

Announcement

10th International Congress of Phonetic Sciences

The 10th International Congress of Phonetic Sciences will be held in Utrecht, the Netherlands, from August 2-8 1983. There will be invited lectures on the following themes: relation between speech production and speech perception; speech and hearing; theory formation and data in phonetics; speech technology in the next decades; psycholinguistic contributions to phonetics. There will be 5 major areas covering phonetic research over which section papers will be distributed: 1, speech acoustics and speech processing systems; 2, speech production; 3, speech perception; 4, speech and language; 5, application-oriented speech research.

A number of symposia will be organized covering themes of wide interest. There will be an exhibition of scientific instruments and equipment used in phonetic research.
