

EDITORIAL

This issue of *Clay Minerals* is devoted entirely to papers presented at a conference on 'Mineral Diagenesis and Reservoir Quality – the Way Forward' held at the Department of Engineering, University of Cambridge on 26th and 27th March 1998. This meeting was the sixth in a series of very successful meetings at the University of Cambridge on the general theme of clay minerals and petroleum exploration and was again organized by Dr C.V. Jeans on behalf of the Clay Minerals Group under the auspices of the Mineralogical Society of Great Britain and Ireland, the Petroleum Exploration Society of Great Britain, the London Petrophysical Society and the Geological Society of London. Dr Jeans has also contributed an introduction to the issue.

Thanks are due to Dr P.L. Hall, Dr H.F. Shaw and Professor D.A. Spears who handled all the manuscripts through the review stages, and to Sandra Last and Gillian Foreman for help with the Conference.

This issue has been financed separately from normal issues of the journal and publication has been supported financially by learned societies,

individuals, oil companies and companies servicing the oil industry; these are as follows:

AMERADA HESS LTD
BADLEY ASHTON & ASSOCIATES LTD
BP EXPLORATION OPERATING CO LTD
CHEMOSTRAT CONSULTANTS
CHEVRON EUROPE LTD
CHRISTOPHER BROWN
DEMINEX UK OIL & GAS LTD
ELF EXPLORATION UK PLC
GEOLOGICAL SOCIETY (PETROLEUM GROUP)
JAPAN NATIONAL OIL CORPORATION
LASMO NORTH SEA LTD
LONDON PETROPHYSICAL SOCIETY
MINERALOGICAL SOCIETY
MOBIL NORTH SEA LTD
NORSK HYDRO
OWLVISION
PETROBRAS
SCHLUMBERGER CAMBRIDGE RESEARCH LTD
STATOIL

Individual copies are available at a cost of £25 or US\$45 from the Mineralogical Society office (details on inside front cover).
