# Australasian Journal of Special Education

The Australian Association of Special Education (AASE) aims to enhance access for students with special education needs to quality educational programs, promote professional standards of a high order and to support research that informs the delivery of special education in the Australian context.

To further these aims, *The Australasian Journal of Special Education* publishes articles for a readership professionally engaged or interested in the education of students with special needs or the education of those who will work with these students.

The Editor seeks articles in line with the theme of the journal — the delivery of educational programs to persons with special education needs: case studies, position papers, research reports, review papers and descriptions of research-based programs or classroom practices. Articles may be original qualitative or quantitative research papers, literature reviews, or conceptual articles relevant to any aspect of special education practice and policy.
