Sporicidin® brand
Disinfectant Spray

Disinfect Scopes Safely and Completely in just 10 Minutes

COURTESY OF OLYMPUS AND ACMI

Recommended by All Major Scope Manufacturers

Sporicidin is a "tamed" glutaraldehyde that does not yellow or irritate skin or mucous membranes.

Sporicidin is safe for delicate instruments and it will not cloud lenses or clog air/water channels.

Sporicidin (1:16) is tuberculocidal, bactericidal, fungicidal & virucidal (including Herpes I & II, Influenza A₂ and Polio I).

Proof Comes from 15 Years of Research and Clinical Use

"In 5000 procedures the cystoscopes were used directly from the Sporicidin soak; there were no known incidents of iatrogenic infection or post-operative irritation. Sporicidin is safe and effective in 10 minutes."

Urology, Vol. 23, No. 2, 1984

"After 3 years and 4001 procedures (laparoscopy, cystoscopy and colonoscopy), we observed (1) no post-operative tissue irritation or infection (2) no lens clouding or endoscope damage (3) preferred by our staff."

Journal Of The Operating Room Research Institute, Vol. 3, No. 8, 1983

"Sporicidin... was both more stable and more active against test spores than... Cidex and Cidex-7."

Infection Control, Vol. 1, No. 2, 1980

Sporicidin®

COLD STERILIZING SOLUTION

An exclusive glutaraldehyde formula

These and other studies available upon request.

monoject

THE MONOJECT SYSTEM OF SAFETY

You can virtually eliminate the danger of contracting A.I.D.S., hepatitis and other infectious diseases from accidental sticks by contaminated needles. Call the Critical Care Hotline 1-800-527-1806 (1-800-392-5859 in Missouri) for complete details or demonstration. Or write Monoject Safety System, Sherwood Medical, 1831 Olive, St. Louis, MO 63103.
