Invasive Plant Science and Management

Published quarterly by the Weed Science Society of America

Antonio DiTommaso, *Editor*

The Weed Science Society of America (WSSA) publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports.

Associate Editors (Assignment Year)

Edith B. Allen, Botany & Plant Sciences Department, University of California, Riverside, CA 92521 (2008)
Jacob N. Barney, Department of Plant Pathology, Physiology, & Weed Science, Virginia Tech, Blacksburg, VA 24061 (2012)
John Cardina, Department of Horticulture & Crop Science, Ohio State University, Wooster, OH 44691 (2008)
Stephen F. Enloe, Center for Aquatic and Invasive Plants, University of Florida, Gainesville, FL 32653 (2010)
Songlin Fei, Department of Forestry and Natural Resources, Purdue University, West Lafayette, IN 47907 (2015)
Guillaume Fried, Plant Health Laboratory, Anses, 34988 Montferrier-sur-Lez, France (2017)
Catherine S. Jarnevich, US Geological Survey, Fort Collins, CO 80526 (2015)
Marie Jasieniuk, University of California, Davis CA 95616 (2017)
Darren J. Kriticos, CSIRO, Canberra, ACT 2601, Australia (2010)
James K. Leary, Department of Natural Resources and Environmental Management, University of Hawaii at Manoa, Honolulu, HI 96822 (2014)
Kelly G. Lyons, Department of Biology, Trinity University, San Antonio, TX 78212 (2008)
Jane M. Mangold, Department of Land Resources and Environmental Sciences, Montana State University, Bozeman, MT 59717 (2014)
John A. Randall, The Nature Conservancy, University of California, Davis, CA 95616 (2008)
Rob J. Richardson, Department of Crop Science, North Carolina State University, Raleigh, NC 27695 (2014)
Steve S. Seefeldt, UAF Cooperative Extension Service Tanana District, Fairbanks, AK 99775 (2014)
Ryan M. Wersal, Lonza Specialty Ingredients, Alpharetta, GA 30004 (2014)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

Kevin Bradley, *President*

Janis McFarland, *President-Elect*

Scott Senseman, *Vice President*

Dallas Peterson, *Past President*

Hilary Sandler, *Secretary*

Rick Boydston, *Treasurer*

Sarah Ward, *Director of Publications*

Mark Bernards, *Chair, Constitution and Operating Procedures*

Invasive Plant Science and Management (ISSN 1939-7291) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It is published quarterly, one volume per year, four issues per year beginning in March.

Membership includes receipt of *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Invasive Plant Science and Management* subscription page at <https://www.cambridge.org/core/journals/invasive-plant-science-and-management/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Invasive Plant Science and Management publishes four times a year in March, June, September, and December. Annual institutional electronic subscription rates: US \$384.00; UK £267.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ipsm>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Invasive Plant Science and Management* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

INVASIVE PLANT SCIENCE AND MANAGEMENT

Table of Contents

Research and Education

- Invasion Shadows: The Accumulation and Loss of Ecological Impacts from an Invasive Plant. Daniel R. Tekiela and Jacob N. Barney 1
- Kentucky Bluegrass Invasion Alters Soil Carbon and Vegetation Structure on Northern Mixed-Grass Prairie of the United States. Matt A. Sanderson, Holly Johnson, Mark A. Liebigh, John R. Hendrickson, and Sara E. Duke 9
- Competition and propagule density affect sexual and clonal propagation of a weed. Daniel Z. Atwater, Wonjae Kim, Daniel R. Tekiela, and Jacob N. Barney 17

Invasion Alert

- Expansion of Feral Cereal Rye (*Secale cereale* L.) on Non-crop Hillsides in Northern Utah. Kyle C. Roerig and Corey V. Ransom 26

Case Study

- Point Mapping Integrates Data Collection and Weed Control Operations. Craig C. Young, Jordan C. Bell, Chad S. Gross, Lloyd W. Morrison, and Jennifer L. Haack-Gaynor. 33

Research and Education

- Differential Aggressiveness of *Bipolaris microstegii* and *B. drechsleri* on Japanese Stiltgrass. William L. Bruckart III, Farivar M. Eskandari, Jami L. Michael, and Emily L. Smallwood 44
- Exploring the Origin and Genetic Diversity of the Giant Reed, *Arundo donax* in South Africa. Kim Canavan, Iain D. Paterson, and Martin P. Hill 53
- The Expansion Route of Ryegrasses (*Lolium* spp.) into Sandy Coasts in Japan. Yumiko Higuchi, Yoshiko Shimono, and Tohru Tominaga 61
- Conventional and Organic Options for the Control of Woolly Distaff Thistle (*Carthamus lanatus*). Joseph M. DiTomaso, Guy B. Kyser, David J. Lewis, and John A. Roncoroni. 72
- Controlling Kentucky Bluegrass with Herbicide and Burning Is Influenced by Invasion Level. Corie B. Ereth, John R. Hendrickson, Donald Kirby, E. Shawn DeKeyser, Kevin K. Sedivec, and Mark S. West. 80
- Native Forb Establishment following Application of Aminopyralid or Clopyralid. Niels A. Jorgensen, Mike J. Moechnig, Mary B. Halstvedt, and Mark J. Renz. 90
- Preemergence Control of Nine Invasive Weeds with Aminocyclopyrachlor, Aminopyralid, and Indaziflam. Derek J. Sebastian, Scott J. Nissen, James R. Sebastian, Paul J. Meiman, and K. George Beck 99
- Native Grass Establishment following Application of Pyridine Herbicides. Rodney G. Lym, Roger L. Becker, Michael J. Moechnig, Mary B. Halstvedt, and Vanelle F. Peterson 110
