# International Journal of Law in Context

A global forum  
for interdisciplinary  
legal studies

The *International Journal of Law in Context* now features an exciting new section entitled 'Law in other contexts'. This section is dedicated to making available specially commissioned reports of socio-legal research in places where English is not the first language. In this way the journal hopes to bring attention to work which may not be easily accessible to those without knowledge of the relevant language (and culture).
