## MURRAY'S CLASSICAL ATLAS FOR SCHOOLS

Edited by G. B. GRUNDY, M.A., D.Litt.

FELLOW AND TUTOR OF CORPUS CHRISTI COLLEGE, OXFORD

Consisting of 14 Sheets (containing 38 Maps and Plans) with a complete Index.  
Folio (14½ x 9¾ ins.). Price 6s.

The Maps in this Atlas incorporate the results of recent scholarship, and have been most carefully prepared so as to accentuate all the chief names and natural features of the countries, and by eliminating those of minor importance to avoid overcrowding. The use of colour contours, whilst displaying the configuration of the countries at a glance, enhances the effect of simplicity, which cannot be achieved in maps where the old-fashioned method of hachured mountains obscured the names. The Atlas contains a complete index.

### HEADMASTERS' OPINIONS

"A nicer atlas I never saw."

"The maps are admirably clear and the detailed plans of sites and battlefields make it more useful for Classical History than any other school atlas that I know."

"It is quite the best one for ordinary purposes that I have ever seen."

"It comes nearer to my ideal than anything I have seen, the coloured contours instead of the terrible hachured stuff usually put in being excellent."

"The execution is admirable, the selection of maps most useful."

"Your new Classical Atlas was introduced into the school the day after you kindly sent me a copy of it. It was much needed."

### PRESS OPINIONS

*Journal of Education.*—"The most striking feature of this new 'Atlas' is its extreme clearness, due partly to the good type and partly to the use of coloured contours instead of *hachures* for mountains. . . . If we compare Mr. Grundy's 'Atlas' with the 'Butler' of our schooldays, we shall be duly impressed with the strides made not only in cartography, but also in cheapness."

*Secondary Education.*—"Mr. Murray has laid the classical student under another debt of obligation by this splendid atlas, which reflects the greatest credit on both author and publisher. Every map is beautifully printed, and is a model of clearness, not one being overcrowded. The price (6s.) is remarkably low; the marvel is that so good a work can be produced at the price."

JOHN MURRAY, ALBEMARLE STREET, LONDON, W.
