Weekend Cruiser (2005). George Widener (b. 1962). Pen & ink on found paper napkins 97cm x 144cm. Photo: Arnaud Conne. Collection de l'Art Brut, Lausanne, Switzerland.

George Widener is an American outsider artist who accepts his diagnosis of Asperger syndrome. He is now the most prodigious calendar calculating savant alive since the death of Kim Peek (who inspired the 'Rain Man'). He writes:

'To count in a dream: listen to the rythem [sic] inside, see every "1" as a Sunday, every "2" as a Monday, "3" equals Tuesday, "4" equals Wednesday, "5" equals Thursday, "6" equals Friday, "7" equals Saturday; then the months will come to you as you go through a century; to get to the new dream, you must start over, you must RESET the days. . . .'

Weekend Cruiser is on permanent display at the Collection de l'Art Brut, Lausanne, Switzerland. George Widener is represented in the UK by Henry Boxer. For more information visit <http://www.outsiderart.co.uk/widener.html>

Submitted by Dr Joanna Bredski

We are always looking for interesting and visually appealing images for the cover of the *Journal* and would welcome suggestions or pictures, which should be sent to Dr Allan Beveridge, British Journal of Psychiatry, 17 Belgrave Square, London SW1X 8PG, UK or bjp@rcpsych.ac.uk.
