CRADOCK'S STEEL WIRE STRANDS & CABLES FOR RIGGING AIRCRAFT.

(AS THE QUESTION OF SOUND RIGGING IS ONE OF SUCH VITAL IMPORTANCE, THE BEST ONLY SHOULD BE USED.)

Since the Advent of Flying, this Company,—

WHO HAVE MANUFACTURED STEEL WIRE ROPES FOR OVER 60 YEARS,
 have made a special study of this class of work, and have for some years now supplied

SPECIAL FLEXIBLE STRANDS AND CABLES FOR AVIATION
 constructed of 7, 19, 37, 49, 133, and 259 Galvanized or Plated Steel Wires of the greatest tensile strain possible compatible with the requisite ductility and toughness, and ranging from

BREAKING STRAINS of from 375 to 18230 Lbs.

THERE IS NOTHING BETTER OBTAINABLE.

GEO. CRADOCK & Co. Ltd., WAKEFIELD,

The Pioneers

Of the Plywood industry were Venesta Ltd.; they held the premier position then because there were no competitors. Now, in the face of increasing competition from almost every country in the world, they hold it still—indisputably.

VENESTA PLYWOOD

It is in constant demand by the British and Allied Governments, the largest Shipbuilding and Railway Companies, Aeroplane & Motor Car Builders, etc. It is waterproof, unshrinkable, and practically indestructible, and these qualities, together with its smooth, clean surface, make it the finest material in the world for panelling of every description.

UNIVERSAL DRAFTING MACHINES.

When time presses, the Universal Drafting Machine proves its greatest worth. It is a remarkable aid to clearness of thought, accuracy and rapidity of expression. It considerably increases the efficiency of a draftsman owing to its accuracy and easy sensitive motion.

All our draftsmen use them; we could not afford to have our drawings made by the old method.

May we send YOU particulars?

B.S.A. Twist Drill Points

POINT FOUR.
RELIABLE SERVICE.

As a result of the methods and care exercised during manufacture B.S.A. High-Speed Twist Drills possess both strength and durability. Their reliability under all conditions eliminates the possibility of delays, and renders them particularly valuable where important work is being carried out. Where increased efficiency and output are desired B.S.A. Twist Drills will prove of the greatest assistance, as they operate accurately and rapidly. From every point of view, B.S.A. Twist Drills give satisfaction.

“SCEPTRE” supersedes “SUPER”

ANNOUNCEMENT

When we adopted the name of the Super Aviation Co., Ltd., we had no idea it was likely to clash with another Company's name, but it having been suggested some confusion has arisen by reason of the adoption of the word “Super,” and having no desire that this should be the result, we immediately offered to change our name on the matter being brought to our notice.

We therefore publish this announcement to acquaint our many customers that in future this business will be known as THE SCEPTRE AVIATION CO., LTD., and feel sure you will realise that though changed in name—the nature of the organisation remains the same—The Sceptre Aviation Co., Ltd., is as keenly anxious as ever to give you satisfactory service and to preserve your valued good-will.

Beardmore

Aero Engines.

1st PRE-WAR History of Aviation recorded the success of the Beardmore Aero Engine; the winning of the INTERNATIONAL AEROPLANE TRIALS at SALISBURY in CODY'S MACHINE being but one instance of Beardmore Superiority. The Premier Honours gained by the Beardmore during the early days of the war for Height, Speed and Distance have been augmented by brilliant achievements at the Front. And just as the Beardmore was the "FIRST IN WAR, so will it be the FIRST IN PEACE. Watch Beardmore Progress.

SIR JOSEPH JONAS, COLVER & Co., LTD.,

Manufacturers of Steel of every description, including

HIGH GRADE NICKEL STEEL and FORGINGS

for Naval and General Marine Purposes.

Special Heat Treated Alloy and other Steels for Aircraft and Automobile Purposes.

IMPORTANT SPECIALITIES:

S. S. G.

A SPECIAL NICKEL CHROME GEAR STEEL.

FOR AIR OR OIL HARDENING. When treated this steel has exceedingly tough properties and is specially suitable for Gear Wheels, Connecting Rods, etc.

S. G. W.

A NICKEL CHROME STEEL in 4 GRADES.

Eminently suitable and strongly recommended for Gears, Crankshafts, and other highly stressed parts, and having exceptional machining qualities. Combines unusually heavy shock-resisting and wearing properties with silent running.

G. P. S.

A HIGH GRADE ALLOY CASE HARDENING STEEL

for severely strained parts, such as Gear Wheels, Gudgeon Pins, etc.

Continental Steel Works and Novo Steel Works, Sheffield.

For many years Engineers who used leather for clutches and brakes have substituted **FERODO FRICTION SURFACES** which are vastly more efficient.

Over twenty years ago we invented Ferodo Fabrics. Since then, by specialising on the one product, and as a result of practical experience, we have so improved them that they are to-day readily acknowledged to be the finest friction surfaces in the world.

They are entirely unaffected by water, oil or acid, and absorb more foot lbs. of energy per square inch than any other material known. Wood and leather linings char and quickly wear out. Ferodo Fabrics are spark-proof and non-inflammable.

Ferodo Fabrics have the name stamped on each foot. Look for it when ordering your new linings.

"Better be Sure than Sorry"

A TRITE TRIPLEX TRUISM.

Many an air fighter has cause to be thankful for TRIPLEX SAFETY GLASS. Ordinary glass gives clear visibility—but it is fraught with danger. Mica is safe—but blurs the vision and is easily scratched. TRIPLEX SAFETY GLASS combines the advantages of these while eliminating the bad points. That is why on land, in the air, on sea, Triplex is forging to the front—the acknowledged best because it is consistently dependable. Write for the Triplex Catalogue, wherein the Triplex secret is frankly disclosed.

An Airman who has made sure writes:

My aeroplane was set on fire by a German shell at a considerable height, and I think I would have lost my sight and consequently my life if I had not been wearing your Triplex Goggles. As it was, I was able to effect a landing in spite of the flames. The machine was completely destroyed in a very short time.

PLEASE SEND ME ANOTHER PAIR OF GOGGLES. . ."
