

A black and white photograph of an archaeological excavation site. Two hands are visible, one on the left and one on the right, both resting on the ground. A small, dark, circular object, possibly a coin or a small artifact, is lying on the ground between the hands. The ground is uneven and appears to be dirt or sand. A large, semi-transparent dark circle is overlaid on the right side of the image, containing the text.

Archaeology

Books and Journals from
Cambridge University Press

Cambridge publishes books and journals that cover research throughout world archaeology and across all periods.

Our list includes key handbooks and manuals in method, theory and scientific techniques; case studies of sites, surveys and excavations; comparative and interpretative works; scholarship on cultural resource management, and large scale, reliable reference works.
