WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Nathan Boyd, University of Florida, Wimauma, FL 33598 (2021)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Erin Haramoto, University of Kentucky, Lexington, KY 40506 (2020)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Vipan Kumar, Kansas State University, Hays, KS 67601 (2020)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Debalin Sarangi, University of Wyoming, Powell, WY 82435 (2020)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$443.00; UK £308.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 69 Number 6 November 2021

REVIEW

- History of knotweed (*Fallopia* spp.) invasiveness. *Dallas Drazan, Alan G. Smith, Neil O. Anderson, Roger Becker and Matthew Clark*..... 617

RESEARCH ARTICLES

- Absorption and translocation of florypyrauxifen-benzyl in ten aquatic plant species. *Erika J. Haug, Khalied A. Ahmed, Travis W. Gannon and Rob J. Richardson*..... 624
- Biologically effective dose of metribuzin applied preemergence and postemergence for the control of waterhemp (*Amaranthus tuberculatus*) with different mechanisms of resistance to photosystem II-inhibiting herbicides. *David B. Westerveld, Nader Soltani, David C. Hooker, Darren E. Robinson, Patrick J. Tranel, Martin Laforest and Peter H. Sikkema*..... 631
- Inheritance of evolved thiocarbamate resistance in rigid ryegrass (*Lolium rigidum*) populations from Australia. *David J. Brunton, Peter Boutsalis, Gurjeet Gill and Christopher Preston*..... 642
- Identification of a paraquat-resistant goosegrass (*Eleusine indica*) population from a central Alabama vegetable production field. *J. Scott McElroy, James R. Harris, Andrew Price, Alex Harkess and Xiao Li*..... 648
- Seed rain potential in late-season weed escapes can be estimated using remote sensing. *Matthew Kutugata, Chengsong Hu, Bishwa Sapkota and Muthukumar Bagavathiannan*..... 653
- Changes in the germinability of seeds of dicotyledonous herbs from anthropogenic and wild habitats during two initial years in a seedbank. *Zdenka Martinková, Alois Honěk and Marek Brabec*..... 660
- Differential germination response of *Navua* sedge (*Cyperus aromaticus*) populations to environmental factors. *Bhagirath S. Chauhan*..... 673
- Seed germination biology of sweet acacia (*Vachellia farnesiana*) and response of its seedlings to herbicides. *Bhagirath S. Chauhan, Shane Campbell and Victor J. Galea*..... 681
- Seed germination ecology of Sumatran fleabane (*Conyza sumatrensis*) in relations to various environmental parameters. *Gulshan Mahajan, Ashneel Prasad and Bhagirath Singh Chauhan*..... 687
- Germination response of black nightshade (*Solanum nigrum*) to temperature and the establishment of a thermal time model. *Ziqing Ma, Hongjuan Huang, Zhaofeng Huang, Dongjing Guo, Muhammad Saeed, Cuilan Jiang, Zhaoxia Chen and Shouhui Wei*..... 695
- Screening glyphosate-alternative weed control options in important perennial crops. *Panagiotis Kanatas, Nikolaos Antonopoulos, Ioannis Gazoulis and Ilias S. Travlos*..... 704
- A survey evaluating the spatial and temporal distribution of horseweed (*Conyza canadensis*) late season in Ohio soybean fields from 2013 to 2017. *Alyssa I. Essman, Mark M. Loux, Alexander J. Lindsey, Bruce A. Ackley and Emilie E. Regnier*..... 719

CORRIGENDUM

- Seed germination ecology of Sumatran fleabane (*Conyza sumatrensis*) in relations to various environmental parameters – CORRIGENDUM. *Gulshan Mahajan, Ashneel Prasad and Bhagirath Singh Chauhan*..... 729
