## UNIVERSITY OF PENNSYLVANIA MEDICAL CENTER

### Functional Endoscopic Sinus Surgery

**Dissection Course  
July 9 - 11, 1992**

**Course Directors:**

**David W. Kennedy, M.D.**

**Donald C. Lanza, M.D.**

**Heinz Stammberger, M.D.**

**S. James Zinreich, M.D.**

**The course will be a full 3-day laboratory course including:**

- **Formal lectures**
- **Video presentations**
- **Informal discussion**
- **Hands-on laboratory experience**

**Fees: Lecture and laboratory series \$1450  
Lecture and video only \$500 (Residents \$250)**

**For more information, contact:**

**Gwen Mallard-Winter, M.A.**

**University of Pennsylvania**

**CME, NEB-133R,**

**Phila., PA. USA 19104-6020**

**Office (215) 898-8005**

**Fax (215) 898-1888**

*The University of Pennsylvania reserves the right to cancel this course.*

#### CHINNAMMAL ENT MEDICAL EDUCATION AND RESEARCH FOUNDATION

No. 827, Poonamallee High Road, Kilpauk, Madras—600 010. India.

Offers:

- 1) Temporal Bone Dissection Course from 23rd to 26th February 1992.
- 2) Endoscopic Sinus Surgery Course from 7th to 9th January 1993 (dates to be confirmed). Faculty members Dr Nikhil J. Bhatt of USA and Dr Kaluskar of Ireland.
- 3) Temporal Bone Dissection and Advanced Micro Ear Surgery Demonstration Course from 24th to 27th February 1993.
- 4) Temporal Bone Dissection competition: For best dissected Temporal Bone—1st prize Gold Medal.
- 5) Video cassettes of various ENT Operations are available at cost price.

For details contact: Dr K. K. Ramalingam.

- 1) Inauguration of INDIAN SOCIETY OF OTOTOLOGY and First Annual Conference on 7th and 8th November 1992 at Madras.
- 2) Ear Surgery Demonstration Course by Dr John J. Shea of Memphis, Tennessee, USA on 9th and 10th November 1992 at Madras.

For details contact: Dr K. K. Ramalingam, Secretary, Indian Society of Otolaryngology, 827 Poonamallee High Road, Madras—600 010 India.

## THE THIRD INTERNATIONAL SYMPOSIUM ON COCHLEAR MECHANISMS AND OTOACOUSTIC EMISSIONS

ROME, ITALY

4TH–6TH DECEMBER 1992

A distinguished faculty, including several invited speakers, will give lectures on a wide variety of topics on otoacoustic emissions and recent advances in cochlear physiology. Papers on all subjects pertaining to acoustic emissions and physiological acoustics are invited. Clinical papers, if relevant to the symposium's topic areas, are also encouraged.

Abstracts (max 400 words) should be sent by July 10, 1992 to Dr F. Grandori, Centre of Systems Theory (CNR), Department of Biomedical Engineering, Polytechnic of Milan, via Ponzio 34/5, I-20133 Milano, Italy (telephone and fax: +39-2-2399.3561, or fax +39-2-2399.3412).

A selection of the papers is planned to be published in a volume to be edited by the scientific committee (F. Grandori, G. Cianfrone and D. T. Kemp), as for the preceding symposia of the Series (see *Scandinavian Audiology*, Suppl. 25, 1986, and *Advances in Audiology*, vol. 7, 1990, Karger, for the 1st and the 2nd Symposium, respectively). Invitations for publication will be sent together with acceptance of abstracts.

An exhibition is planned in conjunction with the Symposium. For any further information contact also the Organizing Secretariat (CRS—Centro Ricerche e Studi Amplifon, via Ripamonti 129, I-20141 Milano, Italy, tel. +39-2-5359361; fax +39-2-57400384).

## ANNOUNCEMENT INTERNATIONAL CONFERENCE

Advances in Otology

Emeritus Conference in honour of Professor Michel Portmann

BORDEAUX, 3–5 December 1992

This Conference is organized by the University of Bordeaux II, the Regional Hospital Centre, the INSERM and the Association of Alumni of the ENT School of Bordeaux (Institute Georges Portmann).

Themes: I — The hair cells and their control: physiological bases and clinical implications.

II — Advances in surgery of deafness.

III — Advances in surgery of the skullbase.

IV — Advances in Speech and Hearing.

Each theme will be organized with invited lectures, round tables and free communications.

Invited speakers:

I — Rémy Pujol (Montpellier), Jan Wersäll (Stockholm).

II — Pierre Roulleau (Paris), Dietrich Plester (Tübingen)

III — Jean-Marc Sterkers (Paris), Antonio de la Cruz (Los Angeles).

IV — Alain Morgon (Lyon), Ronald Hinchliffe (London).

Information and registration at the Scientific Secretariat:

Jean-Marie Aran,  
Laboratoire d'Audiologie Expérimentale,  
Hôpital Pellegrin,  
33076 Bordeaux,  
Tél: 56 24 20 47, Fax: 56 96 29 84

**GLASGOW TEMPORAL BONE COURSES:**

*39th Course—25, 26, 27 March, 1992*

*40th Course—7, 8, 9 October, 1992*

**GLASGOW ROYAL INFIRMARY**

Tutors: Mr Andrew Baxter, F.R.C.S., Prof. George G. Browning, M.D., F.R.C.S.,  
Mr Alastair M. Pettigrew, F.R.C.S.

The courses are primarily designed for otologists in training but they will be of interest to more experienced surgeons. Tutorials on otological techniques and results together with histopathology of the temporal bone will complement the main component of the course which is supervised dissection of the temporal bone.

The courses are approved for training in the U.K.

Further details from:

Mr Alastair M. Pettigrew, F.R.C.S.,  
Stirling Royal Infirmary,  
Stirling FK8 2AU  
United Kingdom.

Tel. 0786 73151 (Ext. 78 401)

Fax. 0786 50716.

**DEPARTMENT OF OTOLARYNGOLOGY, EDINBURGH****A REVISION COURSE IN OTOLARYNGOLOGY**

will be held in the City Hospital, Edinburgh, from Monday 28 September to Friday 2 October 1991 inclusive

The Course, which is intended for those preparing for postgraduate examinations, will cover all aspects of modern otolaryngological theory and practice

Lectures will be given by senior members of staff of the department

Further particulars and application forms from:

Mrs A J Pryde  
Unit Secretary  
Department of Otolaryngology  
City Hospital  
Grenbank Drive  
Edinburgh EH10 5SB

Course fee: £250.00

Course organiser: Dr A I G Kerr

# Instructions to Authors

**Review Articles.** Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

**Historical Articles.** Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

**Letters to the Editor.** This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

**Pathology.** Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

**Radiology.** Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

**Short Communications.** This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

## Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.  
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. *Two* sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
