## Editorial Board

### *Atypical Neurodevelopment*

Simon Baron-Cohen/Cambridge U.

### *Behavioral Neurogenetics*

Wim E. Crusio/CNRS UMR

### *Cognition and Artificial Intelligence*

Zenon Pylyshyn/Rutgers U.

### *Cognitive and Decision Sciences*

Nick Chater/University College London

### *Cognitive Development*

Annette Karmiloff-Smith/Birbeck College

### *Cognitive Neuroscience*

Moshe Bar/Harvard Medical School

### *Computational Neuroscience*

Nestor A. Schmajuk/Duke U.

### *Evolution of Brain and Cognition*

Dean Falk/Florida State U.

### *Evolution of Cognition*

Celia Heyes/Oxford U.

### *Experimental Analysis of Behavior*

A. Charles Catania/U. Maryland, Baltimore County

### *Language and Language Disorders*

Max Coltheart/Macquarie U.

### *Linguistics*

Robert A. Freidin/Princeton U.

### *Perception*

Bruce Bridgeman/U. of California, Santa Cruz

### *Philosophy of Science*

Massimo Piattelli-Palmarini/U. of Arizona

### *Primate Cognition*

Laurie R. Santos/Yale U.

### *Social Cognition*

Mahzarin R. Banaji/Harvard U.

### *Social Cognitive Neuroscience*

Rebecca Saxe/MIT

### *Vision, Language and Computation*

Shimon Edelman/Cornell U.

## FOUNDING EDITOR (1978–2001)

Stevan Harnad

**Editorial Policy** *Behavioral and Brain Sciences (BBS)* is an international journal providing a special service called Open Peer Commentary\* to researchers in any area of psychology, neuroscience, behavioral biology, or cognitive science who wish to solicit, from fellow specialists within and across these *BBS* disciplines, multiple responses to a particularly significant and controversial piece of work. (See Instructions for Authors and Commentators, inside back cover and also at [http://www.editorialmanager.com/bbs/account/BBS\\_ifc.pdf](http://www.editorialmanager.com/bbs/account/BBS_ifc.pdf)) The purpose of this service is to contribute to the communication, criticism, stimulation, and particularly the unification of research in the behavioral and brain sciences, from molecular neurobiology to artificial intelligence and the philosophy of mind.

Papers judged by the editors and referees to be appropriate for Commentary are circulated to a large number of commentators selected by the editors, referees, and author to provide substantive criticism, interpretation, elaboration, and pertinent complementary and supplementary material from a full cross-disciplinary perspective. The article, accepted commentaries, and the author's response then appear simultaneously in *BBS*.

Commentary on *BBS* articles may be provided by any qualified professional in the behavioral and brain sciences, but much of it is drawn from a large body of *BBS* Associates who have become formally affiliated with the project (see <http://journals.cambridge.org/BBSJournal/BBSAssociates>).

Qualified professionals are eligible to become *BBS* Associates if they have (1) been nominated by a current *BBS* Associate, (2) refereed for *BBS*, or (3) had a commentary or article accepted for publication. A special subscription rate is available to Associates. Individuals interested in serving as *BBS* Associates are asked to view the full instructions for joining at [http://www.editorialmanager.com/bbs/account/BBS\\_ifc.pdf](http://www.editorialmanager.com/bbs/account/BBS_ifc.pdf). and then email [bbsjournal@cambridge.org](mailto:bbsjournal@cambridge.org).

Permission to copy (for users in the U.S.A.) is available from Copyright Clearance Center, <http://www.copyright.com>, email: [info@copyright.com](mailto:info@copyright.com). Specific written permission must be obtained for republication; contact the nearest Cambridge University Press office.

**Subscriptions** *Behavioral and Brain Sciences* (ISSN 0140-525X) is published bimonthly in February, April, June, August, October, and December. The subscription price of Volume 32 (2009) for institutions is US \$1020.00 for print and online, US \$860.00 for online only, and US \$920.00 for print only in the U.S.A., Canada, and Mexico; and UK £580.00 for print and online, UK £490.00 for online only, and UK £530.00 for print only elsewhere. The subscription price for individuals is US \$290.00 for print and online and US \$265.00 for print only in the U.S.A., Canada, and Mexico; and UK £170.00 for print and online and UK £155.00 for print only elsewhere. For *BBS Associates*, with proof of eligibility with order, US \$109.00 in the U.S.A., Canada, and Mexico; and UK £68.00 elsewhere. For students, with proof of eligibility with order, \$89.00 in the U.S.A., Canada, and Mexico; and UK £54.00 elsewhere. Subscription price includes surface postage. Single parts cost US \$210.00 (UK £90.00) plus postage. Institutional orders may be sent to a bookseller, or, in the U.S.A., Canada, and Mexico direct to: Cambridge University Press, 32 Avenue of The Americas, New York, NY 10013-2473 email: [journals\\_subscriptions@cambridge.org](mailto:journals_subscriptions@cambridge.org); in the U.K. and rest of the world to: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England, e-mail: [journals\\_subscriptions@cambridge.cam.ac.uk](mailto:journals_subscriptions@cambridge.cam.ac.uk). Individuals must order direct from the Press. You may also subscribe through the Cambridge Journals website, <http://journals.cambridge.org/bbs>.

**Postmaster:** Send address changes in the U.S.A., Canada, and Mexico to *Behavioral and Brain Sciences*, Cambridge University Press, Journals Dept., 100 Brook Hill Drive, West Nyack, NY 10994-2133, U.S.A. Send address change elsewhere to *Behavioral and Brain Sciences*, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England.

**Online availability** *Behavioral and Brain Sciences* is part of the Cambridge Journals Online (CJO) service at <http://journals.cambridge.org>.

**Institutional subscribers:** Access to full-text articles online is currently included with the cost of the print subscription. Subscription must be activated; see <http://cambridge.journals.org>.

**Advertising** Inquiries about advertising should be sent to the Journals Advertising Department of the Cambridge or New York Office of Cambridge University Press.

\*Modelled on the "CA Comment" service of the journal *Current Anthropology*.

# Contents Volume 32:5 October 2009

<b>Vigil, J. M.</b> A socio-relational framework of sex differences in the expression of emotion	375
<b>Open Peer Commentary</b>	
<b>Basso, F. &amp; Oullier, O.</b> When organization meets emotions, does the socio-relational framework fail?	391
<b>Buss, D. M.</b> The role of emotions in adaptations for exploitation	391
<b>Ferber, S. G.</b> Biofeedback mechanisms between shapeable endogen structures and contingent social complexes: The nature of determination for developmental paths	392
<b>Fischer, A. H.</b> Beyond our origin: Adding social context to an explanation of sex differences in emotion expression	393
<b>Fugate, J. M. B., Gouzoules, H. &amp; Barrett, L. F.</b> Separating production from perception: Perceiver-based explanations for sex differences in emotion	394
<b>Izard, C. E., Finlon, K. J. &amp; Grossman, S. R.</b> Sex differences in emotion expression: Developmental, epigenetic, and cultural factors	395
<b>Li, N. P. &amp; Balliet, D.</b> Emotional expression of capacity and trustworthiness in humor and in social dilemmas	396
<b>LoBue, V. &amp; DeLoache, J. S.</b> On the detection of emotional facial expressions: Are girls really better than boys?	397
<b>Lozano, G. A.</b> The other side of the coin: Intersexual selection and the expression of emotions to signal youth or maturity	398
<b>Lyons, M.</b> Cry baby cry, make your mother buy? Evolution of tears, smiles, and reciprocity potential	399
<b>Madison, G.</b> Human female exogamy is supported by cross-species comparisons: Cause to recognise sex differences in societal policy?	400
<b>Provine, R. R.</b> Reciprocity of laughing, humor, and tickling, but not tearing and crying, in the sexual marketplace	400
<b>Swain, J. E.</b> Brain-based sex differences in parenting propagate emotion expression	401
<b>Todorov, A.</b> On the richness and limitations of dimensional models of social perception	402
<b>Vazire, S., Naumann, L. P., Rentfrow, P. J. &amp; Gosling, S. D.</b> Smiling reflects different emotions in men and women	403
<b>Vermeulen, N.</b> On the systematic social role of expressed emotions: An embodied perspective	405
<b>Wiefel, A. &amp; Schepker, R.</b> Expressed emotions, early caregiver–child interaction, and disorders	406
<b>Zayas, V., Tabak, J. A., Günaydın, G. &amp; Robertson, J. M.</b> A social-cognitive model of human behavior offers a more parsimonious account of emotional expressivity	407
<b>Author's Response</b>	
<b>Vigil, J. M.</b> The socio-relational framework of expressive behaviors as an integrative psychological paradigm	408

<b>Evans, N. &amp; Levinson, S. C.</b> The myth of language universals: Language diversity and its importance for cognitive science		429
<b>Open Peer Commentary</b>		
<b>Baker, M. C.</b> Language universals: Abstract but not mythological	448	
<b>Bavin, E. L.</b> Widening the field: The process of language acquisition	449	
<b>Berent, I.</b> Unveiling phonological universals: A linguist who asks “why” is (inter alia) an experimental psychologist	450	
<b>Catania, A. C.</b> Language evolution: Two tracks are not enough	451	
<b>Christiansen, M. H. &amp; Chater, N.</b> The myth of language universals and the myth of universal grammar	452	
<b>Croft, W.</b> Syntax is more diverse, and evolutionary linguistics is already here	453	
<b>Freidin, R.</b> A note on methodology in linguistics	454	
<b>Goldberg, A. E.</b> Essentialism gives way to motivation	455	
<b>Harbour, D.</b> The universal basis of local linguistic exceptionality	456	
<b>Haspelmath, M.</b> The best-supported language universals refer to scalar patterns deriving from processing cost	457	
<b>Margoliash, D. &amp; Nusbaum, H. C.</b> Animal comparative studies should be part of linguistics	458	
<b>McMurray, B. &amp; Wasserman, E.</b> Variability in languages, variability in learning?	459	
<b>Merker, B.</b> Returning language to culture by way of biology	460	
<b>Nevins, A.</b> On formal universals in phonology		461
<b>Penn, D. C., Holyoak, K. J. &amp; Povinelli, D. J.</b> Universal grammar and mental continuity: Two modern myths		462
<b>Pesetsky, D.</b> Against taking linguistic diversity at “face value”		464
<b>Pinker, S. &amp; Jackendoff, R.</b> The reality of a universal language faculty		465
<b>Pullum, G. K. &amp; Scholz, B. C.</b> For universals (but not finite-state learning) visit the zoo		466
<b>Rizzi, L.</b> The discovery of language invariance and variation, and its relevance for the cognitive sciences		467
<b>Smolensky, P. &amp; Dupoux, E.</b> Universals in cognitive theories of language		468
<b>Tallerman, M.</b> If language is a jungle, why are we all cultivating the same plot?		469
<b>Tomasello, M.</b> Universal grammar is dead		470
<b>Waterfall, H. &amp; Edelman, S.</b> The neglected universals: Learnability constraints and discourse cues		471
<b>Authors’ Response</b>		
<b>Evans, N. &amp; Levinson, S. C.</b> With diversity in mind: Freeing the language sciences from Universal Grammar		472
