
Guidelines for Contributors

Scope

International Organization seeks to publish the best and most innovative scholarly manuscripts available on international political and economic relations. A study that does not emphasize any international (or cross-border) phenomenon—for example, as a major cause or effect—falls outside the journal’s domain. Additionally, *IO* features articles that contribute to the improvement of general knowledge or empirical theory defined broadly. Although we may publish a manuscript designed to propose a solution to a current world problem, we prefer to publish those that also apply theoretical ideas and findings or address general questions debated in scholarly publications.

The editorial team sends submissions, except letters to the editor, to expert reviewers for recommendations and comments before making a decision to publish. Approximately 5 percent of manuscripts submitted to *IO* are ultimately published in the journal, while approximately 20 percent are judged by the editors as not ready or appropriate for external review. The standards of *IO*’s reviewers are high. Before submitting their work, new authors and graduate students are therefore strongly encouraged to seek advice and detailed comments from faculty and qualified advisers familiar with the journal.

Originality

IO does not evaluate works already published elsewhere or currently under review by another publisher. According to our guidelines, a manuscript is not original enough if as much as half of the ideas or evidence has been published elsewhere. If a question of overlap arises, at the time of submission please send a copy of the earlier work and ask the *IO* editors for a determination. As a partial exception, a study that is promised to a future edited volume can normally be published by *IO*, if the volume will appear at least six months after the article’s publication in *IO* and the author has arranged for the *IO* editors’ agreement at the time of submission.

Length

IO will not review a manuscript containing more than 14,000 words, including notes and references. Please provide a word count, which most word processors will compute. *IO* also publishes occasional review essays, research notes, letters, and dissents directed at previous articles. Dissents should be no longer than 5,000 words; research notes no longer than 8,000 words. Authors are asked to submit a word count with their manuscript.

Procedure

Authors wishing to submit manuscripts to *IO* should go to <http://io.edmgr.com>. This Web site will guide authors through the submission procedure. Please direct any questions to the managing editor at international.organization@utoronto.ca

Manuscript Preparation

1. Omit self-references. Your identity should not be revealed explicitly or implicitly on any page of the manuscript; for example, showing five of your writings in the reference list will be a potent clue to most reviewers. We recommend citing these sources simply as “author” in the footnotes and omitting them from the reference list. If fuller information might bear significantly on the manuscript’s acceptability, mention such information in separate comments to the editors.
2. Change parenthetical references to short reference footnotes.
3. Double-space the text, allow margins of at least one inch on all sides, and use a font no smaller than twelve points.
4. Place each table and figure on a separate page. You may include figures and tables as part of the main manuscript, or in separate files.
5. Number the pages consecutively.
6. Submit an abstract and acknowledgments separately from the manuscript. Do not include any identifying information in the abstract.

If your manuscript is accepted for publication, we will provide further guidance regarding how to prepare it for copyediting.

Diction

Offer your readers vigorous, concise prose in the active voice. Choose vivid verbs and expressions that clearly communicate your meaning. Avoid using academic, “insider” jargon that does not appear in *Webster’s Collegiate Dictionary*, 11th Edi-

tion. Use the full name of a person, organization, program, or agency when mentioning it for the first time in your manuscript, and provide titles and explanatory phrases when appropriate. To enhance accessibility, avoid overusing abbreviations, initialisms, and acronyms. Use gender-neutral language whenever possible. Double-check the spelling of non-English words, and include special characters such as accents and umlauts.

Economy

Weak and extraneous prose detract from the strength of your argument. Scrutinize your draft for potential deletions, such as expressions, sentences, and paragraphs whose absence would not harm the argument or would help it to stand out more prominently. Prime candidates are complex constructions where simpler phrasing would do, distractions from the main line of argument, and excessive repetition. Rare is the manuscript that cannot be improved with tightening. The following classics offer much concrete advice: *On Writing Well* by William Zinsser, *The Elements of Style* by William Strunk and E. B. White, and *The Careful Writer* by Theodore M. Bernstein.

Citing Sources

The reference list should contain the complete facts of publication or availability for each source cited, using the formats shown in the following examples. Include only those sources specifically cited in the text. Provide first names, rather than initials, of authors when available. For article and book titles, use the “up” style of capitalization and do not use quotation marks. In the reference list, show sources in alphabetical order by the first author’s surname; list multiple works by the same author in chronological order with earliest dates first. In the manuscript’s body cite sources in footnotes using an abbreviated author/date form (for example, Beck 2000) that refers to a corresponding entry in the reference list. Add specific page numbers in the footnote when quoting from or referring to a particular passage. The footnote may include a *brief* comment that helps the reader understand the source’s value or viewpoint. Please use the following formats:

BOOK: Checkel, Jeffrey. 1997. *Ideas and International Political Change: Soviet/Russian Behavior and the End of the Cold War*. New Haven, Conn.: Yale University Press. FOOTNOTE: Checkel 1997, 52.

EDITED COLLECTION: Ries, Christine, and Richard J. Sweeney, eds. Forthcoming. *Capital Controls in Emerging Market Economies*. Boulder, Colo.: Westview Press. FOOTNOTE: Ries and Sweeney forthcoming.

CHAPTER IN MULTIAUTHOR COLLECTION: Please note that *IO* style includes the title of the collection, the editor(s) full names, and the page range for the chapter cited; the footnote may contain the specific pages cited: Grieco, Joseph. 1993. Anarchy and the Limits of Cooperation. In *Neorealism and New Liberalism: The Contemporary Debate*, edited by David Baldwin, 116–42. New York: Columbia University Press. FOOTNOTE: Grieco 1993, 119.

JOURNAL ARTICLE: Note that *IO* style includes the issue number: Risse, Thomas. 2000. ‘Let’s Argue!’: Communicative Action in World Politics. *International Organization* 54 (1):1–39. FOOTNOTE: Risse 2000, 342–43.

WORKING PAPER: Elliot, Jean K. 1994. Why the European Community Strengthens the State. Working Paper 52. Cambridge, Mass.: Center for European Studies, Harvard University.

PAPER PRESENTED AT A MEETING: Note that *IO* style includes an ordinal number for meeting year: Kilroy, Bernadette. 1995. Member-State Control of Judicial Independence. Paper presented at the 97th Annual Meeting of the American Political Science Association, August, San Diego, Calif.

GOVERNMENT DOCUMENT: U.S. Senate. 1984. Committee on Foreign Relations. *Chemical Warfare: Arms Control and Nonproliferation. Joint Hearings Before the Committee on Foreign Relations and the Subcommittee on Energy, Nuclear Proliferation, and Government Processes*. 98th Cong., 2d sess., 28 June. FOOTNOTE: U.S. Senate 1984.

NEWSPAPER OR MAGAZINE ARTICLE: No entry in the reference list is needed; instead, include relevant information in a footnote: *Los Angeles Times*, 4 April 2002, A1. Article titles and authors are omitted except when including them would enhance understanding of points made in the text or the source.

PUBLICATION DISTRIBUTED ELECTRONICALLY: In addition to the usual information, please list the service name, the name of the vendor or Web site providing the service, the URL if material was accessed on the Internet, date material was accessed, and any identifying numbers. Fischer, Joschka. 1998a. Rede aus Anlass der Übernahme der Amtsgeschäfte, Bonn (28 October). Available from http://www.auswaertiges-amt.de/6_archiv/2/r/R981028b.htm. Accessed 15 December 1998. FOOTNOTE: Fischer 1998a.

UNPUBLISHED INTERVIEW: No entry in the reference list is needed; instead, include relevant information in a footnote: Author’s interview with James Murphy, Washington, D.C., July 1990. If the interviewee was promised anonymity, describe the informant as precisely as possible—for example, as a member of a category of individuals—without identifying the person.

UNPUBLISHED MANUSCRIPT: Mastanduno, Michael. 1996. Security Engagement and Economic Competition: Realism and U.S. Strategy After the Cold War. Unpublished manuscript, Dartmouth College, Hanover, N.H.

PH.D. DISSERTATION: Halimi, Serge. 1990. *Sisyphus Is Tired: The French Left and the Exercise of Power, 1924–86*. Ph.D. diss., University of California, Berkeley.

For questions of style not answered here, please refer to *The Chicago Manual of Style*, 14th ed. (Chicago: University of Chicago Press, 1993), or contact the editorial office of *IO*.

Data Sets

IO does not require preparation or archiving of replication data sets for data used in its published articles, although we strongly encourage authors to do so, especially if their data are not already available. Replication data sets include all information (such as computer program options, recoding procedures, and other steps taken in the analysis) and data necessary to replicate, or build on, your published article.

IO is not responsible for archiving data sets or maintaining Web sites where such data may be archived. You may archive your data sets with the Publication-Related Archive of the Inter-University Consortium for Political and Social Research (ICPSR) or make them available on your Web sites. If your data are available through ICPSR, mention this either in your acknowledgments or in a separate note, and provide the details in the reference list; this applies as well to data sets archived elsewhere. For other archives, please provide appropriate information (especially the URL). We will not report your data as being archived unless this can be verified on the Web site or in information provided by the archive.

Securing the Peace

The Durable Settlement of Civil Wars

Monica Duffy Toft

Timely and pathbreaking, *Securing the Peace* is the first book to explore the complete spectrum of civil war terminations, including negotiated settlements, military victories by governments and rebels, and stalemates and ceasefires. Examining the outcomes of all civil war terminations since 1940, Monica Toft develops a general theory of postwar stability, showing how third-party guarantees may not be the best option. She demonstrates that thorough security-sector reform plays a critical role in establishing peace over the long term.

Capital Ideas

The IMF and the Rise of Financial Liberalization

Jeffrey M. Chwieroth

The right of governments to employ capital controls has always been the official orthodoxy of the International Monetary Fund, and the organization's formal rules providing this right have not changed significantly since the IMF was founded in 1945. But informally, among the staff inside the IMF, these controls became heresy in the 1980s and 1990s, prompting critics to accuse the IMF of indiscriminately encouraging the liberalization of controls and precipitating a wave of financial crises in emerging markets in the late 1990s. In *Capital Ideas*, Jeffrey Chwieroth explores the inner workings of the IMF to understand how its staff's thinking about capital controls changed so radically.
