University College of North Wales, Bangor

Journal of Linguistics is concerned with all branches of theoretical linguistics, including syntax, morphology, phonology, phonetics, semantics, pragmatics and historical, sociological, computational and psychological aspects of language and linguistic theory. The journal also provides an excellent survey of recent publications in the field with review articles on major works marking important theoretical advances as well as about twenty reviews and shorter notices in each issue. Coverage includes:

- ◆ Articles – reports of research on substantive issues
- ◆ Notes and Discussion – short reports on topics of current interest or controversy
- ◆ Review articles – carefully commissioned extended reviews of major publications
