**Marjukka Mäkelä, M.D., Ph.D., M.Sc.**

Research Professor, FINOHTA (Finnish Office for Health Technology Assessment)  
at THL (National Institute for Health and Welfare)  
P.O. Box 30  
00271 Helsinki, Finland  
Telephone: +358 20 610 7290; Fax: +358 20 610 7278  
Email: marjukka.makela@thl.fi

**Aims and Scope:** The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

**Publishing, Advertising, and Subscription Offices:** Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK (for U.K. and elsewhere).

**2011 Subscription Information:** *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published quarterly in January, April, July, and October by Cambridge

University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 27 (2011): Print and online US \$552.00, online only US \$462.00, and print only US \$500.00 in the U.S.A., Canada, and Mexico; Print and online UK £306.00, online only UK £260.00, and print only UK £278.00 elsewhere. Individual rates: Print and online US \$263.00 and print only US \$239.00 in the U.S.A., Canada, and Mexico; Print and online UK £153.00 and print only UK £132.00 elsewhere. Prices include postage; air mail or registered mail is extra. Single part: US \$137.00 in the U.S.A., Canada, and Mexico; UK £79.00 elsewhere. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

## CONTENTS

### EDITORIAL

- 191 Gender issues: Do as I say, not as I do?  
*Tammy J. Clifford*

### ASSESSMENTS

- 193 Cost-effectiveness of etanercept treatment in early active rheumatoid arthritis followed by dose adjustment  
*Gisela Kobelt, Ingrid Lekander, Andrea Lang, Bernd Raffener, Costantino Botsios, and Pierre Geborek*
- 201 How to truly value implantable cardioverter-defibrillators technology: Up-front cost or daily cost?  
*Mauro Biffi, Matteo Ziacchi, Matteo Bertini, Beatrice Gardini, Andrea Mazzotti, Giulia Massaro, Cristian Martignani, Igor Diemberger, Giuseppe Boriani, and Daniela Corsini*
- 207 Estimating changes in overall survival using progression-free survival in metastatic breast and colorectal cancer  
*Russell J. Bowater, Philippa E. Lilford, and Richard J. Lilford*
- 215 Methylphenidate delivery mechanisms for the treatment of children with attention deficit hyperactivity disorder: Heterogeneity in parent preferences  
*Andrew Lloyd, Paul Hodgkins, Sarah Dewilde, Rahul Sasané, Shona Falconer, and Edmund Sonuga-Barke*

### METHODS

- 224 Gender in health technology assessment: Pilot study on agency approaches  
*Dimitra Panteli, Annette Zentner, Philipp Storz-Pfennig, and Reinhard Busse*
- 230 Tackling ethical issues in health technology assessment: A proposed framework  
*Amanda Burls, Lorraine Caron, Ghislaine Cleret de Langavant, Wybo Dondorp, Christa Harstall, Ela Pathak-Sen, and Bjørn Hofmann*
- 238 Multi-source synthesis of data to inform health policy  
*Vibe Hjelholt Pedersen, Pierre Dagenais, and Pascale Lehoux*
- 247 Identification of research gaps from evidence-based guidelines: A pilot study in cystic fibrosis  
*Karen A. Robinson, Ian J. Saldanha, and Naomi A. McKoy*

### POLICIES

- 253 Interactions between health technology assessment, coverage, and regulatory processes: Emerging issues, goals, and opportunities  
*Chris Henshall, Logan Mardhani-Bayne, Katrine B. Frønsdal, and Marianne Klemp, On behalf of the HTAi Policy Forum*
- 261 Differences among formulary submission guidelines: Implications for health technology assessment  
*Josephine Mauskopf, Jeffrey Walter, Julie Birt, Lee Bowman, Catherine Copley-Merriman, and Michael Drummond*

### CORRIGENDUM

- 271 An economic analysis of continuous positive airway pressure for the treatment of obstructive sleep apnea-hypopnea syndrome—Corrigendum  
*Helen L. A. Weatherly, Susan C. Griffin, Catriona Mc Daid, Kate H. Durée, Robert J. O. Davies, John R. Stradling, Marie E. Westwood, and Mark J. Sculpher*
