

The Democratic Revolution...

...has just begun

We live in an age of democratic revolution. Communism is in retreat. All over the world, people are demanding human rights and free elections. Yet repressive governments remain, and the world's newest democracies face awesome challenges.

Democracy is now the central issue in international affairs. And there is only one publication exclusively devoted to monitoring freedom's progress throughout the globe—the *Journal of Democracy*.

The *Journal of Democracy* gives you a thorough understanding of this new era in global politics. Each quarter we present you with authoritative analyses of democratic developments in key countries—from the Soviet Union to South Africa, from Chile to China, from Nigeria to Nicaragua.

EDITORS

Marc F. Plattner and Larry Diamond

THE JOURNAL OF MODERN AFRICAN STUDIES

The *Journal* offers a quarterly survey of politics, economics, and related topics in contemporary Africa.

The main emphasis is upon the peoples and policies, the problems and progress of this dynamic and disparate continent; upon the many societies that are evolving rather than the essential characteristics of the old; upon the present, not on the more distant past. The best current work is sought from specialists in different academic disciplines, whose contributions can illuminate and cross-fertilise one another.

The *Journal* seeks to promote a deeper understanding of what is happening in Africa today. It is intended for both the political scientist and the practical politician, the administrator and the advocate, the economist and the educator, the banker and the business man, the diplomat and the technocrat, the civil servant and the nationalist leader. All have something to contribute to these pages and, it is hoped, much to learn from them.

Editorial policy avoids commitment to any political viewpoint or ideology, whether imperialism, pan-Africanism, capitalism, socialism, or nationalism. Such concepts, however, have relevance to the modern African situation, and merit serious discussion, often from several different points of view, in order that controversial issues may be fairly examined.
