

THE HISTORY OF QUANTUM THEORY

Friedrich Hund

Professor at Göttingen University

Translated by

Gordon Reece, M.Sc., Imperial College London

The development of quantum theory in physics and chemistry has probably had more impact than any other development in twentieth-century science.

Professor Hund — one of the few remaining scientists with first-hand knowledge of the events between 1900 and 1927 has comprehensively and accurately described the major discoveries, developments in thought and the people in this exciting period of scientific history. Gordon Reece has made a lively and accurate translation of the German text.

Liberation and the Aims of Science
An Essay on Obstacles to the Building of a Beautiful World
Brian Easlea

With a penetrating historical and conceptual survey, ranging from the Copernican Revolution through Newton, Einstein and Keynes, the Russian Revolution up to the present day, Brian Easlea makes a bold attempt to answer many provocative questions relating to the nature and aims of science.

hardback £5.50 paperback £2.50

Scottish Academic Press

Science and Creation
From Eternal Cycles to an Oscillating Universe
Stanley L. Jaki

Today science is looming large as a threatening and irrational factor. Professor Jaki shows how it could be that despite the many promising beginnings of scientific thought in the ancient world the Christian middle ages were vital for the flourishing of science.

The British Society for the History of Science

THE objects of the Society are to further the study of the history of science by holding meetings for the reading and discussion of papers and by facilitating the publication of relevant material. *The British Journal for the History of Science* is published by the Society as its official organ.

There will generally be a summer meeting, a winter meeting, and an Easter meeting of the Society. Additional meetings are arranged for specific occasions such as important anniversaries.

Membership, which includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription is £5.00 (\$15.00) or, for Students, £3.00 (\$9.00).

Membership: Applications for membership should be made on a form that is available from The Assistant Secretary, The British Society for the History of Science, 47 Belgrave Square, London SW1X 8QX.

THE BRITISH JOURNAL FOR THE HISTORY OF SCIENCE

THE *Journal* is published three times a year, in March, July, and November, and the three parts published in any one year constitute a volume.

Editorial matters: Papers for inclusion in the *Journal* should be submitted to the Hon. Editor, Dr Robert Fox, Department of History, University of Lancaster, Bailrigg, Lancaster LA1 4YG, from whom instructions may be obtained concerning the presentation and documentation of papers. All communications on editorial matters, and books for review, should be addressed to the Hon. Editor.

Advertising: Particulars about advertising in the *Journal* may be obtained from Anthony Merson Ltd, 16 Little Common Road, Bexhill, Sussex.

Orders and back issues: Orders for the *Journal* and inquiries about back issues should be addressed to Headley Brothers Ltd, Ashford, Kent TN24 8HH. Information about binding costs may also be obtained from Headley Brothers.
