Editorial	
What do we want to know about the relationship of wealth or income to nutrition? <i>H Alderman</i>	1485
In this issue	1487
<i>A Yngve</i>	
HOT TOPIC – Poverty and undernutrition	
Measuring food insecurity and hunger in Peru: a qualitative and quantitative analysis of an adapted version of the USDA's Food Insecurity and Hunger Module <i>S Vargas and ME Penny</i>	1488
Association between socio-economic status and childhood undernutrition in Bangladesh; a comparison of possession score and poverty index <i>M Mohsena, CGN Mascie-Taylor and R Goto</i>	1498
Height and weight gains in a nutrition rehabilitation day-care service <i>M de F Alves Vieira, AA Ferraro, MH do N Souza, MTB Fernandes and AL Sawaya</i>	1505
Prevalence of anaemia among pregnant women in south-east China, 1993–2005 <i>L Jin, LF Yeung, ME Cogswell, R Ye, RJ Berry, J Liu, DJ Hu and L Zhu</i>	1511
Monitoring and surveillance	
Short communication	
Underweight and overweight among children in Zahedan, south-east Iran <i>M Maddah, T Shabraki and M Shabraki</i>	1519
Changes in bone mineral density of adolescent mothers during the 12-month postpartum period <i>A Malpeli, JL Mansur, S De Santiago, R Villalobos, A Armanini, M Apezteguia and HF González</i>	1522
Vitamin D deficiency is endemic in Middle Eastern sportsmen <i>B Hamilton, J Grantham, S Racinais and H Chalabi</i>	1528
Risk factors for childhood obesity in a Greek paediatric population <i>D Papandreou, P Malindretos and I Rousso</i>	1535
Multivitamin supplement use and risk of invasive breast cancer <i>JM Meulepas, PA Newcomb, AN Burnett-Hartman, JM Hampton and A Trentham-Dietz</i>	1540
Assessment and methodology	
Validation of an FFQ to estimate the intake of fatty acids using erythrocyte membrane fatty acids and multiple 3 d dietary records <i>B Zhang, P Wang, C-g Chen, Q-q He, S-y Zhuo, Y-m Chen and Y-x Su</i>	1546
Comparative analysis of two FFQ <i>JB Keogh, K Lange and J Syrette</i>	1553
Development and validation of a new simple Healthy Meal Index for canteen meals <i>AD Lassen, A Biloft-Jensen, GL Hansen, O Hels and I Tetens</i>	1559
Developing waist-to-height ratio cut-offs to define overweight and obesity in children and adolescents <i>S Nambiar, I Hughes and PSW Davies</i>	1566
Biological and behavioural determinants	
Lifestyle risk factors for overweight in Japanese male college students <i>M Goto, K Kiyohara and T Kawamura</i>	1575
Peanut consumption and cardiovascular risk <i>MG Nouran, M Kimiagar, A Abadi, M Mirzazadeh and G Harrison</i>	1581
6-n-Propylthiouracil sensitivity and obesity status among ethnically diverse children <i>JC Baranowski, T Baranowski, A Beltran, KB Watson, R Jago, M Callie, M Missaghian and BJ Tepper</i>	1587

Contents continued on backmatter

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at phn@nutsoc.org.uk

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing

interests. The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a copy of the issue and a PDF of the published paper free of charge. Offprints are available to purchase and can be ordered before publication.

Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: kchristomanou@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 13, 2010 (12 issues):
Internet/print package: £697/\$1337 Americas only/€1117 EU only
Internet only: £589/\$1116 Americas only/€936 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database
Public Health Nutrition participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Contents continued from outside back cover

Social, economic, political and environmental determinants

- Length of residence and obesity among immigrants in Spain 1593
JL Gutiérrez-Fisac, A Marín-Guerrero, E Regidor, P Guallar-Castillón, JR Banegas and F Rodríguez-Artalejo
- Energy density, energy costs and income – how are they related? 1599
WE Waterlander, WE de Haas, I van Amstel, AJ Schuit, JWR Twisk, M Visser, JC Seidell and IHM Steenbuis
- Household food security status and associated factors among high-school students in Esfahan, Iran 1609
A Mohammadzadeh, A Dorosty and M Esbraghian
- Socio-economic status, place of residence and dietary habits among the elderly: the Mediterranean islands study 1614
A Katsarou, S Tyrovolas, T Psaltopoulou, A Zeimbekis, N Tsakountakis, V Bountziouka, E Gotsis, G Metallinos, E Polychronopoulos, C Lionis and D Panagiotakos

Interventions

- Non-dieting group interventions for overweight and obese women: what predicts non-completion and does completion improve outcomes? 1622
AJ Bradshaw, CC Horwath, L Katzner and A Gray
- A worksite programme significantly alters nutrient intakes 1629
SM Levin, HR Ferdousian, VJ Hoover, AA Green and ND Barnard
- Effect of dietary fatty acid intake on prospective weight change in the Heidelberg cohort of the European Prospective Investigation into Cancer and Nutrition 1636
K Nimptsch, G Berg-Beckhoff and J Linseisen
- Long-term sustainability of a worksite canteen intervention of serving more fruit and vegetables 1647
AV Thorsen, AD Lassen, I Tetens, O Hels and BE Mikkelsen

Public policies

- Lifetime health outcomes of breast-feeding: a comparison of the policy documents of five European countries 1653
E Martin-Bautista, H Gage, J von Rosen-von Hoewel, V Jakobik, K Laitinen, M Schmid, J Morgan, P Williams, T Decsi, C Campoy, B Koletzko and M Raats

Special groups

- Nutrition knowledge, attitudes, behaviours and the influencing factors among non-parent caregivers of rural left-behind children under 7 years old in China 1663
C Tan, J Luo, R Zong, C Fu, L Zhang, J Mou and D Duan
- Intake of total dietary sugar and fibre is associated with insulin resistance among Danish 8–10- and 14–16-year-old girls but not boys. European Youth Heart Studies I and II 1669
I Kynde, NF Johnsen, N Wedderkopp, Ib C Bygbjerg, JW Helge and BL Heitmann
