REDLICH PRIZE

The Redlich Prize, recently established, is to be awarded every second year to honor the memory of Dr. Fritz Redlich, who died in 1978. It will be presented to the author of the best article, as judged by a six-person committee, contained in the following publications:

Journal of Economic History
 Explorations in Economic History
 Business History Review
 Proceedings of the Business History Conference
 Economic History Review
 Business History
 Vierteljahrschrift für Sozial- und Wirtschaftsgeschichte
 Zeitschrift für Unternehmensgeschichte
 Scripta Mercaturae
 Journal of European Economic History
 Scandinavian Economic History Review
 Geschichte und Gesellschaft
 Annales: Économies, Sociétés, Civilisations
 Australian Economic History Review
 Revue d'Histoire Economique et Sociale

The best article in each publication over a two-year period will be submitted by the editor(s) of each journal to the Redlich Prize Committee, which will, however, not be restricted to the articles nominated and may add articles from these and other sources to the pool from which a choice will be made.

Fritz Redlich had numerous interests. Among them were economic and business history as it pertains to entrepreneurship, banking, technology, the military, industrial organization, labor, management, aristocracy, and marketing. While these interests may serve as guides to the selection of the best article, they should not be restrictive. Redlich was innovative in his own work and urged others, especially younger members of the profession, to be experimental and to search for areas that may have been overlooked in the past.

THEODORE SALOUTOS MEMORIAL BOOK AWARD

An agricultural history book award has been established in memory of Theodore Saloutos (1910–1980), a distinguished historian and a past president of the Agricultural History Society. An annual award of \$500 will be presented to the author of a book on any aspect of the agricultural history of the United States, broadly interpreted, judged best by the Award Committee. The first award, for a book published in 1982, will be made at the annual meeting of the Society in April 1983.

To be eligible, a book must be based on substantial primary research, and should represent a major new scholarly interpretation or reinterpretation of agricultural history scholarship. A book may be nominated by its author, the publisher, a member of the Award Committee, or a member of the Society. Nominations are to be made to the editor of *Agricultural History*, who will assist the committee. Inquiries may be addressed to: Editorial Office, *Agricultural History*, Agricultural History Center, University of California, Davis, California 95616.
