Applied

Philosophy

This journal provides a focus for philosophical research with a direct bearing on areas of practical concern which are capable of being illuminated by the critical analytical approach characteristic of philosophy, and by direct consideration of questions of value. These areas include law, politics, economics, science-policy, medicine and education, but are not confined to these. The journal, published under the auspices of the Society for Applied Philosophy, aims to foster and promote philosophical work which is intended to make a constructive contribution to problems in these areas and to the identification, justification and discussion of values capable of transcending narrow or local interests.

EDITORS

Brenda Almond & Anthony O’Hear
