Journal of the International Phonetic Association

Published for the International Phonetic Association

Editor

Amalia Arvaniti, *University of Kent, UK*

The *Journal of the International Phonetic Association (JIPA)* is a forum for work in the fields of phonetic theory and description. As well as including papers on laboratory phonetics/phonology and related topics, the journal encourages submissions on practical applications of phonetics to areas such as phonetics teaching and speech therapy, as well as the analysis of speech phenomena in relation to computer speech processing. It is especially concerned with the theory behind the International Phonetic Alphabet and discussions of the use of symbols for illustrating the phonetic structures of a wide variety of languages. *JIPA* now publishes online audio files to supplement written articles.

Kersti Börjars, *University of Manchester, UK*

S.J. Hannahs, *Newcastle University, UK*

Associate Editors

Robert D. Borsley, *University of Essex, UK*

Journal of Linguistics has as its goal to publish articles that make a clear contribution to current debate in all branches of theoretical linguistics. The journal also provides an excellent survey of recent linguistics publications, with around thirty book reviews in each volume and regular review articles on major works marking important theoretical advances.

'For the two decades that I've been a faithful reader of the *Journal of Linguistics*, I have been impressed by the consistent quality, breadth, and liveliness of its articles and reviews. *JL* neither specializes in one branch of linguistic theory to the neglect of others nor presents a single theoretical face to the world.'
