

Behavioral and Brain Sciences

Editors

Barbara L. Finlay, *Cornell University, USA*

Paul Bloom, *Yale University, USA*

Behavioral and Brain Sciences, with its imposing ISI Impact Factor of 12.818, is an internationally renowned journal with an innovative format. Significant and controversial pieces of work are published from researchers in psychology, neuroscience, behavioral biology or cognitive science, together with 20–30 commentaries on each article from specialists in these disciplines, plus the author's response to them. The result is a unique forum for communication, criticism, stimulation, and unification of research in behavioral and brain sciences – from molecular neurobiology to artificial intelligence and the philosophy of the mind.

Behavioural and Cognitive Psychotherapy

Published for the British Association for Behavioural
and Cognitive Psychotherapies (BABCP)

Editor

Paul M Salkovskis, Institute of Psychiatry, London, UK

Behavioural and Cognitive Psychotherapy is an international multi-disciplinary journal aimed primarily at members of the helping and teaching professions. The journal features original research papers, covering both experimental and clinical work, that contribute to the theory, practice and evolution of cognitive and behaviour therapy. Under the guidance of an international editorial team, *Behavioural and Cognitive Psychotherapy* aims to reflect and influence the continuing changes in the concepts, methodology and techniques of behavioural and cognitive psychotherapy. A particular feature of the journal is its broad-ranging scope - both in terms of topics and types of study covered.

Bilingualism: Language and Cognition

Editor

Jürgen M. Meisel, Hamburg University, Germany

David W. Green, University College London, UK

Ping Li, Pennsylvania State University, USA

Carmen Silva-Corvalán, University of Southern California, USA

Bilingualism: Language and Cognition is an international peer-reviewed journal focusing on bilingualism from a cognitive science perspective. The aims of the journal are to promote research on the bilingual person and to encourage debate in the field. The domains covered are the following: bilingual language competence, perception and production, bilingual language acquisition in children and adults, neurolinguistics of bilingualism (in normal and brain-damaged populations), and non-linguistic cognitive processes in bilinguals. *Bilingualism* carries articles and research notes on all aspects of the bilingual person, and is published three times a year.

the Cognitive Behaviour Therapist

Published for the British Association for Behavioural and Cognitive Psychotherapies (BABCP)

Editor-in-Chief

Michael Townend, *University of Derby, UK*

tCBT is an interdisciplinary, peer-reviewed journal aimed primarily at practitioners of cognitive behaviour therapy in the helping and teaching professions. It features papers covering clinical and professional issues, which contribute to the theory, practice and evolution of the cognitive and behavioural therapies. The journal publishes papers that describe new developments, are practice-focused, detail clinical interventions, research reports, case reports, practice audits, and reviews of clinical scales. The journal also publishes papers that have an education, training or supervision focus, or reviews of recently published literature.

Development and Psychopathology

Editor

Dante Cicchetti, *Mt. Hope Family Center, University of Rochester and Institute of Child Development and Department of Psychiatry, University of Minnesota, USA*

This multi-disciplinary journal is devoted to the publication of original, empirical, theoretical and review papers which address the inter-relationship of normal and pathological development in adults and children. It is intended to serve the field of developmental psychopathology, which strives to understand patterns of adaptation and maladaptation throughout the lifespan. This journal is of interest to psychologists, psychiatrists, social scientists, neuroscientists, paediatricians and researchers.

Development and Psychopathology is available online at: <http://journals.cambridge.org/dpp>

Journal of the International Neuropsychological Society

Published for the International Neuropsychological Society

Editor-in-Chief

Kathleen Y. Haaland, *NM VA Healthcare System, Albuquerque, US*

JINS aims to further scientific and research activities in neuropsychology and enhance communication among its cognate member disciplines. The journal publishes scholarly, peer-reviewed articles and includes original research, timely review articles and transactions of the annual meetings of the International Neuropsychological Society. Contributions reflect the interest of all areas of neuropsychology, including (but not limited to): development of cognitive processes, brain-behavior relationships, adult neuropsychology, child neuropsychology, developmental neuropsychology, disorders of speech and language, and related topics such as behavioral neurology, neuropsychiatry, neuroimaging, and electrophysiology.

Psychological Medicine

Editors

Kenneth S. Kendler, Virginia Institute for Psychiatric Behavioral Genetics, Virginia,
USA

Robin M. Murray, Institute of Psychiatry, London, UK

Now in its fifth decade of publication, *Psychological Medicine* is a leading international journal in the fields of psychiatry, clinical psychology and the related basic sciences. There are twelve issues per year, each featuring original articles reporting key research being undertaken worldwide, together with shorter editorials by distinguished scholars and an important book review section. The journal's success is clearly demonstrated by a consistently high Impact Factor.

Behaviour Change

Instructions to Contributors

1. To be reviewed for possible publication in this journal all authors must follow the instructions below and submit their manuscript to:
https://www.australianacademicpress.com.au/cup_jsm/
All articles are refereed. Papers submitted to the journal must not previously have been published nor submitted for publication to any other journal.
2. Papers should be submitted via e-mail in Word or RTF format. Authors who wish to submit their paper in hard copy format may do so by arrangement with the editor.
3. Contributions should follow the format and style described in the *Publication Manual of the American Psychological Association* (5th ed.). Spelling and punctuation should conform to *The Macquarie Dictionary* (4th ed.). For matters of style not covered in these two publications the *Style Manual for Authors, Editors and Printers* (6th ed.) should be consulted.
4. Documents should be double-spaced with minimum margins of 20 mm on the left and 35 mm on the right. Uncommon abbreviations and acronyms should be explained. Do not use underlining except to indicate italics. Full stops should not be used in abbreviations or acronyms (e.g., NSW).
5. Use single quotation marks to introduce a word or phrase used as an ironic comment, as slang, or which has been coined. Use quotation marks the first time the word or phrase is used; do not use them again. Do not use quotation marks to introduce a technical or key term. Instead, italicise the term.
6. **Front page:** under the title of the article only the names and affiliations of the authors appear. Qualifications, present appointments, and postal and e-mail addresses should be given in a separate section on the front page labelled 'Address for correspondence'. A word count and suggested running head of no more than 50 characters including spaces should also be provided.
7. Do not use any footnotes. **Endnotes** should be kept to a minimum and listed at the end of the text under the centred heading 'Endnotes'. **Acknowledgments** should be placed at the end of the article with a separate heading.
8. **Tables** should be at the end of the manuscript, not in the main text. Their approximate positions in the text should be indicated by the words, 'Insert Table X here'. Horizontal and vertical lines should be used sparingly.
9. To ensure optimum quality, please follow these guidelines when submitting artwork via e-mail:
 - **Photographs, graphs and figures** should be prepared to the correct size (max. width up to 120 mm) and each one supplied as an individual file, separate to the manuscript Word file. Include placement instructions in the Word document, such as 'Insert Figure 1 here'.
 - Figures created in Microsoft Word or Powerpoint need to be saved as PDFs.
 - Figures created in a drawing program such as Adobe Illustrator, CorelDRAW, Freehand, Microsoft Publisher or similar should be saved as EPS (encapsulated postscript) files.
 - Figures created in Photoshop or with other photographic software should be saved as line art (artwork that has only text and lines, no shades of grey or blocks of colour) with a minimum resolution of 600 dpi and in TIF format. Minimum resolution for scanned graphics is 300 dpi for halftone work (e.g., photographs) and 600 dpi for line art, and these should also be in TIF format.
 - Manuscripts that contain equations created with LaTeX or similar specialist software need to be supplied as a PDF file as well as a Microsoft Word document.
 - Prior to sending artwork, the separate files of figures, graphs, illustrations, etc. should be printed by the author to test that the fonts have been embedded correctly and there is no distortion in the artwork (e.g., lines and fonts reproduce cleanly with no jagged lines or fuzzy edges), as any such faults cannot be corrected by the publisher.
 - Preferred media for delivery: e-mail as attachments, Macintosh or PC floppy disk, Macintosh or PC Zip disk, CD-ROM. If your artwork does not meet these guidelines, it may be returned to you.
10. **References and citations** should follow the format and style described in the *Publication Manual of the American Psychological Association* (5th ed.).
Examples of citations are:
The theory was first propounded in 1970 (Larsen, 1971).
Larsen (1971) was the first to propound the theory.
Examples of references are:
Fisse, B. (1989). The proceeds of crime act: The rise of money laundering, offences and the fall of principle. *Criminal Law Journal*, 13, 5–23.
Zelinski, E.M., & Gilewski, M.J. (1988). Memory for prose and aging: A meta-analysis. In M.L. Howe & C.J. Brainerd (Eds.), *Cognitive development in adulthood* (pp. 133–158). New York: Springer-Verlag.
11. Authors are expected to check the accuracy of all references and citations in the manuscript before submission.
