Animal Health Research Reviews

Published in collaboration with the Conference of Research
Workers in Animal Diseases

Editor-in-Chief

C. Gyles, *University of Guelph, Canada*

Animal Health Research Reviews provides an international forum for the publication of reviews and commentaries on all aspects of animal health. Papers include in-depth analyses and broader overviews of all facets of health and science in both domestic and wild animals. Major subject areas include physiology and pharmacology, parasitology, bacteriology, food and environmental safety, epidemiology and virology. The journal will be of interest to researchers involved in animal health, parasitologists, food safety experts and academics interested in all aspects of animal production and welfare.

Journal of Dairy Research

Published for the Institute of Food Research and the Hannah Research Institute

Executive Editors

D. G. Chamberlain, *Hannah Research Institute, UK*

E. C. Needs, *Hannah Research Institute, UK*

Journal of Dairy Research publishes original scientific research on all aspects of mammary biology and dairy science including: the physiology, biochemistry, cell biology and endocrinology of lactation; animal husbandry, milk production, composition, preservation, processing and separation; biotechnology and food science; properties of milk proteins and other components; dairy products such as cheese, fermented milks and spreads; relevant studies in bacteriology, enzymology and immunology, the use of milk products in other foods; and the development of methods relevant to these subjects.

Epidemiology and Infection

Editor-in-Chief

Norman Noah, London School of Hygiene and Tropical Medicine, UK

Epidemiology and Infection publishes original reports and reviews on all aspects of infection in humans and animals. Particular emphasis is given to the epidemiology, prevention and control of infectious diseases. The field covered is broad and includes the zoonoses, tropical infections, food hygiene, vaccine studies, statistics and the clinical, social and public health aspects of infectious disease. Papers covering microbiology and immunology, which have an epidemiological relevance, are part of this broad field. Papers come from medical and veterinary scientists worldwide. It has become the key periodical in which to find the latest reports on recently discovered infections and new technology. For those concerned with policy and planning for the control of infections, the papers on mathematical modelling of epidemics caused by historical, current and emergent infections, will be of particular value.

Journal of Helminthology

Editor

John Lewis, Royal Holloway, University of London, UK

Journal of Helminthology publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

The Lichenologist

Published on behalf of The British Lichen Society

Senior Editor

Peter D. Crittenden, University of Nottingham, UK

The Lichenologist is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, *The Lichenologist* reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered including systematics and phylogenetics; molecular biology; ultrastructure, anatomy and morphology; secondary chemistry, effects of pollutants and use as bioindicators; biogeography.

Microscopy and Microanalysis

Published for the Microscopy Society of America

Editor

Robert L. Price, *University of South Carolina, USA*

Microscopy and Microanalysis, a peer-reviewed bi-monthly, publishes original research papers in the fields of microscopy, imaging, and compositional analysis. This distinguished international forum is intended for microscopists in both biology and materials science. The journal provides significant articles that describe new and existing techniques and instrumentation, as well as the applications of these to the imaging and analysis of microstructure. *Microscopy and Microanalysis* also includes review articles, short communications, letters to the editor, and book reviews.

Journal of Tropical Ecology

Editor

Ian Turner, Winchelsea, UK

Journal of Tropical Ecology publishes papers in the important and now established field of the ecology of tropical regions, either arising from original research (experimental or descriptive) or forming significant reviews. First published in 1985, *Journal of Tropical Ecology* has become a major international ecological journal. With clear, stimulating and readable reports of recent research findings, the journal provides a platform for the dissemination of information on all aspects of tropical communities and ecosystems

PARASITOLOGY

CONTENTS

RESEARCH ARTICLES

- Oral oocyst-induced mouse model of toxoplasmosis: effect of infection with *Toxoplasma gondii* strains of different genotypes, dose, and mouse strains (transgenic, out-bred, in-bred) on pathogenesis and mortality**
J. P. Dubey, L. R. Ferreira, J. Martins and Rima McLeod 1
- Regime shifts and heterogeneous trends in malaria time series from Western Kenya Highlands**
Luis Fernando Chaves, Masahiro Hashizume, Akiko Satake and Noboru Minakawa 14
- A novel triazolic naphthofuranquinone induces autophagy in reservosomes and impairment of mitosis in *Trypanosoma cruzi***
M. C. Fernandes, E. N. da Silva Jr, A. V. Pinto, S. L. de Castro and R. F. S. Menna-Barreto 26
- Morphological, biological and molecular characterization of three strains of *Trypanosoma cruzi* Chagas, 1909 (Kinetoplastida, Trypanosomatidae) isolated from *Triatoma sordida* (Stal) 1859 (Hemiptera, Reduviidae) and a domestic cat**
Aline Rimoldi, Renata Tomé Alves, Daniela Luz Ambrósio, Maria Zenaide Tita Fernandes, Isabel Martinez, Renato Freitas de Araújo, Regina Maria Barreto Cicarelli and João Aristeu da Rosa 37
- Revisiting the *Acanthamoeba* species that form star-shaped cysts (genotypes T7, T8, T9, and T17): characterization of seven new Brazilian environmental isolates and phylogenetic inferences**
Ana C. M. Magliano, Marta M. G. Teixeira and Sílvia C. Alfieri 45
- Experimental evidence for costs due to chewing lice in the European bee-eater (*Merops apiaster*)**
H. Hoi, J. Křištofik, A. Darolová and C. Hoi 53
- Feeding performance of fleas on different host species: is phylogenetic distance between hosts important?**
Irina S. Khokhlova, Laura J. Fielden, A. Allan Degen and Boris R. Krasnov 60
- Development of multiple-locus variable-number tandem-repeat analysis for rapid genotyping of *Ehrlichia ruminantium* and its application to infected *Amblyomma variegatum* collected in heartwater endemic areas in Uganda**
Ryo Nakao, Liam J. Morrison, Lijia Zhou, Joseph W. Magona, Frans Jongejan and Chihiro Sugimoto 69
- Exposure of small mammals to ticks and rickettsiae in Atlantic Forest patches in the metropolitan area of Recife, North-eastern Brazil**
Filipe Dantas-Torres, Filipe Martins Aléssio, Daniel Barreto Siqueira, Jean-François Mauffrey, Maria Fernanda V. Marvulo, Thiago F. Martins, Jonas Moraes-Filho, Maria Cecília G. O. Camargo, Sandra Regina Nicoletti D'Auria, Marcelo B. Labruna and Jean Carlos Ramos Silva 83
- Extensive diversity of intestinal trichomonads of non-human primates**
Pavla Smejkalová, Klára J. Petrželková, Kateřina Pomajbíková, David Modrý and Ivan Čepička 92
- Morphological characteristics of *Echinococcus granulosus* derived from buffalo in Iran**
Seyed Hossein Hosseini, Arash Amin Pour and Parviz Shayan 103
- The effects of dietary non-starch polysaccharides on *Ascaridia galli* infection in grower layers**
G. Daş, H. Abel, J. Humburg, A. Schwarz, S. Rautenschlein, G. Breves and M. Gauly 110
- Helminths of red foxes (*Vulpes vulpes*) and raccoon dogs (*Nyctereutes procyonoides*) in Lithuania**
Rasa Bružinskaitė-Schmidhalter, Mindaugas Šarkūnas, Alvydas Malakauskas, Alexander Mathis, Paul R. Torgerson and Peter Deplazes 120
- Clone-specific immune reactions in a trematode-crustacean system**
Anson V. Koehler and Robert Poulin 128
- Book Review** 137
