

## ERRATA

Page 944, Volume 84:5, second column, last paragraph, second line, 'gastropores rarely more than 15  $\mu\text{m}$  in length occur' should read 'gastropores rarely more than 15 in length occur'. (15 refers to the number of gastropores in a pore row.)

Pages 1029–1032, Volume 84:5, headers, '*J. Mar. Biol. Ass. U.K.* (2003), **83**, 1029–1032' should read '*J. Mar. Biol. Ass. U.K.* (2004), **84**, 1029–1032'; footers, '*Journal of the Marine Biological Association of the United Kingdom (2003)*' should read '*Journal of the Marine Biological Association of the United Kingdom (2004)*'.

**Figure 4.** (Continued). *Pachygrapsus marmoratus*. Monthly size–frequency distributions at Avencas. Non-sexable juveniles and ovigerous females are shown in black. The arrows indicate the first identification of tracked cohorts (1–5).
