete copy of the submitted article; the Society will not accept responsibility for any loss.

2. Each typescript should include (i) an abstract of not more than 150 words, preferably containing no formulae, and certainly containing no complicated formulae and no references, (ii) a 1980 Mathematics subject classification (Amer. Math. Soc.) (1985 Revision), (iii) if the title is long, a shortened form of it, no more than forty characters in length, including spaces.

3. The article should be typed or photocopied on high quality A4 or quarto bond paper, on one side only, with at least double spacing, and with a generous margin (at least 3 cm) all around.

4. The conventions of *A manual for authors of mathematical papers* published by the American Mathematical Society should be observed. Two alternative styles for references and quotations are described below. Authors are requested to use one and only one style consistently throughout their typescript.

STYLE 1. A typical reference in the list of references would be

T. M. Cherry (1965), "Infinite linear systems with homogeneous kernel of degree -1 ", *J. Austral. Math. Soc.* 5, 129–168.

A corresponding reference in the text would be: Cherry (1965), p. 155.

STYLE 2. A typical reference in the list of references would be

[3] L. Grüşchen, "Pseudo-quasi-ergodic theorems", *J. Austral. Math. Soc.* 4 (1960), 2–3.

A corresponding reference in the text would be: Grüşchen [3]; or ([3], [4], [9]); or Grüşchen [2, 3]; or Grüşchen [3, Theorem 1].

In either style, the list of references should be in alphabetical order of surnames of first authors.

5. Explain clearly what symbols are to be set in special typefaces (such as cursive, fraktur, script, bold) and what is required with any unusual symbols (which should wherever possible be chosen from symbols available to the printer).

6. Avoid abbreviations, such as Thm., Prop., Ex., iff, i.e., e.g., \forall , \exists , \Rightarrow , and \Leftrightarrow .

7. Authors should provide diagrams (except for category theory type diagrams), drawn to professional standards.

8. Authors are encouraged to submit their papers in $\text{AMS-}\text{T}_{\text{E}}\text{X}$.

Journal of the Australian Mathematical Society, Series A — Pure Mathematics and Statistics, is published bimonthly by the Australian Mathematical Society, c/-Department of Mathematics, University of Queensland, St. Lucia, Qld. 4067, Australia. Second class postage is paid at Ann Arbor, Michigan 48106. Postmaster: Send address change notices to Dr B. D. Jones, Australian Mathematical Society, c/-Department of Mathematics, University of Queensland, St. Lucia, Qld. 4067, Australia.
