

The Master Psychopharmacology Program is intended as recognition for study in psychopharmacology that goes far beyond keeping CME up to date. Completion of the Master Psychopharmacology Program shows serious interest and investment in the field by those who attain Master Psychopharmacologist recognition. The program consists of 10 self-assessment exams (SAEs), each covering an individual topic, 24 online Fellowship activities, and one final exam. Candidates have 12 months to fulfill these requirements, and achieve the Master Psychopharmacologist designation.

## NEI Membership

Prerequisite

## Self-Assessment Exams (Online)
