WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Franck E. Dayan, USDA-ARS-NPURL, National Center for Natural Products Research, University, MS 38677 (2003)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Marie Jasieniuk, Department of Plant Sciences, University of California, Davis, CA 95616 (2016)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$453.00; UK £315.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

Photo shows the effect of wheat crop competition on the growth habit of ripgut brome grass (*Bromus diandrus*) (left), which without competition displays a prostrate growth habit (right). Photo by Dr. Michael Walsh.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 67 Number 6 November 2019

REVIEW

- Herbicide resistance in China: a quantitative review. *Xiangying Liu, Shihai Xiang, Tao Zong, Guolan Ma, Lamei Wu, Kailin Liu, Xuguo Zhou and Lianyang Bai* 605

RESEARCH ARTICLES

- Investigation into interactions of environmental and application time effects on 2,4-D and dicamba-induced phytotoxicity and hydrogen peroxide formation. *Christopher R. Johnston, William K. Vencill, Timothy L. Grey, A. Stanley Culpepper, Gerald M. Henry and Mark A. Czarnota*..... 613
- Physiological assessment of non-target site resistance in multiple-resistant junglerice (*Echinochloa colona*). *Christopher E. Rouse, Nilda Roma-Burgos and Bianca Assis Barbosa Martins*..... 622
- Glyphosate sensitivity of selected weed species commonly found in maize fields. *María-Concepción Escorial, María-Cristina Chueca, Andrés Pérez-Fernández and Iñigo Loureiro* 633
- The response of glyphosate-resistant and glyphosate-susceptible biotypes of annual sowthistle (*Sonchus oleraceus*) to mungbean density. *Ahmadreza Mobli, Amar Matloob and Bhagirath Singh Chauhan*..... 642
- Large crabgrass (*Digitaria sanguinalis*) and Palmer amaranth (*Amaranthus palmeri*) intraspecific and interspecific interference in soybean. *Nicholas T. Basinger, Katherine M. Jennings, David W. Monks, David L. Jordan, Wesley J. Everman, Erin L. Hestir, Matthew B. Bertucci and Cavell Brownie*..... 649
- Enhanced wheat competition effects on the growth, seed production, and seed retention of major weeds of Australian cropping systems. *Michael J. Walsh*..... 657
- Interference of turnipweed (*Rapistrum rugosum*) and Mexican pricklepoppy (*Argemone mexicana*) in wheat. *Sudheesh Manalil and Bhagirath Singh Chauhan* 666
- Weed community structure and soybean yields in a long-term organic cropping systems experiment. *Margaret G. Ball, Brian A. Caldwell, Antonio DiTommaso, Laurie E. Drinkwater, Charles L. Mohler, Richard G. Smith and Matthew R. Ryan*..... 673
- Fertilizer placement affects growth and reproduction of three common weed species in pine bark-based soilless nursery substrates. *Debalina Saha, S. Christopher Marble, Nelmaris Torres and Annette Chandler*..... 682
- Dynamics of arbuscular mycorrhizal fungi in relation to root colonization, spore density, and soil properties among different spreading stages of the exotic plant threeflower beggarweed (*Desmodium triflorum*) in a *Zoysia tenuifolia* lawn. *Xiaoge Han, Changchao Xu, Yutao Wang, Dan Huang, Qiang Fan, Guorong Xin and Christoph Müller*..... 689
- The influence of winter annual grass litter on herbicide availability. *Shannon L. Clark, Paulo V. da Silva, Franck E. Dayan, Scott J. Nissen and Derek J. Sebastian* 702
